SECOND TO NONE

EXPERIENCE
THE JOURNEY
ON TIKKA.FI

TIKKA ANTHEM

Nature always has the upper hand.
You aren't as fast as the animals
and you can't see as far and clear as they do.
The animal smells you and hears you before
you even know they're there.

You have to learn their ways.
You have to outthink the animal you're hunting
by knowing where they come from
and anticipate where they are going.

You can do everything right and still fail.
Even the best hunter can end up empty-handed.

But you're the hunter. There's something you
can do. You can never give up.

Those who succeed, never turn back.
You can keep going.
You can create the right place and the right time.

Because you know what every Tikka shooter
knows: That you can trust your rifle.
You can be confident it will handle the same
forces that you can.

Whatever the situation or circumstance, all you
have to do is concentrate on your shot.

Your Tikka rifle is the ultimate tool for accuracy.

Tikka is second to none.

TIKKA 2018 – EXPLORE THE BEST OF BOTH WORLDS

2017 was a successful year for us at Tikka. The launch of the Tikka T3x Tac A1 was extremely well-received and in 2018, we're broadening our selection with Tikka T1x, the only rimfire rifle you'll ever need.

Our product family now includes the rimfire caliber option many have been asking for. Never settling for the ordinary, we've made sure that the brand new Tikka T1x is made with the same uncompromising craftsmanship that defines our famous centerfire rifles.

The T1x offers the same high-quality, unparalleled comfort and razor-sharp accuracy at the range or in rough terrain, letting you experience the best of both worlds. Our new rimfire rifle is also compatible with most T3x accessories, so you can effortlessly adapt to the situation at hand.

And as always, we keep working tirelessly to ensure that the Tikka brand offers best-in-class value for every sport shooter and hunter.

Get ready to enter the world of Tikka!

MADE IN FINLAND

Revered all over the world.

All Tikka rifles are engineered and manufactured by Sako, in Finland. We take pride in our products and deliver what we promise. Every Tikka rifle has to group three shots under one inch at a distance of 100 m prior to being sold anywhere. Tikka rifles are both innovative and durable, but most importantly, they can be relied on under any circumstances.

A rifle comes with a purpose – to successfully hit the target. When it comes to accuracy and performance, Tikka is second to none.

TIKKA T1x MULTI TASK RIMFIRE

NUMEROUS TARGETS, ONE SOLUTION

BOLT

Tikka T1x has a stainless steel bolt, which offers smooth and weather resistant movement.

SAFETY

A two-stage safety that's easy and quiet to operate and clearly indicates when the rifle is on safe or ready to fire.

ACTION

The action shares the same bedding surfaces and inlay footprint with the centerfire T3x rifles.

SIGHT ATTACHMENT

BARREL

A cold hammer forged barrel with a crossover profile offers the benefits of a heavier barrel without much added weight.

STOCK

Light and durable stock with carefully designed grip patterns for maximum comfort. From a vertical pistol grip to colored grips, the T1x stock can be fitted with most T3x accessories. The length of the stock can be increased with spacers. This allows the rifle to grow alongside the shooter.

MAGAZINE

A 10 round magazine comes as standard for both 22 LR and 17 HMR calibers.

TRIGGER

The mechanism shares the same high quality trigger unit offered in Tikka centerfire rifles for achieving maximum accuracy.

PISTOL GRIP

Compatibility with most T3x accessories makes it easy to adapt the rifle to the preferences of any shooter.

Experience the rimfire rifle that performs perfectly at the range and in the rough.

T1x MULTI TASK RIMFIRE

Experience the most versatile rimfire rifle on the market.

Tikka T1x rimfire rifle has been designed from the ground up to handle a variety of shooting tasks. Its barrel has a cross-over profile, so you can enjoy the benefits and stability of a heavier barrel without noticeably increasing the weight.

The ample 10 round magazine and an exceptionally high quality trigger mechanism make each shot count, whether you are at the range or exploring the great outdoors.

Caliber options: 22 LR, 17 HMR

TIKKA T3x SERIES

THE ULTIMATE TOOL FOR ACCURACY

SAFETY

Tikka rifles provide you with a two-stage safety, blocking both the trigger and bolt handle. The safety is easy to operate and indicates when the rifle is ready for firing.

ACTION

The action is designed for accuracy, reliability and easy servicing. Tikka rifles provide you with an extremely rigid action with a two-locking lug T3 bolt. The bolt features a spring-loaded plunger ejector and a removable bolt handle, with a 70° opening angle leaving plenty of room for handling the bolt. This is one of the smoothest actions on the market.

SIGHTS

Most rifles are delivered without open sights; they are optional. Integral rails are installed on top of the receiver for Tikka's unique Optilock™ scope mounts. The receiver is also tapped for a Picatinny scope mount base.

BARREL

A cold hammer-forged Sako barrel of highest-grade steel is fastened to the receiver by a sturdy thread for safety and accuracy. Barrel is hand-crowned, as a precise and even muzzle crown is essential for accuracy.

STOCK

The T3x stock is designed to be light and durable. Carefully engineered use of walnut or fiberglass-reinforced synthetic materials guarantee solid performance. An optional recoil pad system with spacers provides adjustability in length of pull. Grip patterns are carefully designed for added comfort and a firm grip.

MAGAZINE

The single-column detachable magazines are manufactured from strong fiberglass-reinforced synthetic material. The magazine holds 3, 5 or 6 rounds depending on the model and caliber. A flush release is installed at the front of the magazine to prevent accidental releases.

TRIGGER

A single-stage pull with a comfortable trigger feel. The steel trigger has vertical grooves for added grip, even when wearing gloves. It is easily adjustable through the magazine well from 1 to 2 kg (2 to 4 lbs).

The Tikka T3x contains the same features that have made all Tikka rifles world-famous. When you have a Tikka rifle, you know it is second to none.

TIKKA T3x SERIES

THE BEST OF EVOLUTION

Features and improvements – you wished, we listened.

IMPROVED GRIP

A grip that never slips. The T3x synthetic stock has a new asymmetrical grip pattern and shape that has been specifically designed to give a solid grip in all conditions.

IMPROVED RAIL ATTACHMENT

Always keep the target in your sight. The T3x models have extra screw placements on top of the receiver so that you can robustly attach a Picatinny rail – even when using larger scopes.

REDESIGNED EJECTION PORT

The new T3x receiver introduces a widened angular ejection port that makes it easier to feed one cartridge at a time.

MODULAR STOCK

T3x has a new modular synthetic stock that has interchangeable pistol grips, making it possible to modify the angle of the grip. This allows for multiple shooting positions. Additional grips are sold separately.

The T3x synthetic stock also has an additional attachment point which allows you to change the width of the stock's fore-end.

RECOIL PAD

T3x models come with a new recoil pad technology that reduces the impact of recoil on the shooter. The new robust pad allows you to fully concentrate on the accuracy of your shots.

IMPROVED BOLT SHROUD

Robustness and quality go hand in hand. Our T3x models come with a durable metallic bolt shroud that covers and shields the rear of the bolt body and the firing pin.

STOCK NOISE REDUCTION

Be as silent as the forest. T3x synthetic stocks now have a foam insert within the interior of the rear stock. This lowers the stock-generated noise and can help you keep your target in sight. Not available for models with an adjustable cheek piece.

T3x LAMINATED STAINLESS

Weather can change in minutes, but the accuracy and performance of this rifle lasts for years.

Tikka T3x laminated stainless is a weather-resistant, sharp-looking grey stock for the adventurous hunter. T3x Laminated Stainless is designed to withstand demanding weather conditions.

To achieve this, the Laminated Stainless model comes with a stainless steel barreled action and hard-laminated stock. Compared to normal wood, the laminated wood cell structure does not expand during changing weather conditions. This will minimize the change in point of impact from where the rifle was zeroed.

Caliber options: 204 Ruger | 222 Rem | 223 Rem | 22-250 Rem | 243 Win | 260 Rem | 7mm-08 Rem | 308 Win | 6.5 Creedmoor | 25-06 Rem | 6.5x55 SE | 270 Win | 30-06 Sprg | 9.3x62 | 7mm Rem Mag | 300 Win Mag | 338 Win Mag | 270 Win Short Mag | 300 Win Short Mag

T3x COMPACT

A rifle that fits like a glove.

T3x compact is an adjustable rifle that adapts to its user. This rifle has a 12.5" length of pull, creating ideal ergonomics for shooters who struggle with long stocks. It is suitable for long term use, as you can adjust the length of pull according to your needs – making it especially useful for young shooters, who can adjust it as they grow.

The calibers chosen are milder in recoil, easy to control and therefore great for training as well as for serious hunting.

Caliber options: 204 Ruger | 223 Rem | 22-250 Rem | 243 Win | 7mm-08 Rem | 308 Win | 6.5 Creedmoor

Tikka T3x Compact comes with a 30 mm (approx. 1") spacer and larger recoil pad to enable a longer length of pull.

T3x BATTUE

You can never be as fast as the animals, but with the right tool you'll have the upper hand.

The short-barreled Tikka T3x Battue is designed specifically for fast target acquisition situations. The perfectly balanced and highly visible battue sights with TruGlo® optic fibers enable fast and easy aiming. With the addition of a rifle scope and Optilock™ scope mounts, the T3x Battue has the accuracy to reach game at longer distances.

The Tikka T3x Battue rifles are built for hunting situations where the game is running or in motion, enabling easy targeting over relatively short distances. The T3x Battue is the top choice for hunters who trek and hunt in heavy-cover territories.

T3x VARMINT

If you're looking for a true stalking or long distance tool, look no further.

T3x Varmint has consistent accuracy, be it at the range or on the plains. The free-floating barrel of the Tikka T3x Varmint effectively eliminates vibration, offering solid accuracy performance, round after round. The synthetic T3x Varmint stock comes with a vertical pistol grip, better suited for prone shooting.

The stock has an extra wide fore-end for more solid support, and the swivel stud accommodates either a bipod or a sling. The ergonomically designed Varmint cheek piece provides a comfortable optimal head position.

All Varmint models come with the standard of a 5- or 6-round magazine.

our wide range of accessories.

TIKKA ACCESSORIES

Customize your Tikka rifle to suit your purpose with our new Tikka accessories.

Enhance your Tikka experience with our wide range of accessories, available in original Tikka accessory bags. Your Tikka rifle has been designed to be adaptable, so you can really make it yours. Contact your local dealer for more information about our range of accessories.

NORMAL PISTOL GRIP

Available color variations: desert, grey, orange and green.
Soft-touch version is available in black.

VERTICAL PISTOL GRIP

RECOIL PAD

Also compatible with T3 models.

BOLT SHROUD

Also compatible with T3 models.

TIKKA ACCESSORY BAG

You'll recognize the accessories from this package.

RECOIL LUG

This extra-strong lug has minimal deformation – even with larger calibers. Also compatible with T3 models.

FRONT GRIP

Easily widen the fore-end of your stock. Available color variations: desert, grey, orange and green. Soft-touch version is available in black.

THE OPTILOCK™ IDEA

The Optilock™ mounts keep the scope aligned and secured during all circumstances.

The scope is mounted with the revolutionary ball-bearing rings. Unlike conventional mounts, the Optilock's polymer rings evenly distribute the clasp force along the shaft of the scope, protecting your optics. The limiter pin in the mount base and the limiter pin slot on the receiver enable fast, secure and accurate mounting of the scope.

Optilock bases and rings are machined from a solid block of steel creating a high strength and dimensionally accurate product.

Rings of different height and diameter are available (please see data table). This allows for adjusting sights to suit each shooter and scope model.

The front base of the Optilock™ has a limiter pin for the receiver's surface in front. This ensures correct remounting of the scope and Optilock™ unit, without requiring new sight adjustments if the unit is removed and repositioned.
