Benelli's Inertia Driven® System.

"THE LAW OF INERTIA" — is Newton's First Law of Physics and is as consistent and unchangeable as The Law of Gravity. Benelli has harnessed this basic law of physics in the Inertia Driven® system to operate the world's fastest, simplest and most reliable semi-automatic shotguns. It's not boasting, it's the law — The Law of Inertia.

RELIABLE — The Inertia Driven® system never needs adjusting and will cycle anything from light field loads to 3½" magnums with consistent reliability, year, after year, after year. In fact, there are Inertia Driven® Benelli shotguns that have fired over 500,000 rounds, still in the field and functioning perfectly.

SIMPLE — Inertia Driven® is simple with only three primary parts: the bolt body, the inertia spring and the rotating bolt head. Simple is better.

FASTER — With a greatly reduced mass of parts, Inertia Driven® is faster.

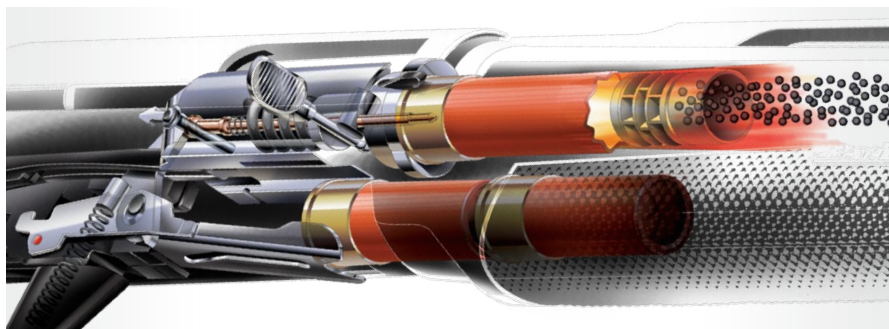

CLEANER — Gas, smoke and burnt powder stay in the barrel where they belong, rather than being channeled into the gun's mechanism, as they are in gas systems.

STRONG — The strong steel locking lugs on the Inertia Driven® system's rotating bolt head not only lock steel-to-steel into the gun's barrel; the lugs lock-in even tighter during firing.

LOW MAINTENANCE — The Inertia Driven® system is much cleaner so gun cleaning takes a fraction of the time that it takes to clean a gas-system gun.

LIGHT WEIGHT — The Inertia Driven® system is not only incredibly simple, it is also lightweight, allowing Benelli shotguns to be some of the lightest semi-automatic shotguns ever produced.

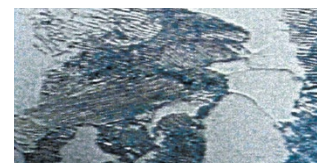

PERFECT BALANCE — With no springs, action bar linkage or heavy gas cylinder under the forend, Benelli's Inertia Driven® shotguns balance like a fine game gun should.

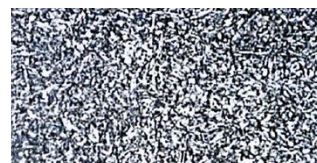

CRIO SYSTEM

Benelli's Crio System technology.

Cryogenic physics has revealed that when steel is taken to temperatures of -300° F it is changed at the molecular level. When a Benelli barrel is cryogenically treated, all of the stresses caused by hammer forging are relieved and the surface of the bore takes on a more even-grained, slicker surface that offers less resistance to wads and shot charges. With a smoother and more uniform surface, Benelli Crio® Barrels not only pattern better, they stay cleaner longer.

UNTREATED STEEL

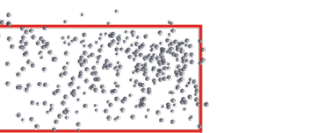

CRYOGENICALLY TREATED STEEL

Crio® Chokes are the second part of the Benelli Crio® System. Extra long choke tubes, with a more gradual constriction, coupled with the slick surface created by the cryogenic treatment, put more pellets on target and yield denser, more uniform shot patterns.

UNTREATED
Irregular and uneven shot pattern.

CRYOGENICALLY TREATED
Denser and more uniform shot pattern.

The Crio® System combines a barrel frozen to -300° F with a specially designed longer choke tube that is also cryogenically treated. The result is a denser, more uniform shot pattern with more pellets on target.

Benelli's unrivaled recoil reduction systems.

Benelli has developed the performance of recoil reducing technology to a level that leaves the competition behind. Three recoil reduction systems have been optimized specifically for the platforms they serve, delivering unrivaled results in reducing felt recoil.

AVAILABLE MODELS:

Ethos R1 Pro
828U SBE 3 Wood

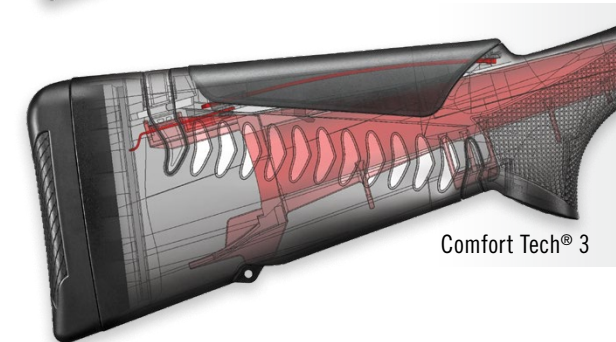

Progressive Comfort

Designed specifically for wood stocks, the Progressive Comfort recoil reduction system is an unobtrusive, lightweight, and simple system. The system is able to self adjust for maximum recoil reduction depending on load because it has three sets of interlocking leaves, or fingers with different levels of elasticity. This system was designed to fit out of sight inside a wooden stock to better maintain a traditional look.

AVAILABLE MODELS:

Super Black Eagle 3

Comfort Tech® 3

ComforTech™ was the first of its kind. By splitting the stock diagonally and utilizing shock absorbing chevrons the entire stock was essentially turned into a recoil pad. This chevron system, now 13 years old, is still the most efficient design possible and was the basis for the SBE 3 stock. The chevron size and location has been optimized on ComforTech 3. Further, Benelli engineers have developed a new cheek comb pad called Combtch which greatly reduces facial impact and vibrations.

AVAILABLE MODELS:

Super Vinci
Vinci

ComforTech® Plus

ComforTech™ Plus features 12 shock-absorbing dampeners on each side that reduce felt recoil by allowing the stock to absorb greater recoil energy with no moving parts. This system was designed for use in the modular Vinci platform which maximizes Practical Speed Performance (PSP).

AVAILABLE MODELS:

Super Black Eagle II
M2 Field
Cordoba
Super Sport
Super Nova
R1 Rifle

ComforTech®

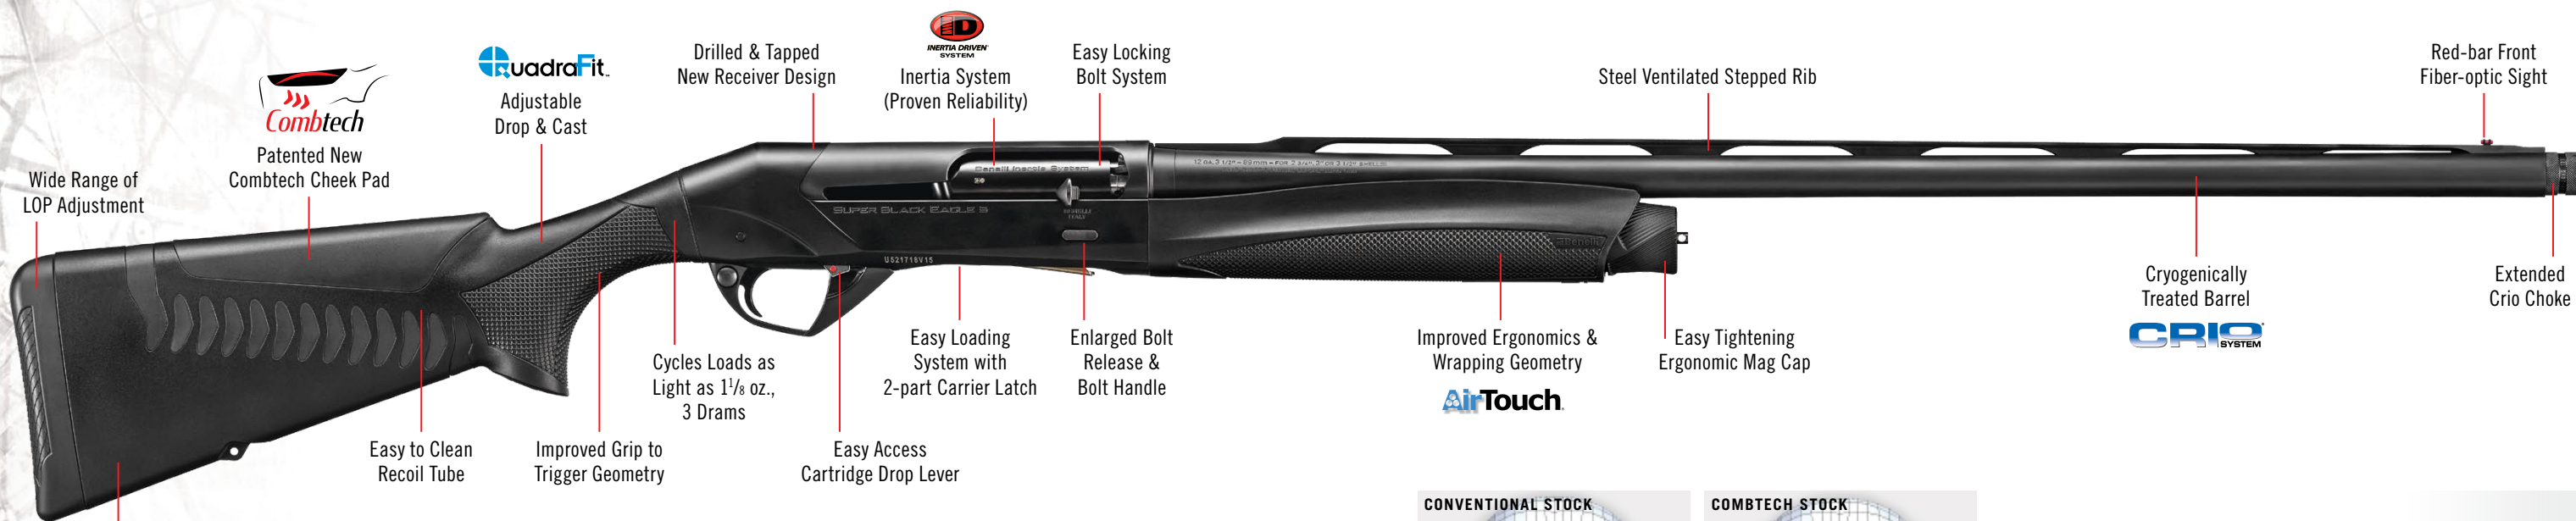

Benelli's ComforTech™ system revolutionized shooting comfort by reducing felt recoil without adding weight. This system was originally designed for the SBE II platform, but with its success was adapted to other Benelli models.

Benelli's unmatched 10-year warranty. A 10-Year Warranty (U.S. only), which leads the industry, guarantees that if anything should go wrong, under normal use, your firearm will be serviced by skilled gunsmiths at our national firearm service center. While your Benelli is under warranty, we will assume the cost of parts, labor and shipping required to get your firearm back to you and working perfectly.

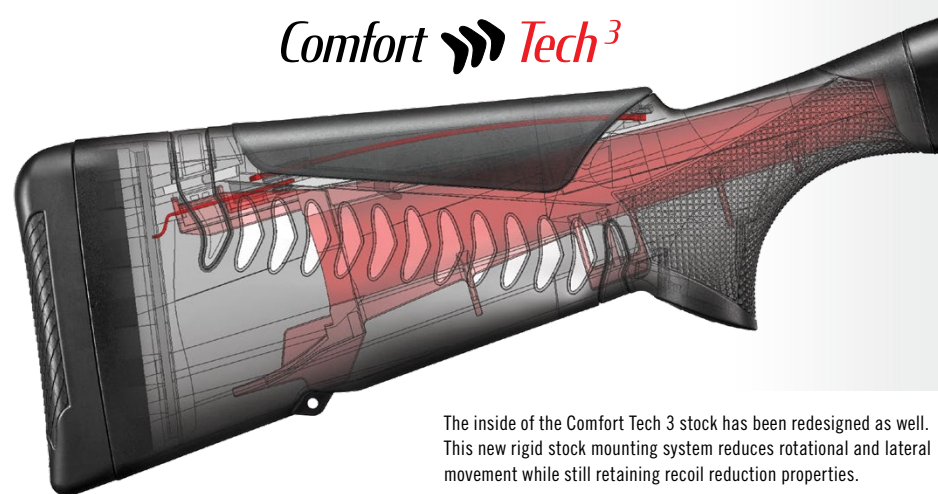

SUPER BLACK EAGLE 3

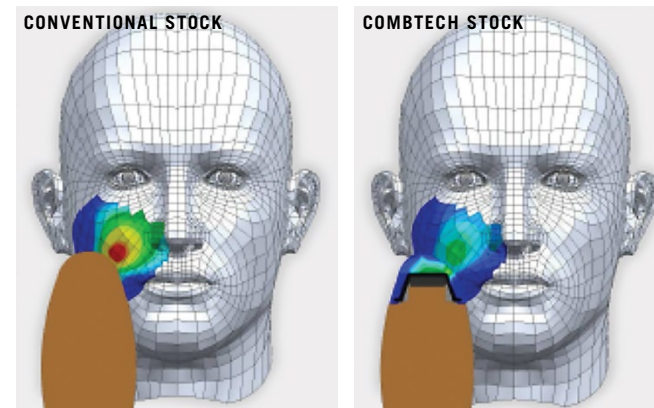

- Wide Range of LOP Adjustment
- Patented New Combtech Cheek Pad
- Adjustable Drop & Cast
- Drilled & Tapped New Receiver Design
- Inertia System (Proven Reliability)
- Easy Locking Bolt System
- Steel Ventilated Stepped Rib
- Red-bar Front Fiber-optic Sight
- Cryogenically Treated Barrel
- Extended Crio Choke
- Easy Loading System with 2-part Carrier Latch
- Easy Access Cartridge Drop Lever
- Easy Tightening Ergonomic Mag Cap
- Improved Ergonomics & Wrapping Geometry
- AirTouch
- Enlarged Bolt Release & Bolt Handle
- Cycles Loads as Light as 1 1/8 oz., 3 Drams
- Easy to Clean Recoil Tube
- Improved Grip to Trigger Geometry
- Comfort Tech 3 System Provides Greater Recoil Reduction

Dominate the skies with the new Super Black Eagle 3

SBE 3—the full redesign of our venerable Super Black Eagle platform. With carefully considered insights from our pro-staff and veteran hunters, Benelli design engineers have spent nearly 10 years in development with a focus on three areas of critical importance to the serious waterfowler: Improved ergonomics, intuitive, flawless functionality and an updated design, style and feel for the latest in modern waterfowling reliability that's all about the end game: Absolute superiority in the most unforgiving conditions.

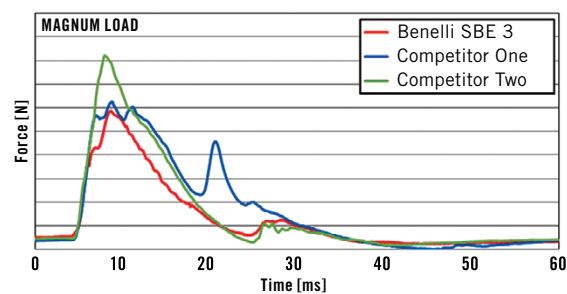

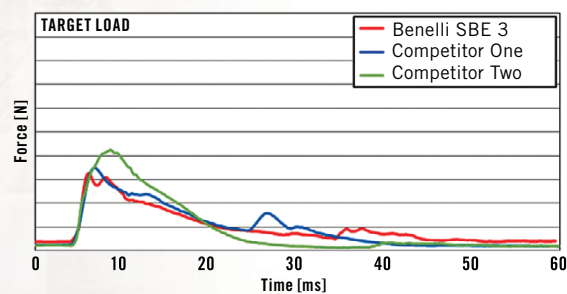

The inside of the Comfort Tech 3 stock has been redesigned as well. This new rigid stock mounting system reduces rotational and lateral movement while still retaining recoil reduction properties.

When considering total recoil, the vibrations or impact to the face is often overlooked. Benelli realized that improvements could be made to the stock comb to reduce facial impact and developed the Combtech system. Combtech is simple, but highly effective in reducing force transferred to the cheek area. The result: a softer shooting gun that allows you to shoot better.

The removable, extra-soft Combtech recoil pads require no tools, making field adjustments or replacements fast in even the coldest, wettest conditions. Optional heights available as necessary.

Comfort Tech 3 advancements focus on recoil reduction in both the shoulder and equally important, the face (as seen in the facial recoil mapping illustrations on page 5).

Enhanced comfort and less recoil drastically eliminate flinching on the first shot, and make follow up shots faster for more pellets on target—and more birds down.

The Combtech pad is easily removed from the Comfort Tech 3 stock by simply pulling the release tab upwards and towards the rear of the buttstock.

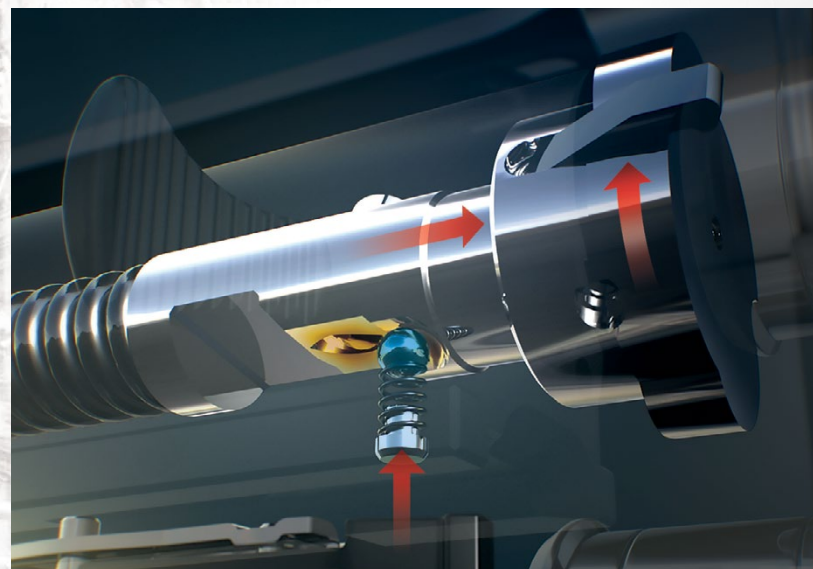

SUPER BLACK EAGLE 3

Inertia Driven System

The hallmark of Benelli strength and reliability, our clean-burning Inertia Driven System never requires adjusting, cycles consistently in conditions that border on the unfair and easily handles everything from light field loads to 3½" magnums.

From a cleanliness and speed perspective, gas systems simply cannot compete—whereas Inertia-Driven Benelli shotguns are known to fire 500,000+ rounds and still function without flaw.

Easy Locking Bolt System

Versatility without compromise: having a shotgun with a 3½" chamber does not mean you always have to shoot the powerful stuff. The SBE 3's patented locking mechanism is designed to work flawlessly with any type of ammo—from light clay loads to the ultimate goose-busters.

◀ A spring-activated ball detent slides effortlessly in the bolt, locking it into battery no matter the pressure. Also, if the bolt is accidentally bumped or pulled back even by a small amount, the detent's pressure will guide it back into the locked position. Result: the SBE 3 will always be ready to fire when you are and with whatever ammunition you choose.

Quicker & Easier Operation

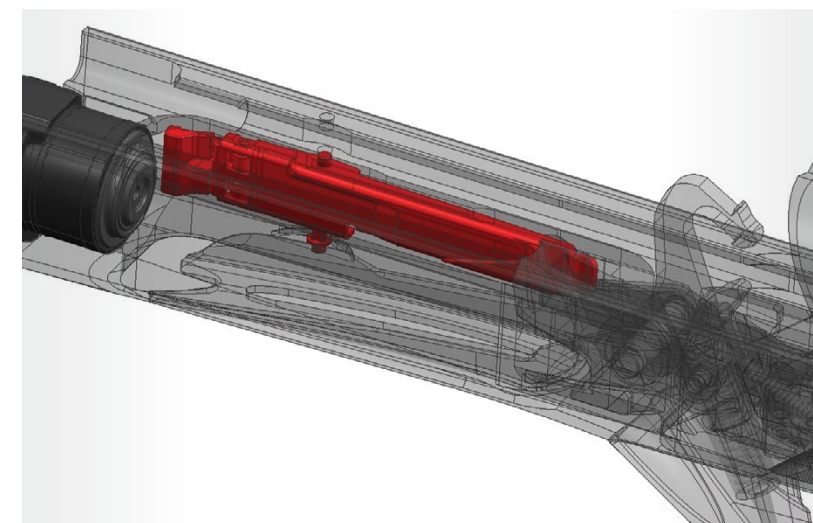

A larger bolt release and safety along with an outward angled drop lever make the SBE 3 quicker and easier to operate—even with gloved hands.

Easy Loading System

A beveled loading port, redesigned carrier and a new two-piece carrier latch have all been incorporated into the new Super Black Eagle 3 to make loading the magazine effortless.

During loading, only the front section of the Easy Loading System's two-piece carrier latch actually moves, allowing shells to slide up easily with virtually zero tension or possibility of jamming. ▶

Grooves in the loading port help you guide shells in without having to take your eyes off incoming birds. The new, beveled loading port also features a wider design to help funnel shells toward the magazine, a must for gloved hunters. ▶

Super Black Eagle 3

Dominate the Skies

GORE™
OPTIFADE™

SUPER BLACK EAGLE 3 – 12-GA, 3½"
ITEM # 10361 GORE™ OPTIFADE™
Waterfowl Timber

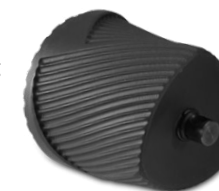

Comfort **Tech³**

Launched in 1991, the Super Black Eagle quickly reset reliability expectations for semi-auto shotguns. Today in 2017, with the third generation of the SBE, this legendary reliability has been carried forward and combined with modern technology and improved ergonomics.

Note the larger bolt handle. Both that, the enlarged bolt release and over-sized safety have been redesigned to make operation easier with cold or gloved hands.

Our redesigned triangular mag cap has more pronounced edges, allowing for excellent grip and leverage when tightening or loosening in wet, cold conditions.

SPECIFICATIONS AND PRICES
SUBJECT TO CHANGE WITHOUT NOTICE.

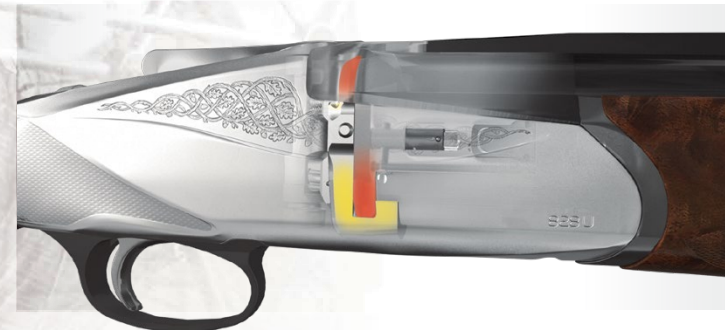

Each Super Black Eagle 3 comes complete with two of our renowned Crio extended chokes (one pre-installed), three flush-mount Crio chokes, a shim kit plus a choke wrench for fast adjustments in the field. The included choke case fits neatly into the custom fitted hard case.

828 U

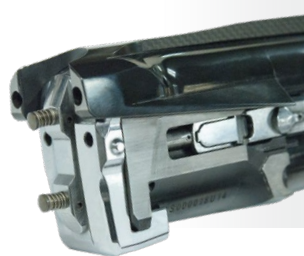

A shotgun not built on past inspiration, but on imagination.

The first O/U born not of heritage, but of inspiration and innovation.

Steel locking system.

Benelli's patented Steel Locking System, eliminates wear and tear on the receiver and hinge that cause traditional O/U's to fail. By incorporating this locking system into an aluminum receiver we have created a stronger, safer, lighter O/U that maintains perfect balance at under 6.5 pounds.

Opening lever.

The 828U strikers reset when the top lever is unlocked instead of by opening the barrels as traditional O/U's—creating a smoother, more consistent opening action. Left-hand models now available, which include a left-handed opening lever.

Steel locking plate.

At the heart of Benelli's Steel Locking System is a solid steel breech block that locks directly to the rear of the barrel, keeping all pressure from the shot shell contained inside—preventing its transfer to the receiver and hinge pins.

Impulse activated ejectors.

The ejector system in the 828U is all contained on the barrel. When the shell is fired pressure activates the ejector. This innovative design eliminates the need for linkages between trigger group and the forend—allowing for a stronger, more streamlined ejection system.

Adjustable drop and cast.

Benelli has created the first O/U that allows for a custom fit stock. With 5 drop and 4 cast shims the 828U can be adjusted to one of 40 possible stock positions. The adjustable stock allows a shooter to find their natural alignment with the barrel and target, which translates into more broken targets.

Removable trigger group.

The compact and removable trigger group makes for easier cleaning and eliminates complicated linkage between forearm and trigger mechanism, significantly increasing reliability.

Progressive Comfort

Progressive Comfort and the 828U.

The Progressive Comfort System is housed within the 828U walnut stock. The progressive nature of the system allows for a constant smooth level of recoil absorption, regardless of light or heavy load.

Stage 1 of recoil.

When a light load is fired the first set of buffers (shown in yellow) engage and compress to absorb the recoil energy.

Stage 2 of recoil.

When firing more powerful shells (heavy field loads), the second set of buffers (shown in orange) engage after the first set have compressed to absorb more recoil.

Stage 3 of recoil.

The third and most rigid set of buffers (shown in red) come into play when a magnum load is fired, providing a final cushion for the heaviest shells.

STANDARD FEATURES

- CHOKE TUBES:** C, IC, M, IM, F Crio® choke tubes and wrench.
- FINISH:** AA-Grade satin walnut.
- RECEIVER:** Engraved nickel-plated or anodized.
- SHIM KIT:** 40 points of fine adjustment of drop and cast for custom fit.
- HARD CASE:** Custom fitted hard case to protect in transport.

OPTIONAL FEATURES

- CHOKE TUBES:** Extended chrome Crio® choke tubes C, IC, M, IM, F.

A shotgun that feels and shoots like a Benelli from the moment you pick it up to the moment you break it open.

When innovation and inspiration collided the 828U was born—the first O/U worthy of the Benelli badge. With the strength of steel and the weight of aluminum, the 12-gauge 828U has redefined the category.

The 828U features a patented steel locking system and plate, which eliminates the transference of stress-causing shot pressure to the receiver and hinge pins. The compact, easily removable trigger group increases safety and reliability. The unique opening lever provides a smoother, more consistent opening action. From butt to barrel, there is nothing conventional about the Benelli 828U.

Ethos

The Perfect Balance of Art and Technology

ETHOS – 28-GA, 3"

ETHOS – 20-GA, 3"
ITEM # 10472 AA-Grade satin walnut

ETHOS

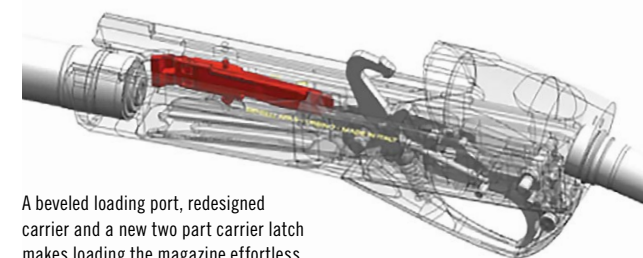

28-GAUGE MAGNUM LOAD ENERGY COMPARISON

The Progressive Comfort recoil reduction system includes 3 sets of fingers or leaves. The 3 sets of fingers each have a different elasticity, and the load used determines which sets of fingers are utilized for maximum recoil reduction. The first set of fingers is very flexible for light loads, the second set a bit stiffer for field loads, and the third set is optimized for heavy magnum loads. (Further information on page 11)

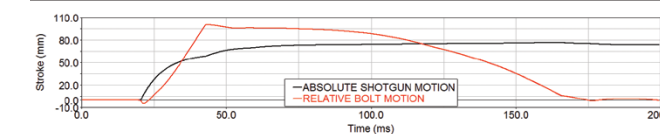

ETHOS receivers come in either black or nickel-plated engraved. Benelli's dynamic new design includes a patented easy loading system that features a new two-part carrier latch, beveled loading port and redesigned carrier that ensures shells will glide into the magazine faster and easier. A new larger bolt release, easy access cartridge drop lever and larger trigger guard promotes quick handling even wearing gloves.

A beveled loading port, redesigned carrier and a new two part carrier latch makes loading the magazine effortless.

ALL NEW 28-GAUGE, 3-INCH MAGNUM LOAD

This cartridge gives you the same velocity as a standard 2 3/4" 28-Ga. load but with 1/4 oz. more shot. Which translates into a 25% increase in knockdown power and 20% more pellets on target at 35 yards giving you that extra edge for late season birds. With the Progressive Comfort system of the Ethos soaking up any additional recoil you get all the ballistic advantage of a 20-Ga. in an easier handling 28-Ga. package.

The updated Inertia Driven system improves the cycling speed, reliability and the ability to cycle the lightest loads.

The ETHOS, an elegant semiautomatic shotgun, is the culmination of Benelli's latest innovations, refinements and design superiority, all centered around the core—Inertia Driven® System. The ETHOS is built on a new platform that combines form and function for improved ergonomics, the ability to cycle the lightest loads, even 1/8 ounce (12-Ga.), and a patented recoil system to provide greater recoil reduction.

STANDARD FEATURES

- CHOKE TUBES:** C, IC, M, IM, F Crio® choke tubes and wrench.
- FINISH:** AA-Grade satin walnut.
- RECEIVER:** Engraved nickel-plated, or anodized (12-Ga. only).
- SHIM KIT:** For adjustment of drop and cast.
- HARD CASE:** Custom fitted hard case to protect in transport.

OPTIONAL FEATURES

- CHOKE TUBES:** Extended chrome Crio® choke tubes C, IC, M, IM, F.

ETHOS Sport

Benelli is a company of avid shotgunners who never stop thinking about new and innovative ways to make our product even better. The sporting version of the ETHOS perfectly embodies this “ethos.” Using the popular field model as a basis, we have raised the wide sporting rib and outfitted the barrel with porting to make that second shot quicker on target. Available in 12-, 20- and 28-gauge, it cycles even the lightest target loads (e.g., 7/8 oz. in 12 gauge).

STANDARD FEATURES

EXTENDED CHOKE TUBES: C, IC, M, IM, F Crio® choke tubes and wrench.

FINISH: AA-Grade satin walnut.

RECEIVER: Engraved nickel-plated, or anodized (12-Ga. only).

SHIM KIT: For adjustment of drop and cast.

HARD CASE: Custom fitted hard case to protect in transport.

OPTIONAL FEATURES

CHOKE TUBES: Flush chrome Crio® choke tubes C, IC, M, IM, F.

ETHOS 28-GAUGE 2¾" AND 3" – ENGRAVED NICKEL-PLATED RECEIVER					
10485	28"	AA-Grade satin walnut	49"	5.4 lbs.	\$2269

COMMON SPECIFICATIONS: Magazine Capacity: 4+1 (2+1 28-Ga.) Extended Crio® Chokes: C, IC, M, IM, F Type of Sights: Interchangeable fiber-optic front sight with red, green and yellow inserts and metal bead mid-sight Length of Pull: 14½" Drop at heel: 2¼" Drop at Comb: 1½" Minimum recommended load: ½ oz loads, ¾ oz 28-Ga. *28-Ga. does not have interchangeable sights.

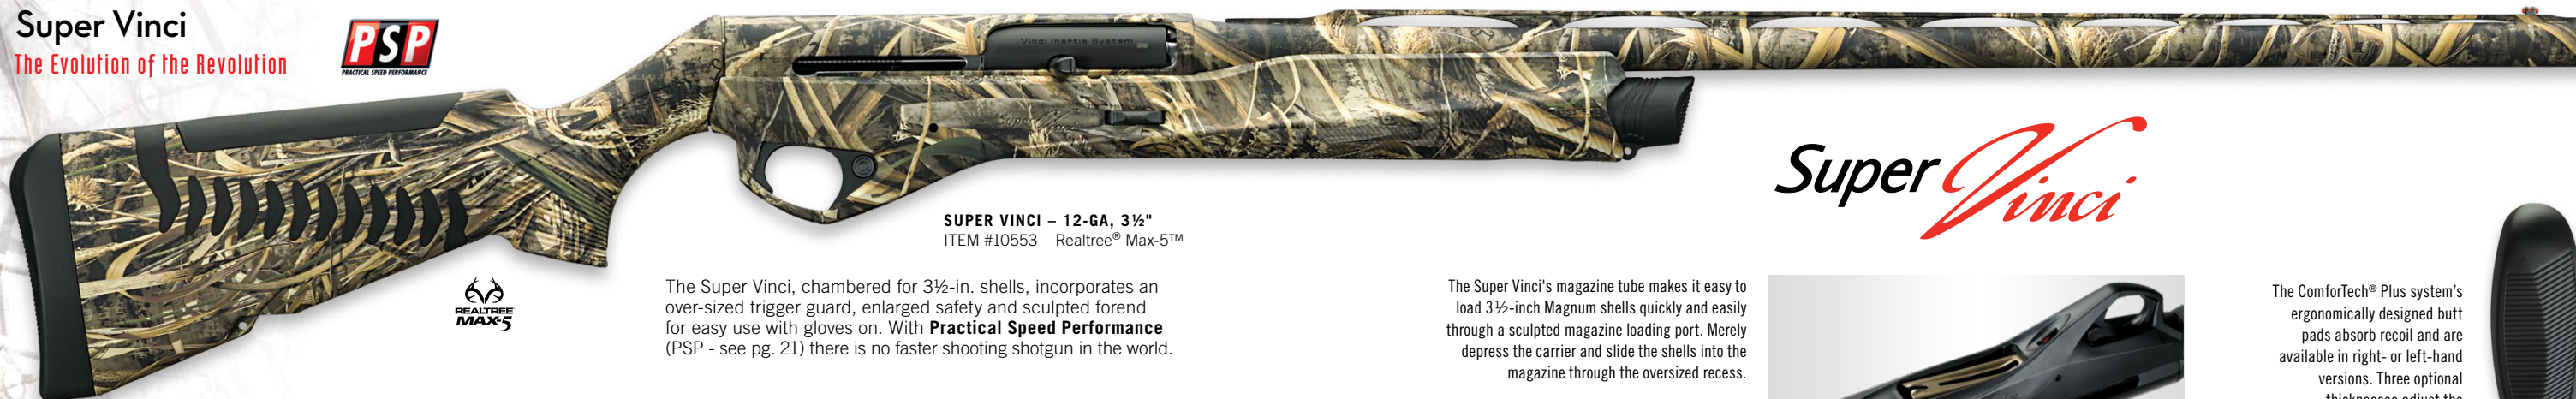

Extended choke tubes optimize patterns and are quickly changed in the heat of competition—while porting minimizes barrel jump and the high-visibility sight make it easier to keep your eyes focused on the target.

The rib of the ETHOS Sport has some substantial differences from its field counterpart. It is not only wider and higher, but it also features a smooth-textured central “sight channel” that will guide the eye naturally to the target.

Super Vinci The Evolution of the Revolution

SUPER VINCI – 12-GA, 3½"
ITEM #10553 Realtree® Max-5™

The Super Vinci, chambered for 3½-in. shells, incorporates an over-sized trigger guard, enlarged safety and sculpted forend for easy use with gloves on. With **Practical Speed Performance** (PSP - see pg. 21) there is no faster shooting shotgun in the world.

The Super Vinci's magazine tube makes it easy to load 3½-inch Magnum shells quickly and easily through a sculpted magazine loading port. Merely depress the carrier and slide the shells into the magazine through the oversized recess.

Super Vinci

The ComforTech® Plus system's ergonomically designed butt pads absorb recoil and are available in right- or left-hand versions. Three optional thicknesses adjust the length of pull to 13⅞", 14⅜" (standard), 14¾". (LH available only in 14⅜")

SUPER VINCI – 12-GA, 3½"
ITEM # 10558 Realtree® APG™

The Super Vinci comes standard with a lightweight, ventilated step-rib and red-bar front sight.

The Super Vinci magazine cap turns clockwise to lock the Trigger Group/Forearm module to the barrel. To remove the Trigger Group Forearm from the barrel, press the button on the underside of the forearm and turn the magazine cap counter-clockwise. An integral front sling attachment is molded directly into the magazine cap.

SUPER VINCI – 12-GA, 3½"
ITEM #10551 Black synthetic

The Super Vinci's In-Line Inertia Driven® action's bolt and rotating bolt-head operates simply and efficiently on a single axis. This innovative design means reduced movement during recoil, resulting in less muzzle climb for quicker follow-up shots.

SUPER VINCI – 12-GA, 3½"
ITEM #10556 GORE™ OPTIFADE™ Waterfowl Marsh

BARREL/RECEIVER MODULE

QUADRAFIT™ BUTT-STOCK MODULE

TRIGGER GROUP/FOREARM MODULE

Modular design makes the Super Vinci the easiest shotgun in the world to assemble and disassemble. The Super Vinci consists of three modules – the Barrel/Receiver Module, the Trigger Group/Forearm Module and the Quadrafit Buttstock Module.

STANDARD FEATURES

- CHOKE TUBES:** IC, M, F Crio® chokes and wrench.
- FINISHES:** Realtree® APG™, Realtree® Max-5™, Black synthetic or GORE™ OPTIFADE™ Waterfowl Marsh.
- BARRELS:** Crio® treated barrel.
- RECOIL PADS:** ComforTech® Plus recoil and comb pads.
- SHIM KIT:** For adjustment of drop and cast.
- DRILLED & TAPPED**

OPTIONAL FEATURES

- CHOKE TUBES:** Extended chokes for pass shooting (IM), shooting waterfowl over decoys (IC), and for turkey hunting (XF) (12-gauge only). Extended Crio® chokes C, IC, M, IM, F. Flush Crio® chokes C, IM.
- RECOIL PADS:** Three options to customize length of pull to 13⅞", 14⅜" or 14¾".
- RAISED COMB PADS:** Two options to customize sight plane for different shooting scenarios from field to target shooting to scoped hunting.

COMMON SPECIFICATIONS: Magazine Capacity: 3+1 Crio® Chokes: IC, M, F Type of Sights: Red bar front sight Length of Pull: 14⅜" Drop at heel: 2" Drop at Comb: 1⅜" Minimum recommended load: 3-dram, 1⅞ oz loads (12-ga.). Receiver drilled and tapped for scope mounting.

SPECIFICATIONS AND PRICES SUBJECT TO CHANGE WITHOUT NOTICE.

The Super Vinci and Vinci models share the same self-contained magazine tube assembly which can be easily replaced with higher capacity magazines with the push of a button.

The Super Vinci handles everything from 3½-inch Magnum shells to 3- and 2¾-inch loads with equal reliability.

Vinci
Let the Revolution Begin

VINCI – 12-GA, 3"
ITEM # 10511 Black synthetic

SHOOT... RECOVER QUICKLY... SHOOT AGAIN FASTER.

The real performance timeline of "speed" involves more than just the rapid cycling of the action. It must also include:

- quickness of mount
- instant recoil recovery
- immediate target acquisition
- rapid follow-up shot
- short crisp trigger pull
- and **ultra reliability!**

The Vinci's In-Line Inertia Driven® system cycles shells faster than ever. But, to take advantage of this speed, it was necessary to reduce recoil and minimize muzzle climb. To accomplish this Benelli developed the

ComfortTech® Plus system, which **decreases muzzle climb by 14 to 42 percent** and as a result, **quickens recovery time to let you get back on target 40 to 68 percent faster** than the competition. Without adding weight, ComfortTech® Plus also allows the Vinci to retain superior balance when shouldering and firing the gun. You'll be busting the second clay or knocking down that next bird while your shooting partner is still recovering from his first shot. The practical "speed" shooters seek becomes a matter of how fast you can shoulder the gun...acquire the target... shoot... and recover from recoil to prepare for the next shot. This is the real timeline of performance speed—where the **Vinci has no equal.**

VINCI – 12-GA, 3"
ITEM # 10513 Realtree® Max-5™

BARREL/RECEIVER MODULE

TRIGGER GROUP/FOREARM MODULE

QUADRAFIT™ BUTT-STOCK MODULE

Modular design makes the Vinci the easiest shotgun in the world to assemble and disassemble. The Vinci consists of three modules – the Barrel/Receiver Module, the Trigger Group/Forearm Module and the Quadrafit Buttstock Module.

Custom-shaped compartments, in the fitted gun case, house and protect the Vinci models and modular components for storage and transportation.

Rounds can be loaded quickly and easily into the magazine tube through the newly designed, beveled magazine loading port. Guided by an oversized sculpted recess, shells easily slide into the magazine for quick loading.

STANDARD FEATURES

CHOKE TUBES: IC, M, F Crio® chokes and wrench.

FINISHES: Realtree® Max-5™ or Black synthetic.

BARRELS: Crio® treated barrel.

RECOIL PADS: ComforTech® Plus recoil and comb pads.

SHIM KIT: For adjustment of drop and cast.

DRILLED & TAPPED

OPTIONAL FEATURES

CHOKE TUBES: Extended chokes for pass shooting (IM), shooting waterfowl over decoys (IC), and for turkey hunting (XF) (12-gauge only). Extended Crio® chokes C, IC, M, IM, F. Flush Crio® chokes C, IM.

RECOIL PADS: Three options to customize length of pull to 13⁷/₈", 14³/₈" or 14³/₄".

RAISED COMB PADS: Two options to customize sight plane for different shooting scenarios from field to target shooting to scoped hunting.

COMMON SPECIFICATIONS: Magazine Capacity: 3+1 Crio® Chokes: IC, M, F Type of Sights: Red-bar front sight Length of Pull: 14³/₈" Drop at heel: 2" Drop at Comb: 1³/₈" Minimum recommended load: 3-dram, 1¹/₈ oz loads (12-ga.); Receiver drilled and tapped for scope mounting.

SPECIFICATIONS AND PRICES SUBJECT TO CHANGE WITHOUT NOTICE.

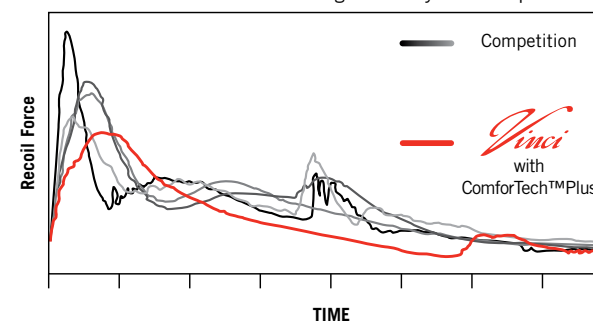

THE VINCI REDUCES MUZZLE CLIMB BY 42% AND IS 68% FASTER TO RECOVER AFTER EACH SHOT.

QUADRAFIT™ BUTTSTOCK MODULE: The polymer QuadraFit™ Buttstock Module with ComforTech® Plus connects directly to the receiver by a simple turn-and-lock, steel-to-steel attachment. This allows a quick assembly and disassembly. Vinci's QuadraFit™ Buttstock Module customizing system allows easy adjustment of drop, cast, comb height and length-of-pull in a matter of minutes.

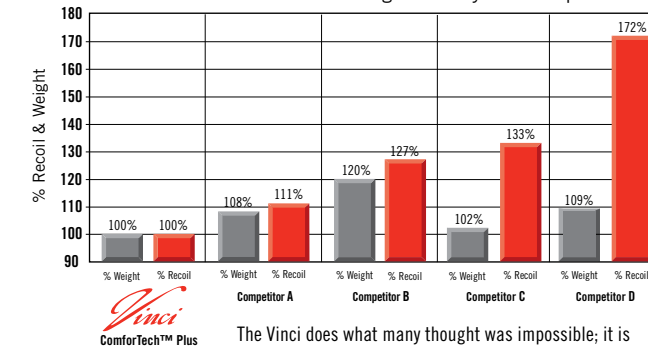

RECOIL MEASUREMENT
Federal 2¾" 1¼ oz. High Velocity / 1500 fps

Benelli engineers developed specialized machinery to measure and graph recoil. Here a Vinci is plotted along with 4 Competitors. A dramatic reduction with ComforTech® Plus can be seen in all three peaks of recoil—firing, bolt cocking the hammer and the end of bolt travel.

RECOIL & WEIGHT COMPARISON
Federal 2¾" 1¼ oz. High Velocity / 1500 fps

The Vinci does what many thought was impossible; it is both the lightest gun in its class and the softest-kicking. Imagine how fresh you'll be at the end of a long hunting day with that combination!

M2 Field

Workhorse Rugged with Thoroughbred Speed

M2 FIELD- 12-GA, 3"
ITEM # 11108 Realtree® APG™

Light, nimble, and ruggedly built, the Benelli M2 Field is the workhorse of the Benelli semi-auto line. Designed around the ultra-reliable Inertia Driven® System, the M2 will digest anything from 2¾" target loads to the heaviest 3" Magnums.

Cordoba

High-Volume & Lightning Fast

CORDOBA – 12-GA, 3" ITEM # 10636 Black synthetic

CORDOBA – 20-GA, 3" ITEM # 10650 Black synthetic

GripTight® is a synthetic, high-tech over-coating bonded to the stock and forend that's weather-resistant and provides a sure grip, wet or dry.

Inspired by the high-volume dove shooting found in Cordoba, Argentina, Benelli's Cordoba is a reliable, lightning-fast hunting gun with all the advanced features of a serious sporting clays shotgun. The Cordoba features a tapered sporting rib, ported Crio® barrel, and a ComforTech® stock.

SHELLVIEW™

ShellView™ is standard with the 20-gauge Cordoba and Supersport, allowing the shooter to visually check the number of shells in the magazine tube at a glance.

WARNING! Always physically and visually check the magazine tube and chamber to verify that the firearm is not loaded!

STANDARD FEATURES

CHOKE TUBES: C, IC, M, IM, F Extended Crio® choke and wrench.

BARRELS: Crio® treated ported barrel.

GEL PADS: ComforTech® gel recoil and comb pads.

SHIM KIT: For adjustment of drop and cast.

OPTIONAL FEATURES

CHOKE TUBES: Extended Crio® chokes for pass shooting (M), shooting waterfowl over decoys (IC), and for turkey hunting (XF) (12-gauge only).

GEL RECOIL PADS: Three options to customize length-of-pull to 13⁷/₈", 14³/₈" or 14³/₄".

RAISED COMB PADS: Three options to customize sight plane for target shooting.

SuperSport

Ultimate Clays Race Gun

SUPERSPORT– 12-GA, 3" & 20-GA, 3" 12-GA, ITEM # 10630 Carbon Fiber finish

The SuperSport's ComforTech® recoil-dampening system combined with a ported barrel makes this semi-auto shotgun faster than other comparable shotguns.

STANDARD FEATURES

CHOKE TUBES: C, IC, M, IM, F Extended Crio® (Chrome) choke and wrench.

BARRELS: Crio® treated ported barrel.

GEL PADS: ComforTech® gel recoil and comb pads.

SHIM KIT: For adjustment of drop and cast.

OPTIONAL FEATURES

CHOKE TUBES: Extended Crio® chokes for pass shooting (M), shooting waterfowl over decoys (IC), and for turkey hunting (XF) (12-gauge only).

GEL RECOIL PADS: Three options to customize length-of-pull to 13⁷/₈", 14³/₈" or 14³/₄".

RAISED COMB PADS: Three options to customize sight plane for target shooting.

Left-Hand Models

True Southpaw Features

SUPER BLACK EAGLE 3

SUPER BLACK EAGLE 3 – 12-GA, 3½"
ITEM # 10375 Realtree® Max-5™

All the revolutionary features that have made the Super Black Eagle 3 America's favorite 3½" shotgun are now available for southpaws. And no, this is not a shortcut-filled "adaptation." It is a perfect left-handed mirror image of the original Super Black Eagle 3—in either a Realtree® Max-5™ camo pattern or in black synthetic.

M2 FIELD – 20-GA, 3"
ITEM # 11195 Black synthetic

M2 FIELD – 12-GA, 3"
ITEM # 11121 Realtree® Max-5™

M2 FIELD – 12-GA, 3"
ITEM # 11071 Black synthetic

MONTEFELTRO – 12-GA, 3"
ITEM # 10863 Satin walnut

M2 AND SBE 3 STANDARD FEATURES

CHOKE TUBES: Crio® C, IC, M, IM, F chokes and wrench (SBE 3: IC & M are extended).

FINISHES: Realtree® APG™, Realtree® Max-5™ or Black synthetic.

GEL PADS: M2 - Comfortech® gel recoil and comb pads (Comfortech® models only).

SBE 3 - Comfortech® 3 recoil pads and Comb-Tech pads.

SHIM KIT: For adjustment of drop and cast.

HARD CASE: Custom fitted hard case to protect in transport.

OPTIONAL FEATURES

CHOKE TUBES: Extended Crio® chokes C, IC, M, IM, F, *XF (*12-ga. only).

GEL RECOIL PADS: Three options to customize length of pull to 13⅞", 14⅜" or 14⅞".

M2 RAISED COMB PADS: Three options to customize sight plane for different shooting scenarios from target shooting to scoped hunting.

SBE 3 COMB-TECH RAISED COMB PADS: Two options to customize sight plane for different shooting scenarios.

For years left-hand shooters have been ignored or forgotten with very few gunmakers offering left-hand versions of their guns—and when they do the choice of models is very limited. Benelli offers more left-hand versions of their shotguns than any other firearms manufacturer.

Benelli now offers the only left-hand 20-gauge semi-auto shotgun on the market. The M2 Field 20-gauge comes with a black synthetic stock. Optional pads are available to adjust the standard LOP from 14⅜" down to 13⅞", or up to 14⅞".

No longer does the left-handed shooter have to put up with hulls ejecting across his or her face. These are true left-hand guns with ejection port and safety button that are operational from the left side of the gun. For left-handers, this means never again having to reach around to load the gun or activate the safety.

MONTEFELTRO STANDARD FEATURES

CHOKE TUBES: IC, M, F Crio® choke tubes and wrench.

FINISH: Satin walnut.

RECOIL PAD: Ventilated recoil pad for recoil absorption.

OPTIONAL FEATURES

CHOKE TUBES: Extended Crio® chokes for pass shooting(M), shooting waterfowl over decoys (IC) and for turkey (XF) (12-gauge only). Plus Extended Crio® chokes C, IC, M, IM, F.

SHIM KIT: For adjustment of drop and cast.

COMMON SPECIFICATIONS: **Barrel:** Lengthened forcing cone, EDM Ported Crio Barrel® **Magazine Capacity:** 2+1 **Crio® Chokes:** C, IC, M **Extended Chokes:** 3 Rob Roberts Custom Triple Threat® **Type of Sights:** HIVIZ Comp front sight **Length of Pull:** 14 3/8" **Drop at heel:** 2 1/4" **Drop at Comb:** 1 1/2" **Minimum recommended load:** 3-dram, 1 1/8 oz loads (12-ga.), 2 1/2-dram, 7/8 oz loads (20-ga.).

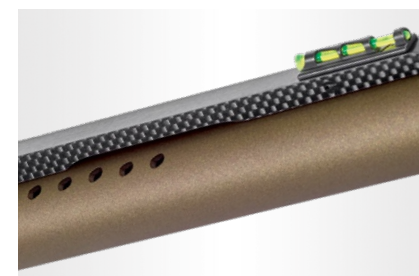

Benelli's Performance Shop Ultra Light Upland series, in 12-gauge and 20-gauge, are the lightest semi-auto shotguns in production for their respective gauges. The Ultra Light features a featherweight alloy receiver, shortened magazine tube, and a super-strong, super-light carbon-fiber rib. Performance Shop upgrades include an enlarged bolt handle and bolt release lever, a lengthened forcing cone and EDM barrel porting, a Burnt Bronze Cerakote finish, and Rob Roberts Triple Threat extended chokes.

WeatherCoat™

This five-step sealing process makes the Ultra Light's wood furniture impervious to any kind of weather. The special finishing process also enhances the figure of the hardwood.

An enlarged bolt handle and bolt release lever improve ease of operation, even with gloved hands.

A carbon fiber rib, EDM barrel porting and a HIVIZ front sight all come standard on the new Performance Shop Ultra Light Upland shotgun.

The Performance Shop Ultra Light includes three flush choke tubes plus the Triple Threat® Series Choke System which consists of the T1 (close-range), T2 (mid-range) and T3 (long-range) extended chokes.

PERFORMANCE SHOP – M2 3-GUN EDITION

ITEM NUMBER	BARREL LENGTH	STOCK	OVERALL LENGTH	AVERAGE WEIGHT	MSRP
M2 12-GAUGE 2¾" AND 3"					
11022	24"	Black synthetic	45.5"	6.75 lbs.	\$2499

COMMON SPECIFICATIONS: **Magazine Capacity:** 3+1 **Crio® Chokes:** C, IC, M, IM, F **Type of Sights:** HIVIZ Comp front sight, XS Sight Systems Express Sight **Length of Pull:** 14 3/8" **Drop at heel:** 2" **Drop at Comb:** 1 1/8" **Minimum recommended load:** 3-dram, 1 1/8 oz loads (12-ga.). Nordic bolt handle, RCI-XRAIL port caddy and bolt release button, RCI-XRAIL loading port modifications and TTI Custom carrier to increase speed of reloading.

Multi-gun & Tactical shotgun competitions push firearms to their limits demanding the highest level of reliability and solid functional design out of a shotgun. For 2016 Benelli has updated its popular Performance Shop M2 3-Gun Edition with a redesigned loading port to allow for greater efficiency when quad loading, a XS express rear sight for slug accuracy and a port caddy for a spare shell. Benelli's M2 has a stellar reputation as the shotgun of choice for serious 3-Gun competitors, the ultimate tactical competition gun that's simply perfect.

Operation of this fine-tuned M2 is enhanced by incorporating custom parts from Nordic Components and RCI-XRAIL. The upgrades include a Nordic extended tactical-style bolt handle, and an over-sized bolt release and port caddy from RCI-XRAIL.

The loading port has been modified to accommodate quad-loading and a custom carrier from TTI has been installed to assist with the speed and ease of loading the magazine.

Reliability When It Counts

M4 H₂O, PISTOL GRIP – 12-GA, 3"
ITEM # 11794 Black synthetic, Titanium Cerakote finish, Ghost-ring sight

argo
Piston-Driven System

A Picatinny rail on the M4 allows the mounting of scopes, red dot sights or night vision optics.

M4, TACTICAL STOCK – 12-GA, 3"
ITEM # 11703 Black synthetic, Ghost-ring sight

argo
Piston-Driven System

Benelli's M4 Tactical is a unique Auto Regulating Gas Operated (A.R.G.O) semi-auto shotgun, upon which the U.S. Marine Corps depend. The M4 Tactical comes standard with a Picatinny rail and pistol-grip stock. Other features include a fully-adjustable ghost-ring aperture rear sight and windage-adjustable front sight. The M4 is also available with a serious, weather-beating Titanium Cerakote finish.

R1 Rifle

Take the Bite Out of Recoil

R1 PRO RIFLE, PROGRESSIVE COMFORT® - .30-06 SPRINGFIELD
ITEM # 11776 AA-Grade satin walnut/Bronze receiver (Rifle sight package standard on R1 Pro model).

R1 RIFLE, COMFORTECH® - .30-06 SPRINGFIELD
ITEM # 11774 Realtree® APG™ (shown with optional scope and Extra-high Comb ITEM # 81045, not included).

R1 RIFLE, COMFORTECH® - .338 WIN MAG
ITEM # 11773 Black synthetic with GripTight®

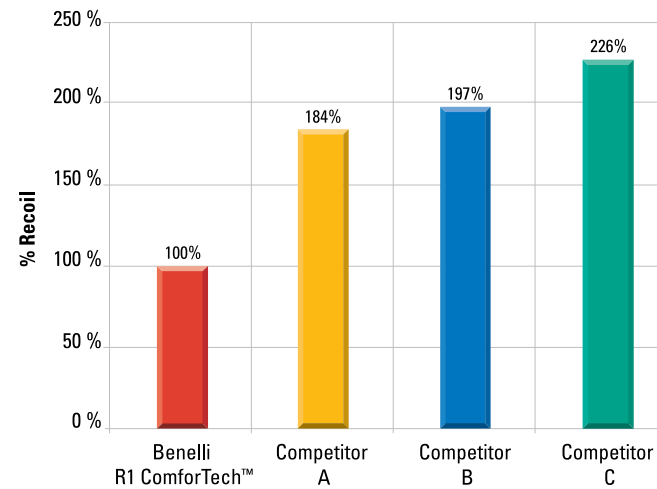

R1 RIFLE - .30-06 SPRINGFIELD
ITEM # 11770 AA-Grade satin walnut (Shown with optional R1 Rifle sight package ITEM # 81131)

Benelli's R1 rifle features simplicity, sturdiness, and ingenious design in a rifle built around the patented Auto Regulating Gas Operated (A.R.G.O.) system—the heart of the R1 rifle.

SEMI-AUTOMATIC RIFLE RECOIL COMPARISON

Benelli's R1 ComforTech® Rifle incorporates technology that significantly reduces recoil. In comparison tests one of the competitor's guns kicked twice as much as the R1 ComforTech®. Imagine a .300 Winchester Magnum that feels like you're shooting a light .270.

R1 RIFLE

SHELL POUCH

Benelli's distinctive, heavy-duty shell pouch, complete with web belt in black with the Benelli logo embroidered on the front. Twin compartments accommodate live rounds and, at the same time, provide a separate space for empty hulls.

ITEM # 90232 Black

ULTRA RANGE BAG

Large enough for 4 boxes of shells, shooting glasses, chokes, a range towel and whatever else you might need for the day. Constructed of 1680D PVC-backed fabric this range bag is built to last. EVA foam bottom, water-resistant zippers with custom pulls and removable internal dividers round-out the features on this premium bag. Measures 17" x 10" x 8".

ITEM # 94050 Black

A. DUCKER BACKPACK/BLIND BAG

An easy carrying pack that's constructed of 600D PVC-backed fabric, making it very rugged and water resistant. This feature-rich bag includes: external shell holders, a hard-shell glasses pouch, custom zipper pulls, reinforced straps, and a padded, breathable back. The self-supporting EVA bottom design and easy-access zippered top make this pack ideal for any blind. Measures 17" x 7" x 12".

ITEM # 94030 Max-5™

B. DUCKER BLIND BAG

Smaller in stature, this waterfowl blind bag is top opening and constructed of 600D PVC-backed fabric. It features an EVA foam bottom and is finished with water resistant zippers and custom pulls and includes an ultra-durable sunglasses hard case. Measures 12" x 8" x 8".

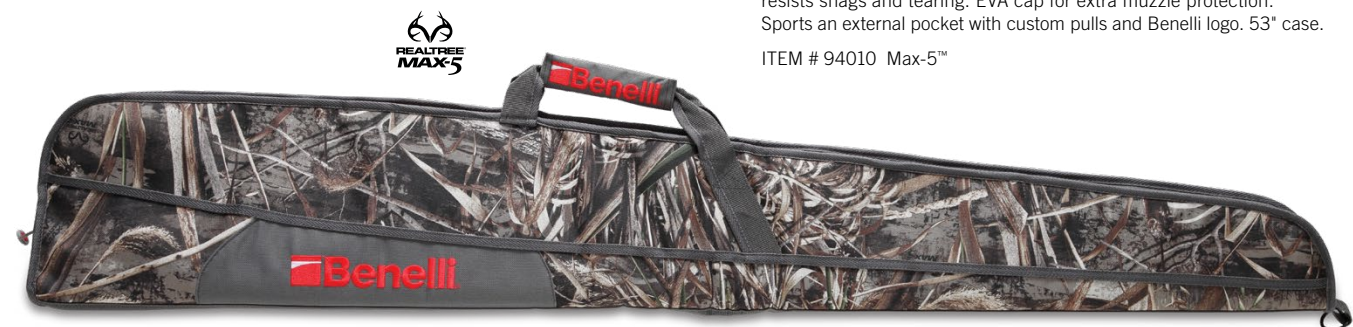

ITEM # 94040 Max-5™

DUCKER GUN CASE WITH POCKET

600D PVC-backed fabric construction with water-resistant zippers to protect your Benelli shotgun. Durable 600D interior fabric lining resists snags and tearing. EVA cap for extra muzzle protection. Sports an external pocket with custom pulls and Benelli logo. 53" case.

ITEM # 94010 Max-5™

DUCKER GUN CASE

600D PVC-backed fabric with custom-pull, water-resistant zippers to protect your prized Benelli. Snag and tear resistant 600D interior fabric lining. 53" case.
