ARMALITE

## OUR MISSION.

Every employee at Armalite serves one mission: To manufacture, assemble, and promote high-quality small arms and associated products that distinguish themselves in performance and reliability within the law enforcement, military, and civilian markets.

## OUR COMMITMENT.

Armalite strives to provide the highest quality firearms, parts, accessories, and machined products to our worldwide customers. We are committed to meeting and exceeding our customer's expectations by continually improving our processes, customer service, and quality management systems.

# OUR HISTORY.

Armalite is known as the originator of the "AR" design that is attributed to the creation of the AR-10® and AR-15 platforms. We are comprised of a diverse group of individuals from a multitude of backgrounds. However, we all have one thing in common: we all strive to provide the highest level of service, product development, and customer satisfaction in the firearms industry. Today, Armalite proudly celebrates more than 60 years of innovation, including the original design that has developed into the largest single market segment of the sporting industry, the Modern Sporting Rifle (MSR).

# OUR LEGACY.

# THE AR-10<sup>®</sup>

Conceived and created by Eugene Stoner in the late 1950s, the AR-10<sup>®</sup> was developed as a 7.62x51mm basic infantry rifle.

The success of the AR-10<sup>®</sup> has helped it become one of the most renowned rifles in existence. In its original design, it combined a number of features previously introduced in earlier models, was light weight, and had a new gas system patented by Stoner himself.

Since its inception, the AR-10 product line has achieved cult-like status and has been drastically expanded to include a variety models, including the all-new AR-10PRC precision rifle.

The all-new Armalite AR10 SASS MkII is the next generation of semi-auto sniper systems. Developed in partnership with Surgeon Rifles and AWC Silencers, the SASS MkII is designed to be the ultimate semi-auto precision rifle on the market. It offers a consistency in suppressed and unsuppressed configurations that aren't available anywhere else. A proprietary selectable gas block makes optimization for these configurations a breeze. The Timney 3.5lb single stage trigger provides crisp trigger pulls and reset that you expect out of a precision rifle.

# IT'S TIME TO SHOOT

# THE M-15™ SERIES

In the late 1960s, Armalite developed its own line of M-15™ rifles to keep up with the evolving demands of consumers, military, and law enforcement around the world.

By incorporating popular features of the AR-10 series rifles Armalite was known for and introducing engineering advancements and processes, these new .223-caliber models were quickly adopted by marksmen worldwide.

This highly sought after platform is versatile, flexible, and easily adapted to meet the unique needs of any shooter. Armalite continues to innovate and improve upon the M-15 lineup year-after-year.

**ARMALITE®**

Armalite's flagship competition rifles are compact, light, ultra fast, and built to win. The low profile handguard covers a free-floating barrel with Armalite's own tunable muzzle brake (pinned and welded on the 3GN13 to create a 16" overall length barrel). Additionally, the adjustable gas block allows the rifle to be individually optimized for peak performance.

# BOLT ACTION SERIES

The bolt-action lineup from Armalite was designed with function and accuracy in mind. Each rifle is built on an aluminum stock that merges a machine rest with a rifle stock for stunning stability and accuracy.

These models are designed with all the features need for hunting, long-range target shooting, and law enforcement duty. We've built these rifles in a variety of calibers to meet the needs of almost any scenario.

On the surface, the AR-30A1™ bears a resemblance to its predecessor, the AR-30™. The AR-30A1's™ muzzle brake ensures soft recoil in spite of the 300 Win Mag's incredible power. Outstanding accuracy and balanced weight complement the enhanced ergonomics, adaptability, and reliability of the AR-30A1™.

<b>SKU</b>	31BTC308

The AR-31 shares the design and the accuracy of our highly acclaimed AR-30A1™ bolt-action rifles, but with three major differences: it is chambered in 7.62x51mm / .308, is a short action version of the AR-30A1™, and it accepts Armalite's AR-10B™ double-stack magazines.

Also available in 31BTC308

This rifle is the newest incarnation of the widely popular AR-50™ chambered for the powerful .50 BMG cartridge. A single shot, bolt-action rifle featuring a unique octagonal receiver bedded in a V-shaped stock. An economical answer for the challenges of long range shooting, the AR-50A1™ is amazingly easy to shoot and incredibly accurate.

# ACCESSORIES

Through 60 years of engineering and manufacturing, we have created the perfect combination for a rifle that will run no matter the condition. In order to maximize performance and accuracy of your Armalite rifle, we recommend the use of Armalite approved accessories.

Our accessory line stretches from new handguards and muzzle brakes to our traditional line of replacement parts, magazines, and more. Whether you are headed to the range or a night on-duty, Armalite will make sure you are prepared.

**ARMALITE**<sup>®</sup>

## AR-10® COMPETITION HANDGUARD

The Competition Handguard is the ultimate combination of ultra-light materials and slim profile design for maximum comfort and minimum weight. Key-Mod doubles as flush cup sling attachment points. Includes barrel nut and mounting hardware.

12" COMPETITION HANDGUARD KIT	103GNHGD12
15" COMPETITION HANDGUARD KIT	103GNHGD15

## AR-10® TAC HANDGUARD

The Tactical Series Handguard combines lightweight materials with durability. It features a full length MIL-STD 1913 12 O'clock rail and the Key-Mod doubles as flush cup sling attachment points. Includes barrel nut and mounting hardware.

12" TACTICAL HANDGUARD KIT	10TACHGD12
15" TACTICAL HANDGUARD KIT	10TACHGD15

## AR-10® VSR HANDGUARD

The VSR Handguard is sleek with a solid profile for maximum comfort and durability. The Key-Mod doubles as flush cup sling attachment points. Includes barrel nut and mounting hardware.

15" VSR HANDGUARD KIT	10VSRHGD15
-----------------------	------------

## M-15™ TAC HANDGUARD

The Tactical Series Handguard combines lightweight materials with durability. It features a full length MIL-STD 1913 12 O'clock rail and the Key-Mod doubles as flush cup sling attachment points. Includes barrel nut and mounting hardware.

12" TACTICAL HANDGUARD KIT	15TACHGD12
10" TACTICAL HANDGUARD KIT	15PSTHGD10
15" TACTICAL HANDGUARD KIT	15TACHGD15

## M-15™ COMPETITION HANDGUARD

The Competition Handguard is the ultimate combination of ultra-light materials and slim profile design for maximum comfort and minimum weight. Key-Mod doubles as flush cup sling attachment points. Includes barrel nut and mounting hardware.

12" COMPETITION HANDGUARD KIT	153GNHGD12
15" COMPETITION HANDGUARD KIT	153GNHGD15

## M-15™ VSR HANDGUARD

The VSR Handguard is sleek with a solid profile for maximum comfort and durability. The Key-Mod doubles as flush cup sling attachment points. Includes barrel nut and mounting hardware.

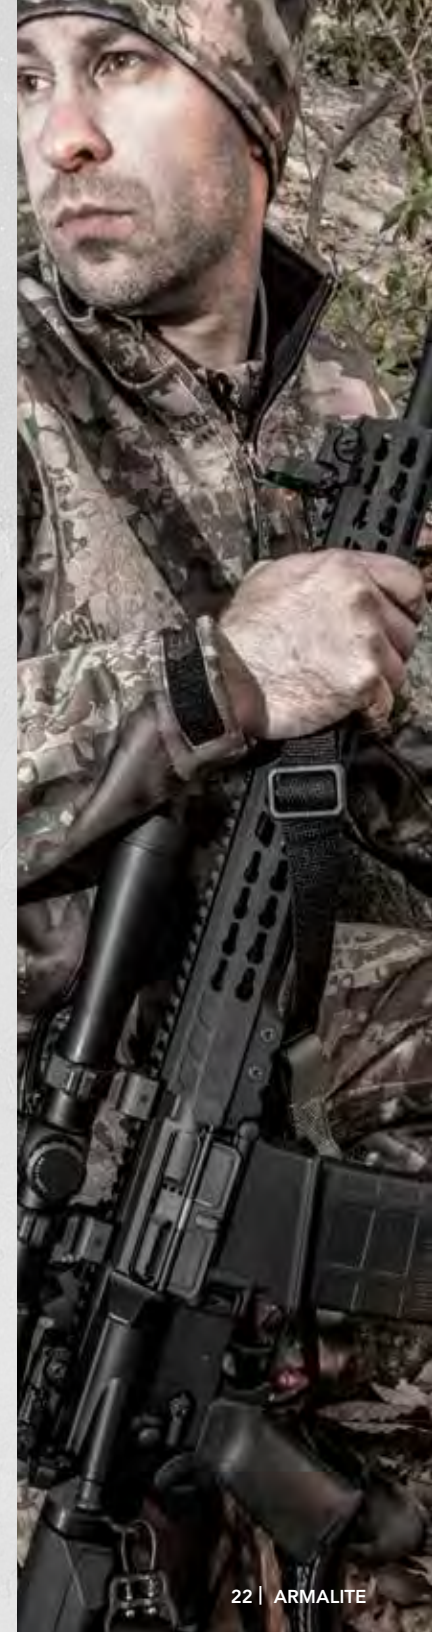

15" VSR HANDGUARD KIT	15VSRHGD15
-----------------------	------------

## M-15™ PISTOL HANDGUARD

The Pistol Handguard mirrors the TAC Handguard configuration, but is shortened and timed for easy gas block access and shorter barrel lengths. Includes barrel nut and mounting hardware.

5" PISTOL HANDGUARD KIT	15PSTHGD05
10" PISTOL HANDGUARD KIT	15PSTHGD10

## COMPETITION MUZZLE BRAKE

The Competition Muzzle Brake is a highly innovative solution for reducing recoil. Designed with the competitive shooter in mind, it is able to be tuned to individual rifle and ammunition for optimal performance. Includes tuning screws and mounting hardware.

AR10® COMPETITION MUZZLE BRAKE | 103GNBRK01  
M-15™ COMPETITION MUZZLE BRAKE | 153GNBRK01

## AWC PSR MUZZLE BRAKE

The AWC PSR muzzle brake was designed for the Precision Sniper Rifle submittal. It is designed to be paired with AWC's THOR PSR suppressor.

## RAPTOR CHARGING HANDLE

A strong, ergonomic, ambidextrous charging handle, standard on NEW products including the 3-Gun Series and Tactical line rifles.

M-15™ RAPTOR CHARGING HANDLE | 15RPTCHG01  
AR10® RAPTOR CHARGING HANDLE | 10RPTCHG01

## ARMALITE® MBA-1 BUTTSTOCK

Designed by LUTH-AR as OEM equipment for Armalite, the MBA-1 provides maximum comfort, adjustability, and precision in a light weight buttstock. Fits AR-10 and M-15 rifles.

PART# ARMBASTK01

## ARMALITE® ADJUSTABLE GAS BLOCK

For barrels measuring .750 in. at the journal, the adjustable gas block allows the rifle to be tuned for optimal performance with an array of ammunition and accessory components.

PART# ARGBKADJ5

FROM STRATEGIC ARMORY CORPS

Tools Of

**FREEDOM**

MADE WITH PRIDE

IN THE U.S.A.

As one of the oldest and most experienced shops in the United States, AWC Silencers has provided suppressed weapon systems to U.S. military including Army, Navy, Air Force, and Marine Corps.

AWC has supplied Special Forces and Counter-Terrorism units throughout Europe, Central America, Asia, and the Middle East with the tools they need to accomplish their missions safely.

A wide variety of local, state, and federal Law Enforcement, Wildlife, and overnment agencies depend on the quality and durability AWC suppressors are known for.

## TURBODYNE

.50 BMG: TD-50BMG-CUST-16.5-CLR

The AWC Turbodyne is absolutely the most compact, effective, and quiet .50 caliber suppressor available on the market today. Constructed of 100% stainless steel and 360 degree circumferentially welded, the Turbodyne significantly reduces sound signatures and db. The bullet impact can be heard and is the primary source of sound while the lack of concussion allows for hours of comfortable shooting.

LENGTH: 16.5"    DIAMETER: 2"    MATERIAL: STAINLESS    FINISH: MATTE

## THOR THUNDERTRAP

.308: TTP-308-58x24-8.3-CLR

.338: TTP-338-34x24-10.4-CLR

The AWC THOR Thundertrap is a shorter, lighter, and astonishingly quiet suppressor that celebrates AWC's 5th generation of the Thundertrap. Delivering the accuracy demanded by law enforcement snipers and bench-rest shooters, the THOR Thundertrap retains spent gases for a longer period causing the sound emitted to be a soft hiss rather than a pop. The THOR Thundertrap is constructed for most bolt-action and semi-auto rifles.

## THOR PSR

.308: TPSR-308BRK-8.0-CLR

.338: TPSR-338BRK-8.0-CLR

Designed for the elite U.S. military user. Mounts over the AWC muzzle brake for a faster attachment method that maintains the accuracy and repeatability of AWC thread-on suppressors. Manufactured from Titanium - one of the lightest suppressors on the market to achieve minimal point-of-impact shift. Comes with one stainless steel muzzle brake.

## THOR RAIDER

RAIT-556-12x28-6.7-CLR

State-of-the-art design in a durable, compact, ultra quiet silencer for 5.56x45mm firearms.

Can be used safely and comfortably without hearing protection in confined areas such as underground structures, aircraft hangars, and small seagoing vessels

Designed to be utilized on most bolt rifles and semi-automatic platforms.

The Eagle Arms story began three decades ago and continues today as a revolutionary page in the history of the Modern Sporting Rifle. A division of Armalite, Eagle Arms is a brand focused on providing dependable, well-built firearms that American citizens can be proud to own, at the lowest possible price.

Made in America in the same factory that proudly produces legendary Armalite rifles, Eagle Arms rifles are tough, tested, and ready to run. They're manufactured using the best of modern practices and create a savings we're proud to pass on to our customers. Our mission is to provide responsible American citizens an economically viable way to exercise their rights, and lower the barrier of entry to Modern Sporting Rifle ownership.

Eagle Arms firearms are backed by a one-year warranty and Armalite's 60 years of manufacturing excellence.

The Eagle-15 is the flagship rifle of Eagle Arms. We've combined the legendary quality and manufacturing excellence of parent company, Armalite, with a value based configuration aimed at providing our customers with a highly affordable general purpose Modern Sporting Rifle. **PART# 15EA02**

**UPC# 65198401915**

The Eagle-15 ORC (Optics Ready Carbine) offers users a new level in versatility. Improving upon the flagship model Eagle-15, the ORC comes equipped with a "same plane" railed gas block. This will allow shooters to add on a wide variety of aftermarket sights normally reserved for firearms utilizing a free float rail system. The Eagle-15 ORC still delivers a valued based product with the same quality and commitment that is put into all Armalite Rifles.

**PART# 15EA02**

**UPC# 65198401915**

The next generation of Eagle is here. The Eagle-15 ORC MFT edition is designed for maximum ergonomics and modularity for a fraction of the cost. The ORC MFT is equipped with a new, redesigned "Same Plane" gas block. This gas block allows the user to equip common metal backup sights normally reserved for free float systems. The new ORC MFT also features a slim Keymod rail, lightweight stock, enhanced trigger guard, and comfortable pistol grip.

**UPC# 65198401955**

# NEXUS

AMMUNITION

Nexus Ammo's Match line of ammunition is designed to exceed the expectations of the most discerning customers. Using top-quality components and proprietary loading methods, Nexus is able to achieve tolerances rarely seen even in hand-load applications in our factory ammunition.

The 'Nexus Method' incorporates quality control requirements not present elsewhere in the industry often resulting in single digit standard deviation. You can depend on Nexus Ammo to deliver a full ballistic spectrum of ammunition performance for your tactical, defense, or hunting needs.

When you require consistency, accuracy, and reliability, Nexus Ammo is your solution.

# GENUINE COMPONENTS + GEAR

Whether accessorizing, upgrading or repairing your rifle, Armalite is a leading provider of replacement parts and accessories for nearly all types of modern sporting rifles.

With over 200 premium quality products at your fingertips, including many hard-to-find historically accurate components, there is no limit to the customization you can make to optimize your rifle for hunting, competition, or personal defense.

Be sure to check out our wide assortment of official Armalite apparel while you're there.

# ARMORER'S COURSES

The Armalite Armorer's course is structured to offer a comprehensive education on the Armalite M-15™ and/or AR-10® platforms. The course can be tailored for law enforcement, military, civilian personnel, instructors, or operators who will be responsible for the safe operating condition of the Armalite rifle system.

This course will concentrate on the function of the rifle in relationship to all of its parts, the repair and replacement of parts, fitting procedures, and inspection techniques. A complete repair manual will be included in the course, as well as hands-on instruction and visual aids to assist the learning process. This course is complete in the service and repair of the rifle, short of manufacturing components.

## COURSES AVAILABLE

- ARMALITE AR-10® OPEN ENROLLMENT
- ARMALITE AR-10® L/E, .MIL, .GOV\*
- ARMALITE M-15™ OPEN ENROLLMENT
- ARMALITE M-15™ L/E, .MIL, .GOV\*

**COURSE LENGTH**      **2 DAYS**

**MINIMUM SIZE**      **10 STUDENTS**

**MAXIMUM SIZE**      **20 STUDENTS**

\* may cover fully automatic trigger systems and/or be held at a secure location

## COURSE CONTENT

- RIFLE HISTORY
- BALLISTIC ISSUES
- L/E, MILITARY & CIVILIAN USE
- NOMENCLATURE
- MAINTENANCE PROCEDURES
- COMPLETE DISASSEMBLY AND REASSEMBLY OF ALL PARTS AND COMPONENTS
- INSPECTION TECHNIQUES
- TROUBLESHOOTING AND REPAIR
- SYSTEM MODIFICATIONS AND ACCESSORIES
- REPAIR TOOL LIST
- FUNCTION LIVE FIRE TESTING (FACILITIES PERMITTING)

# SPEC CHART

Team Armalite was created in 2013 with a focus on our commitment to quality, product development, education, and competition. Through education programs and competition, Team Armalite is able to thoroughly test new concepts and designs at the highest level in the sport.

Team Armalite extends well beyond the fancy jerseys and spotlight of competition; it incorporates our entire staff. From engineering, to manufacturing and sales, each project begins with the end goal in mind. Our team works hard to ensure that nothing is overlooked so that we may deliver a final product that is ready for home defense, target practice, hunting, department or duty use, or national level competition, right out of the box.

We at Armalite believe that the start to any great experience is through education. Therefore, we are committed to teaching the fundamentals of shooting sports to new shooters, regardless of age. We regularly volunteer for youth shooting camps and other organized youth groups, understanding that our youth are the future of our nation and sport. In addition, our team works with veteran organizations like "One Team. One Fight." and "Task Force Dagger" to raise money and awareness for those who have served our country, and the loved ones who have lost someone special in the fight for our freedom.

From the innovators and engineers, to the manufacturing, assembly shop, and beyond, Team Armalite works hard to deliver quality products that are made in the USA. It is something we are proud of and hope you are too!

TEAM  
ARMALITE®

# ARMALITE® LIMITED WARRANTY

## I. DURATION OF WARRANTY:

This warranty applies for all Armalite® firearms for:

– Five-year limited-warranty for Armalite® M-15™, AR-10®, AR-30®, AR-31®, and AR-50® series firearms.

## II. LIMITATIONS OF WARRANTY AND LIABILITY:

Armalite warrants, to the initial retail purchaser, that this firearm is free of manufacturing defects in material or workmanship for the above shown period of ownership by the original purchaser. During this period, Armalite agrees to correct your firearm by repair, or replacement (at Armalite's discretion) with the same or comparable model. A service or handling charge may occur. This warranty is nontransferable. This warranty applies only to personal use by the first individual owner. All institutions, including law enforcement agencies, receive a limited one-year warranty for all firearms.

Warranty coverage on your Armalite firearm is initiated on the date of purchase. You are not required to initially register your firearm with Armalite.

In order to make a warranty claim, you will be required to submit, with your firearm, a copy of your ATF Form 4473 (Firearms Transaction Record), a dated bill of sale with your name and address, or a sales receipt. We recommend stapling these documents to the inside back cover of your Armalite owner's manual to ensure safekeeping.

This warranty is void if the firearm has been abused, misused, damaged, fired with hand-loaded or reloaded, or improper ammunition, or with an obstruction in the barrel, or if the firearm is damaged by failure to perform proper maintenance. This warranty does not cover normal wear of any parts, including surface finish, or if unauthorized repair or alteration has been performed.

The terms of this warranty cannot be modified except in writing by Armalite. Wholesalers, dealers, or repair shops, unless authorized by Armalite in advance, are not authorized to make any warranty repair or adjustment on behalf of Armalite. This warranty gives only the original retail purchaser specific legal rights; please check local and state laws to determine if you have additional legal rights.

### INSTRUCTIONS FOR RETURNING FIREARMS FOR REPAIR/UPGRADE:

1. Before seeking service on your Armalite firearm:

- Use the troubleshooting guide in the owner's manual to attempt to solve the problem
- Perform all instructed maintenance
- Assure that ammunition and magazines are correct and in good working condition. Shop rates plus the cost of return shipping will be applied if no covered defect is found.

2. Call Armalite Customer Service and obtain a Return Material Authorization (RMA) number. During the call, provide our customer service representative with all of the information requested to help expedite the resolution of your problem. Without a proper Return Material Authorization (RMA) number, Armalite will not accept any firearm for service. Call 800-336-0184 Ext 211 to receive your RMA number.

3. Include all requested documentation with your firearm when you return it. Include a letter that:

- a. Describes the problem that you're experiencing
- b. Provides all of your contact information (name, address, email, phone, etc.)
- c. Lists the RMA number given to you by our customer service representative
- d. A copy of your ATF Form 4473, a dated bill of sale with your name and address, or a sales receipt

If your letter is incomplete, or illegible, we will not be able to honor the warranty and we may not be able to complete needed repairs.

Note: Rather than writing a letter, you may, if you choose, print a copy of Armalite's Return Material Authorization (RMA) form from our website, fill it in completely, and send it with your firearm. If you're seeking warranty repair, do not forget to include your proof of purchase. Please visit: <https://armalite.com/support/customer-service/>

4. Remove all ammunition and accessories (scopes, slings, bipods, etc.) from the firearm.

**WARNING: MAKE ABSOLUTELY SURE THAT THE FIREARM IS UNLOADED! DO NOT SHIP LOADED FIREARMS**

**WARNING: IT IS ILLEGAL TO SHIP LIVE AMMUNITION OR SPENT CASES IN THE SAME PACKAGE AS ANY FIREARM THAT YOU ARE RETURNING TO ARMALITE FOR SERVICE.**

**WARNING: IT IS THE OWNER'S RESPONSIBILITY TO ASSURE THAT ANY PARTS THAT ARE PURCHASED FROM ARMALITE ARE CORRECTLY FITTED AND INSTALLED. IMPROPER FITTING OR INSTALLATION MAY RESULT IN INJURY, DEATH, OR DAMAGE/MALFUNCTION OF THE FIREARM.**

5. Package the firearm carefully, inclosing a copy of the letter (and, for warranty repair, a copy of your ATF Form 4473 / bill of sale / receipt). Proper packaging and prepaid shipment (including insurance) of a firearm to Armalite is the customer's sole responsibility.

Please use only one case to ship your firearm to Armalite for service. No double boxes except for 50 caliber shipments.

Firearms that you wish to return for warranty work or out-of-warranty repair may be returned directly to Armalite. You are not required to ship them through an FFL.

6. Write your RMA number on the outside of the box as part of the Armalite address. Ship to:

Armalite  
Attn: Premier Services RMA Number: \_\_\_\_\_  
745 S. Hanford St.  
Geneseo IL 61254

7. Keep your shipping receipt and the serial number of the firearm for your records in case of loss in shipment. Armalite will return the firearm to the customer shipping prepaid if the problem was covered under warranty.

8. Armalite MUST return the firearm to the person or company that shipped it to us. If no cost is incurred, your rifle will be automatically shipped to the return address without notice. If non-warranty work needs to be performed, we will contact you regarding the cost of such repairs and get your approval before beginning any work. All firearms shipped to you after repair will require an adult signature at your address for proof of receipt. Armalite continually improves the technical specifications and manufacturing techniques of our firearms, which may cause the latest products to look or perform differently from earlier products. The Armalite Premier Services Division will update, at your request, earlier firearms to current factory specifications, to the degree possible, at current shop rates. These updates are not generally covered under warranty.

### INSTRUCTIONS FOR RETURNING ITEMS FOR EXCHANGE OR CREDIT:

1. Call Armalite Customer Service and obtain a Credit Return number. Please provide the customer service representative with all of the information requested so that we will be able to expedite resolution of your problem. Armalite will not accept any item that is received without a Credit Return (CR) number. Call 800-336-0184 Ext 211 to receive your CR number.

2. Please provide all requested documentation with your firearm when you return it. Include a letter that:

- a. Describes the reason that you're returning the item and whether you want Armalite to exchange the item or refund your money
- b. Provides all of your contact info (name, address, email, phone, etc.)
- c. Lists the CR number given to you by our customer service representative

If your letter is incomplete, or illegible, we will not be able to resolve the issue.

**WARNING: MAKE ABSOLUTELY SURE THAT THE FIREARM IS UNLOADED!!! DO NOT SHIP LOADED FIREARMS.**

**WARNING: IT IS ILLEGAL TO SHIP LIVE AMMUNITION OR SPENT CASES IN THE SAME PACKAGE AS ANY FIREARM THAT YOU ARE RETURNING TO ARMALITE® FOR SERVICE.**

2. Package the item carefully, inclosing a copy of the letter. Proper packaging and prepaid shipment (including insurance) to Armalite is the customer's sole responsibility.

3. Write your CR number on the outside of the box as part of the Armalite address. Ship to:

Armalite  
Attn: Receiving CR Number: \_\_\_\_\_  
745 S. Hanford St.  
Geneseo IL 61254

4. Keep your shipping receipt for your records for tracking purposes and in case of loss in shipment.

The qualified staff of Armalite's Premier Services Division completes all warranty and non-warranty repairs. We take pride in making things right. Your firearm will be given a full diagnosis and all issues will be corrected. We are not just parts changers! With our years of experience, we provide quality service that includes inspecting the condition of each part in question, diagnosing the cause of the malfunction, and doing everything needed to correct the problem. All repair work is tested for function before it is considered finished.

We know you want your Armalite back as quickly as possible. Under normal circumstances, a 4 to 6 week turn around can be expected.

# STRATEGIC ARMORY CORPS

In 2010, Strategic Armory Corps acquired AWC Systems Technology, LLC (AWC). AWC has over 27 years of experience producing high-quality firearm suppressors. In 2011, the brand expanded the business by acquiring Oklahoma based Surgeon Rifles, a manufacturer of some of the most accurate, durable, proprietary bolt action receivers and precision bolt action custom rifles on the market. It is during this acquisition that Strategic Armory Corps was born.

Over the next two years, Strategic Armory Corps diversified by adding NEXUS Ammo, Armalite, and McMillan Firearms to the group. In August 2012, SAC acquired the intellectual property, supported by 23 patents, for technology related to powdered metal core ammunition. Additionally, Harold Beal, the inventor of the technology, joined Strategic Armory Corps as a consultant to help develop this new line, NEXUS Ammo. NEXUS Ammo now has a proprietary line of ammunition with professional-grade accuracy and high-density core technology.

In mid-2013, Armalite joined the Strategic Armory Corps lineup of premium brands. Armalite, a 60-year veteran of the industry, brings a wide variety of semi-auto modern sporting rifles, bolt action, and pistol style firearms to the group. To round off the SAC family's offerings, McMillan Firearms Manufacturing was acquired in November of 2013. McMillan Firearms offers premium hunting rifles and tactical bolt-action firearms to Strategic Armory Corps' clientele.

Every aspect of Strategic Armory Corps has been designed and structured with the customer in mind. Each group of products available from a Strategic Armory Corps brand is available for purchase through any of the SAC brands. Whether you are law enforcement, military, or simply a firearms enthusiast, Strategic Armory Corps is truly a one-stop shop.
