SWAROVSKI
OPTIK

AS FAR AS THE EYE CAN SEE

*Why not let your senses take a journey
of discovery. What's the best way to do it?
It's quite simple.*

Next time you're traveling, going for a walk, or out and about at the weekend, why not take a lightweight pair of compact binoculars from the CL family with you. Suddenly you'll be able to see and experience much more, such as animals and plants that you wouldn't have even noticed or details on buildings or landmarks that would otherwise have remained hidden. You can take in all at once the entire stage at an open-air event, or look right to the other end of the valley. This will, quite literally, broaden your horizons.

“CAN YOU
SEE WHAT
I SEE?”

BREATH TAKING!

The finest viewpoints to explore with your binoculars, leaving you with unforgettable impressions.

1 PARIS
The view from the Eiffel Tower or Sacré Cœur is certainly delightful, but also a bit unoriginal. We recommend anyone visiting Paris and looking for something out of the ordinary to enjoy the spectacular 360° view from the Printemps department store's terrace.
Address: 64, boulevard Haussmann, 75009 Paris

2 TYROL
Anyone wishing to experience up close the unique view from the SWAROVSKI OPTIK site should come to Tyrol in Austria. A particularly delightful contrast awaits you with a journey on the Nordkette cable car. It ascends from Innsbruck, the urban capital of the Austrian Alps, right into the rugged Alpine terrain that is home to the ibex and chamois.
Departing from: Center of Innsbruck/Congress

3 ISTANBUL
“5.Kat” means “5th floor” in Turkish and is also the name of a bar and restaurant providing one of the most spectacular views over the European and Asian part of Istanbul, as well as over the Bosphorus. 5.Kat is located in an ordinary apartment block not far from Taksim Square and is particularly enchanting during the evening.
Address: Soğancı Sokak No: 7, 34433 Istanbul, www.5kat.com

4 VENICE
The finest view over the lagoon city with its sea of terracotta roofs, canals, and churches is provided from the *campanile* of the church of San Giorgio Maggiore – on a sunny day you can see as far as the Alps. The small island of the same name is located right opposite San Marco and can be reached by the regular *vaporetto* waterbus service from St Mark's Square.

5 CALIFORNIA
The Pacific Coast Highway in California is among the most beautiful roads in the world. The Santa Lucia Mountains provide the backdrop for the Big Sur coastline. The mountains are famous not only for their gorgeous views out to the Pacific, but also for their extensive hiking, riding, and mountain bike trails.
GPS coordinates: 36° 8' N, 121° 25' W

6 SCOTLAND
People rarely think of Scotland when it comes to whale and dolphin watching, an activity that so many people find fascinating. However, the Moray Firth on the North Sea coast in the Scottish Highlands offers some of the best viewpoints in the world for dolphin watching from land, which, unlike watching from a boat or helicopter, does not disturb the animals at all.
How to get there: fly to Inverness and then go by car

7 SERENGETI
Thanks to the sensational discoveries of numerous hominid fossils, the Olduvai Gorge in northern Tanzania is regarded as the cradle of mankind. This viewpoint also provides an amazing view of the gorge and rock layers that provide a visible record of the evolution of mankind.
GPS coordinates: 2° 59' S, 35° 21' E at 1,488 m

CL FAMILY
BEING
THERE IS
WHAT
COUNTS

WHAT REALLY MATTERS

- 1 OPTICAL BRILLIANCE FOR RAZOR-SHARP IMAGES**
Only high-precision optics guarantee easy observation, prevent your eyes from getting tired, and ensure that you will see every last detail.
- 2 LIFELIKE COLORS FOR INTENSELY BRIGHT IMAGES**
Good light transmission guarantees bright, high-contrast images and special coatings ensure you see lifelike colors.
- 3 RUGGED, DUSTPROOF, AND WATERTIGHT FOR INTENSIVE USE**
The sturdy housing protects the finely tuned optics in your binoculars from impact, water, and dust.

- 4 HANDY, LIGHTWEIGHT, AND IDEAL FOR ENTHUSIASTS**
The great ease of use and smart, ergonomic design of the binoculars turn seeing into pure pleasure.
- 5 FIRST-CLASS SERVICE CREATES SATISFIED CUSTOMERS**
High-quality binoculars give you a lot of enjoyment without any problems. In case you do require assistance, we guarantee quick, reliable, and comprehensive support for many years.

CL POCKET
PUTS
THE WORLD
IN YOUR
POCKET

COMFORTABLE *AND CRYSTAL CLEAR*

CL Pocket binoculars will accompany you wherever you go and whatever you do, whether you're traveling, out for a walk, sightseeing, or on an excursion. They are the perfect companion, offering unique

optical quality of the highest order, all in a handy format. Enjoy high-contrast, sharp, color-true images that you'll never forget. So small but simply brilliant.

ERGONOMIC *AND EASY*

The main reason why many products are so successful is because they are intuitive and very easy to use. Along with the outstanding optical and mechanical performance, this was the key prerequisite

when developing the CL Pocket binoculars. All you need to do is pick them up and enjoy the views they open up for you.

SMALL OUTSIDE,
BIG INSIDE

CL POCKET

Don't be taken in by the CL Pocket binoculars' compact dimensions: their true greatness is revealed from within. Compact binoculars that are easy to take everywhere and still fulfill many requirements. This means that you won't compromise on optical quality or mechanical performance.

THAT?”

THE *SWAROVSKI OPTIK* PRINCIPLE

*Every company needs a stable, secure
foundation that it can build on.*

SWAROVSKI OPTIK regards tradition, origin, quality awareness, entrepreneurial boldness, innovativeness, absolute devotion to service, and product functionality as the core values guiding all its actions. These principles have evolved from within the company at SWAROVSKI OPTIK and they are put into practice every day by all our staff.

1 TRADITION
We are a family-run business and, as such, we must in all conscience pass it on to our successors. SWAROVSKI OPTIK regards this as a long-term matter, which is why we're not just thinking about the next five or ten years, but about future generations.

2 TYROL, AUSTRIA
The clear commitment to the company and production site in Tyrol instills confidence. We firmly believe that customers who opt for a premium quality product also take a very close look at where and how a company manufactures its products.

3 QUALITY OF THE HIGHEST ORDER
The notion of quality is given meticulous consideration at SWAROVSKI OPTIK and goes beyond purely technical aspects. The whole package matters to us: outstanding optics, functionality, ergonomics, design, service – all of which must be perfectly harmonized.

4 LASTING VALUE
The actual value of a product is revealed in its daily use. If you like a product, use it often, and have enjoyed it for many years, then it is of lasting value. For most people, these are precisely the reasons why they opt for SWAROVSKI OPTIK: because they know that it is an investment for life.

5 COURAGE
At SWAROVSKI OPTIK the courage the team shows in developing superior products matters. Anyone who wishes to offer innovative products must constantly go to the furthest possible limits, allow time for developments, and take new paths.

6 SERVICE
Customer service is an essential part of the SWAROVSKI OPTIK brand identity and awareness at the highest level. Even when things go wrong, we guarantee that a repair is always carried out quickly and to the customer's satisfaction.

7 RESPONSIBILITY
Anyone who is, like SWAROVSKI OPTIK, surrounded by such natural beauty is aware that they have to bear some responsibility for it. We comply with the most stringent requirements for caring for and preserving the environment, and we voluntarily conform to the highest standards.

8 FUNCTIONALITY
Many members of our staff use SWAROVSKI OPTIK products almost every day, taking them into the open countryside, on excursions, or trips. This simply creates a sense of how something should work perfectly. Having this knowledge benefits the development of new products.
