**RED DOT SIGHTS
FOR HUNTING &
SPORT SHOOTING**

PRODUCTS 2018

THE AIMPOINT PHILOSOPHY

When the time comes to take the shot, there should be no question that you can count on your sight to perform. We believe that a weapon sight should simplify aiming while meeting the highest possible requirements for reliability and ruggedness.

We know that conditions in the field place extreme demands on your equipment, so we design and test Aimpoint products to stand up to any condition you are likely to encounter. We also design our products to operate constantly for years on a single battery so your sight will be ready when you are.

WHY AN AIMPOINT® RED DOT SIGHT?

To be successful, shooters must be able to aim accurately and quickly under a wide variety of conditions. On a shooting range, there is plenty of time to take aim, but in the real world everything is in fast motion. Add rough terrain, foul weather, poor light and high level of stress and even the most experienced hunter will be put to the test.

Tests have repeatedly proven that the single red dot reticule is the fastest on target in timed and rapid-fire close target exercises and also provides the greatest increase in hit probability with moving targets. Other aiming devices require that the shooter's focus leaves the target or create limited situational awareness. Aimpoint red dot sights give you increased aiming confidence, allow you to remain on target and shoot with both eyes open, fully aware at all times.

GET THE WHO

Many great hunting opportunities happen suddenly, and you have to be ready when game appears. An Aimpoint® sight gives you a tremendous advantage. Aiming with both eyes open allows you to see the animal as well as the surroundings. You instinctively place the red dot on the game, and are ready to pull the trigger.

We design our sights to make you effective and extremely fast when you really need to be.

OLE PICTURE

"I am evangelical about Aimpoint - especially the simplicity and durability of the sights. When on expedition in the high Arctic I carry a rifle daily. Aimpoint gives me the confidence that my sight will be true and operational in all climatic conditions and temperatures."

**Olly Williams,
Arctic Expedition Outfitter- October 2017**

ALL CONDITIONS – ANYWHERE

Aimpoint® sights work in all light conditions, from the darkness of the forest before dawn, to bright mountain sunlight. They are completely waterproof so you never have to worry about rain or immersion. Aimpoint sights are developed and tested to be used in any weather conditions, from the sub-zero temperatures of the Arctic to the heat and humidity of the tropics.

On any type of firearm

Whether you have a rifle, shotgun, handgun, black powder rifle or bow, Aimpoint has a sight for you.

User friendliness

Aimpoint sights are extremely user friendly. Operated by a mechanical switch or push-buttons, an Aimpoint sight can be easily and quickly changed to the right setting while simultaneously aiming through your sight. Our mechanical switch and push buttons will not freeze and are easy to operate whether you are wearing gloves or not.

Environmental awareness

At Aimpoint, we take great pride in making sure that neither hazardous nor radioactive materials are used in our sights.

STANDARD FEATURES ON ALL AIMPOINT® SIGHTS

- Unlimited field of view
- Parallax-free
- Unlimited eye relief
- Operative in extreme weather conditions
- Extremely rugged, durable construction
- No hazardous materials
- No laser emission that could be harmful to your eyes
- Increased aiming confidence and hit probability

MICRO H-1™

Article No	· 200018 (2 MOA) · 11910 (4 MOA)
Dot size	2 MOA / 4 MOA
Battery life	50 000 h
Battery type	CR2032 (3V)
Weight (incl. mount)	114 g / 4.0 oz
Power switch	Rotary switch
Mounting	Picatinny/Weaver

The Aimpoint® Micro H-1 was designed with the hunter in mind. This sight is the lightest red dot sight tough enough to carry the Aimpoint name.

The Micro series sights can be mounted onto a magnified scope with an adapter to hunt at both long and short distances.

AIMPOINT MICRO S-1™

Article No	200369
Dot size	6 MOA
Battery life	50 000 h
Battery type	CR2032 (3V)
Weight (incl. mount)	100 g / 3.5 oz
Power switch	Rotary switch
Mounting	Integrated mount for ventilated rib

The Aimpoint® Micro S-1 was designed specifically for use on shotguns. The innovative carbon fiber reinforced mounting system positions the optic on the lowest possible optical axis - without adding unnecessary weight. The Micro S-1 sight attaches directly to the shotgun at any point along the ventilated rib. Interchangeable adapter plates are included to accommodate most popular shotgun rib sizes.

The Micro S-1 greatly enhances hit percentage for hunters, as well as on the sporting clays course. It provides a compact, low-profile optic for shotgun hunters. The big, bright 6 MOA red dot provides an optimal combination of target acquisition speed and visibility.

HUNTER™ SERIES SIGHTS

The Aimpoint® Hunter series offers an exceptional optical performance and incorporates the latest technology from Aimpoint. Its design is similar to a traditional magnifying scope and is appreciated by many hunters. The Hunter series is available in 4 different versions. The length of the action of your rifle will determine if you need a long or short version. For an even better optical experience, the 34 mm versions would be the sight we recommend.

H34L™

Article No	12693
Dot size	2 MOA
Battery life	50 000 h
Battery type	CR2032 (3V)
Tube diameter	34 mm
Weight (excl. mount)	280 g / 9.9 oz
Power switch	Push buttons
Mounting	2 Rings (Ø34 mm) Not included

This sight has a 34 mm tube diameter for an exceptional optical performance. Due to its length, we recommend this sight primarily for use on rifles with standard or magnum actions, plus to any hunter who desires the classic lines of a full length sight.

Mounting	2 Rings (Ø30 mm) Not included

This sight has a 30 mm tube diameter, which offers a wide choice of mounting rings. Due to its length, we recommend this sight primarily for use on rifles with standard or magnum actions, plus to any hunter who desires the classic lines of a full length sight.

9000™ SERIES SIGHTS

Since the introduction in 2005, market response to Aimpoint 9000 series sights has been very positive. The 9000 series' ability to offer a combination of a high quality optic at an affordable price has kept this sight in high demand. The 9000 series is available in three different versions. The length of the action of your rifle will determine if you need a long or short version.

9000L™

Article No	· 11419 (2 MOA) · 11406 (4 MOA)
Dot size	2 MOA / 4 MOA
Battery life	50 000 h
Battery type	DL1/3N (3 V)
Tube diameter	30 mm
Weight (excl. mount)	227 g / 8.0 oz
Power Switch	Rotary switch
Mounting	2 Rings (Ø30 mm) Not included

This is the most popular sight within the 9000 series due to its long length. It makes it ideal for use primarily on rifles with standard or magnum actions.

9000SC™

Article No	· 11417 (2 MOA) · 11407 (4 MOA)
Dot size	2 MOA / 4 MOA

Tube diameter	30 mm
Weight (excl. mount)	206 g / 7.3 oz
Power switch	Rotary switch
Mounting	2 Rings (Ø30 mm) Not included
Night vision compatible	Yes

This is the same sight as the 9000SC, but it is compatible with night vision devices (NVD). With more and more countries allowing hunting of predators and feral wildlife after sunset, Aimpoint offers one sight which is compatible with NVDs. The first four intensity settings are for use with a night vision device. This means that the dot is not visible for the naked eye. Through the night vision equipment, the red dot becomes white and can be used as usual.

3X-C™

The Aimpoint® 3X-C is optimized for the Micro™ series, for long-range aiming or observation. A variable (-2 to +2) dioptic setting allows this magnifier to be adapted to the individual shooter's eye. The 3X-C can also be used as a handheld 3X monocular. It is mounted behind the sight and utilizes the red dot in Aimpoint sights as the aiming reticle, eliminating the need for re-zeroing when shifting between non-magnified and magnified aiming.

Magnification	3x
Field of view	6°
Length	103 mm / 4.1 in
Weight (excl. mount)	220 g / 7.8 oz

NOTE!

In order to mount the 3X-C you need: FlipMount and TwistMount base to be mounted on a Picatinny rail. To get the same optical axis as the magnifier you need a 30 or 39mm spacer for the Micro sight.

See page 17 for more details about the FlipMount and the TwistMount.

FOR SPEED, ACCURACY AND RELIABILITY

In summary, Aimpoint's breakthrough technology allows you to do what comes naturally - shoot with both eyes open while remaining focused on the target. Instinctively place the red dot on the game, and you are ready to pull the trigger.

Get on target fast, and forget about being challenged by poor weather conditions, bad light, or moving targets. It is this inherent combination of simplicity, speed, accuracy, and reliability that makes Aimpoint® sights the preferred choice for beginners and experts alike.
