ABOUT US

Over 70 years of history.

For Steiner, superb performance and bone-deep tenacity was born in the ruin of war. In 1947, in the face of demolished infrastructures and a collapsed economy, Karl Steiner started a one man workshop in Bayreuth, Germany, obsessed with a single goal: creating optical products so functional, sturdy and uniformly flawless that nothing in the chaotic, mass-production post-war world could compare. His passion for unmatched optical perfection pushed Steiner-Optik from a hardscrabble startup to a 50-man factory within six years, and on to become a worldwide optical icon with binoculars and rifle scopes for every purpose, a history of innovation, and legions of diehard enthusiasts in every category.

Faithful to the traditions upon which his father founded the company, Carl Steiner held on to his commitments of unsurpassed quality, to keep the production location in Germany, to create new jobs and career opportunities for his employees, expert training of his staff of now approximately 150 and a constant investment in research and development.

Today, Steiner manufactures binoculars for the military, hunting and outdoor activities. The name Steiner stands for performance optics. These premium German optics are now available in more than 80 countries, prized by sportsmen and spectators, birders and sailors, aviators and explorers, and deployed by security and military forces around the globe. The research, development and production site in Bayreuth is arguably the most advanced optical facility on earth. Steiner world-class lenses, coatings and prisms are created, perfected

and produced in Germany, enduring the most exhaustive production, inspection, testing and approval process in the industry - lenses alone go through 460 exacting steps. Steiner was the first to develop the lightweight, indestructible rubber-armored Makrolon® housing, all-conditions nitrogen-charged fog proofing, the military laser protection filter, integrated binocular/compass, water-repellant Nano-Protection® lenses, and countless - and continuing - coating technologies that produce the highest contrast and light-transmission.

In 2008 Steiner became a proud member of the Beretta Holding group. As a member of the elite Beretta Group - the world's oldest weapons manufacturer - Steiner is stronger, more versatile, and more innovative than ever. Every Steiner product will provide best-in-class performance for life - and for lifetimes to come. Since decades, Steiner is the undoubted market leader for nautical binoculars als well as the inventor of the compass binoculars and remains the first choice for sailors and captains of small boats and big ships all around the world.

Steiner makes trusted optics for life's defining moments. The successful pursuit and capture of these moments demand the fast and precise detection, location and identification of a distant objective. Whether the objective is wild life, a marine bearing, law enforcement suspect or military combatant, our optics enhance an individual's most important sense, vision, so that on land or sea - **Nothing Escapes You.**

STEINER porro prism binoculars are extremely tough and dependable, ideal for military and tactical applications. The porro system creates a realistic 3D-image, with maximum depth of field, for accurate evaluation and targeting. Even at extremely long distances, the user can clearly see whether one object is behind or in front of another. With exceptional light transmission, the porro system also provides enhanced clarity in challenging low-light Conditions.

STEINER - RUGGED AND RELIABLE

By the use of new high-tech materials STEINER set new standards for optical performance and robustness. Decades of user experience in over 80 countries in the military Segment lie in our civilian products. That's why we can say, STEINER manufactures the most rugged binoculars in The world. Each glass undergoes stringent quality checks. By tests such as collimation, shock resistance, water resistance and temperature resistance it is ensured that all binoculars leave Steiner withstanding any extreme.

MORE LIGHT, BETTER IMAGE

All Steiner lenses are being purchased trough premium suppliers of raw glass. All air-to-glass surfaces of STEINER binoculars and scopes are multi-coated with proprietary, cutting-edge formulations of minerals and rare earth compounds that maximize clarity, colour and definition. As the one brand that has developed optics specifically for military service, STEINER is committed to giving you the competetive edge. This demand to highest glass quality delivers the unmatched light transmission and secures Steiners leading position in the world market.

UNIQUE NITROGEN-PRESSURE SYSTEM

Fogging up or the formation of condensation inside the binoculars is totally prevented by this high-tech proprietary solution. Even temperature variations between -40 °C to +80 °C do not affect the functionality of Steiner nitrogen-filled binoculars. By 2-way-valvetechnology, the maintenance of the binoculars is possible at any time even after many years.

DESIGNED FOR COMFORT

Binoculars rest comfortably in the palms, with rubberized housings and hand-friendly ridges, curves and pads for intuitive use. Scopes have adjustable illumination, oversized knobs and positive sound/feel feedback for easy settings and repeatable accuracy. Every detail is ergo-nomically perfect because the world never is.

BUILT FOR ABUSE

Proven STEINER lenses and prisms are built into unbreakable, rubber-armoured Makrolon polycarbonate or magnesium-alloy binocular housings. Then purged, sealed and shielded to be fog-proof, waterproof, impact resistant and immune to extremes of every kind. Now, and for lifetimes to come.

CRAFTED TO SEE BETTER, NOT JUST FARTHER

For over 67 years, STEINER-Optik in Bayreuth Germany, has raised the bar in premium long-range optics. Over 460 exacting steps ensure rigorous quality throughout design and manufacture. Relentless innovation creates technologies like the N2 injection system, laser protection filters, STEINER Nano-Protection and Diamond-Night-Lens-Coatings. Constant user feedback, from battlefields to birding, keeps performance state of the art. No optics will serve you better.

••••• STEINER GENUINE QUALITY •••••

STEINER grinds and polishes its own premium lenses and prisms, then multi-coats all air-to-glass surfaces with proprietary coatings for unmatched brightness and clarity.

····· UNERRING PRECISION ······ PERFECT COATINGS ·····

After more than 460 high-precision manufacturing and inspection steps, finished multi-coated lenses and prisms are assembled into unbreakable Makrolon polycarbonate or magnesium alloy binocular housings.

STEINER advanced coatings, applied to every air/glass surface, have evolved to enhance light so your eyes perceive more contrast and brighter detail, even in lowlight conditions.

YOUR PREY DIDN'T SURVIVE THE HUNT, BUT YOUR OPTICS WILL.

Once you're after that trophy, nothing can hold you back. In addition to providing the sharpest image you can get, STEINER optics survive theworst conditions you can face. Low light or heavy glare, deep cold, rock slams or gritstorms, no matter. The view is always crystal clear and dead certain. Even after countless relentless pursuits, STEINER optics are eager for more and ready to go. Not unlike yourself.

CONTOURED EYE CUPS

XL FIELD OF VIEW

135 m on 1000 m

STEINER LUMICLIP simple yet innovative to easily locate your binoculars!

TRANSMISSION (96%+)

CLICLOC strap attachment for instant neck strap release.

The evolution of a legend – The new **NIGHTHUNTER 8X56** gives you the ability to identify game and take ethical shots when others cannot. Steiner's latest developments in binocular technology are the result of 70 years of optical development and innovation. This technology, combined with Steiner's hunting heritage, produces the ultimate optic for night hunting. The new Steiner Nighthunter - almost like having an unfair advantage.

····· NIGHTHUNTER OVERALL FEATURES ·····

- MAXIMUM (96%+) LIGHT TRANSMISSION: Success in hunting is about the odds. The longer you can hunt the better your odds of success. Extend your hunt every night. One more chance-one more look-one more shot. Steiner's advanced technology penetrates the shadows with incredibly bright images – See what other hunters are missing.
- SPORTS-AUTO-FOCUS: No need to fumble in the night chasing focus. To view objects in low light there is no bettersystem. Focus each eyepiece to your vision once, and then count on razor-sharp images from 20 meters to infinity. Clearly have the ability to determine your trophy of a lifetime no matter the darkness – Perfect focus all the time.
- WIDE FIELD OF VIEW: The more you can see the better hunter you can be. See every animal in the field and let Nothing Escape You with a huge 135-meter field of view.
- CLARITY IN THE NIGHT: Male or female? Trophy or not? Without a pair of Nighthunters you may never know – The porro prism design produces threedimensional depth perception to quickly locate and evaluate your target. Add to this Steiner's proprietary Diamond Night lens coating formula and you have superior clarity and contrast at dusk and dawn giving extra minutes of prime
- RUGGEDNESS, PRECISION AND PERFORMANCE: Steiner's always function when you need them. No worries when it comes to durability. With more than half a century of battle-proven reliability there are no better rugged-built optics that perform like a Steiner.
- CONTOURED EYE CUPS: Holding your binoculars in a way to block the sun with your hands can be awkward. Peripheral light while using binoculars can impair your vision no matter the time of day. Steiner's patented eyecups allow you to take advantage of the Nighthunter's amazing optical technology and always see the clearest image possible.
- STEINER LUMICLIP: When you can hear your prey but can't see him you must be quiet as a field mouse. Don't stumble in the dark groping for your binoculars creating noise that will send game running. Steiner's new LumiClip is simple yet innovative. The luminescent clip glows with just enough light to easily locate your binoculars in the darkest night.

Art.-Nr. 2316

LRF 1700 10X30

Binoculars with all the features plus high-contrast images at maximum resolution. The laser range finder offers new possibilities without the need for additional equipment.

MAGNIFICATION 10x | FIELD OF VIEW 108m | WEIGHT 785 g

Art.-Nr. 2315

LRF 1700 8X30

The LRF 1700 8x30 is surprisingly compact, lightweight and easy to use. It will quickly become a trusted and practical additional to your hunting gear.

MAGNIFICATION 8x I FIELD OF VIEW 114m I WEIGHT 795 g

LASER RANGE FINDER									
Measuring range	Ranging accuracy								
25 to 1.700 m	± 1 m to 300 m								
Range dependent of weather and vision	± 2 m to 600 m								
Range dependent of weather and visiont	± 0.5 % > 600 m								

LRF 1700 - MEASURE WITHOUT THE NEED TO REFOCUS The most compact and lightweight binoculars - up to 20% less weight and volume - with precise laser distance measurement up to 1700 m, scan mode to continuously measure distance to moving targets and the legendary Steiner reliability and ruggedness.

······ LRF 1700 OVERALL FEATURES ······

- STEINER HIGH-DEFINITION-OPTICS for clear, razor sharp images in full contrast with maximum resolution right to the edge. A highly specialised coating provides first-class light transmission. Diffused light is reduced to a minimum. Contours are always sharp and distinctly visible.
- Top performing optics by SPORTS-AUTO-FOCUS SYSTEM that lets you focus each eyepiece to your vision once, then remains razor sharp from 20 m to infinity, no more chasing focus on moving targets. Bright, 3D-images.
- LEGENDARY RUGGEDNESS with durable polycarbonate Makrolon housing that withstands 11G of impact, Floating Prism System that uses flexible silicon to absorb severe shock, impact and abuse without damage, Water Pressure Proofness up to 5 m, Nitrogen-Pressure-Filling into the optic against fogging up inside at temperature range between -40 °C to +80 °C and the protective, hydrophobic Steiner Nano-Protection on the lenses making water sheeting off and dirt, dust, snow are repellent for easy cleaning and clear view.
- Versatile **ERGOFLEX EYECUPS** made of non irritating and non-ageing silicone, which provides a naturally comfortable feeling on the eyes and can also be adjusted three ways by simply folding it over: ergonomic shape, cylindrical classic setting and folded over for use with eyeglasses
- STEINER NONOISE AND COMFORT USE ELEMENTS are optimised for silent and intiutive operation. NBR-Rubber armouring particularly on the protruding operating elements ensure effective sound absorption. Especially good grip characteristics guarantee secure handling even with gloves.
- HIGH-END ACCESSORIES with case, neoprene-carrying strap, rain protection cap and objective covers.

RANGER XTREME 8X56

Large 56 mm objectives result in maximum light transmission for maximum clarity and sharp contrast at dawn and dusk.

MAGNIFICATION 8x I FIELD OF VIEW 125m I WEIGHT 1130 g

RANGER XTREME 10X42

Features 10 x magnification to judge points or mass at shooting distance and track game at long range, with brightness to weight performance nothing in its category can match.

MAGNIFICATION 10x | FIELD OF VIEW 108m | WEIGHT 790 g

The RANGER XTREME SERIES was made for the ambitious hunter who expects a binocular to hunt as hard and as long as he does. You often get your best results at day's edge, when prey feed camouflaged by early sun or growing darkness. The light enhancing design of Ranger Xtreme binoculars unlocks the shadows they hide in, giving you clear game-spotting vision in dim light. In full light, it lets you peer deeper in darkened woods, revealing sign and quarry that other hunters miss.

- **STEINER HIGH-CONTRAST-OPTICS** provide bright, brillant views, accurate colour and clear images with high contour sharpness for exceptional performance up to close range of 2 m.
- FAST-CLOSE-FOCUS central focusing wheel requires minimal, stepless rotation for quick absolute sharpness from close-up to infinity-comfortable, easy to use.
- OUTSTANDING RUGGEDNESS with durable polycarbonate Makrolon housing, Water Pressure Proofness to 3 m and the Nitrogen-Pressure-Filling into the optic against fogging up inside at temperature range between -20 °C to +80 °C. Non-slip NBR-Longlife rubber armour protection resists oil, acid or adverse weather. Impervious to harsh conditions for generations of trusted use.
- XL FIELD OF VIEW ensures an overview of search and observations activities.
- ERGONOMIC DESIGN with rubber armoured protruding controls providing comfortable and silent observations with effective sound absorption. Ergonomic pliable eyecups made of soft, skin-friendly and non-ageing silicone protect against incident light and draught. Simply to be folded down for use with eyeglasses. Thumb depressions for an excellent grip, even with gloves.
- · CLICLOC-STRAP ATTACHMENT SYSTEM attaches and releases neck strap with instant, push-button ease, and keeps binoculars hanging straight and action-ready.
- HIGH-END ACCESSORIES with high-end case, ClicLoc neoprene-carrying strap for instant, push-button ease, rain protection cap and objective covers.

RANGER XTREME 8X42

Versatile, compact and easy to carry, perfect for rifle hunting in a variety of environments. A lightweight all-terrain favourite with a great field of view.

Item No. 5116

A versatile all-round binocular. Light-weight with bright images until twilight.

Item No. 2313

MAGNIFICATION 8x I FIELD OF VIEW 116m I WEIGHT 696g

The new **OBSERVER SERIES** are designed for a versatile use to match any situation under all conditions. Three full sized models in a lightweight design provide comfortable ergonomics for longterm observation, bright images, crisp resolution and a wide field of view. Hardly any other binocular gets you so close with such clear, sharp detail, for so little budget.

····· OBESERVER OVERALL FEATURES ·····

- STEINER HIGH-CONTRAST-OPTICS provide bright, brillant views, accurate colour and clear images with high contour sharpness for exceptional performance up to close range of 2 m.
- FAST-CLOSE-FOCUS central focusing wheel requires minimal, stepless rotation for quick absolute sharpness from close-up to infinity. Comfortable,
- OUTSTANDING RUGGEDNESS with durable polycarbonate Makrolon housing, temperature range between -15 °C to +55 °C. Non-slip NBR-Longlife rubber armour protection resists oil, acid or adverse weather.
- **ERGONOMIC DESIGN** with rubber armoured protruding controls providing comfortable and silent observations with effective sound absorption.
- CYLINDRIC ROTATION EYECUPS made of soft, skin-friendly and non-aging silicone.
- LIGHTWEIGHT ROOF-PRISM DESIGN has less bulk to stay out of the way while observing.
- FULL ACCESSORIES with bag, carrying strap, rain cover and lenses covers.

The driven hunt specialist with a wide field of view. With red dot to ensure quick target acquisition. The ideal rifle scope also for big game hunting. True 1x magnification allows shots with both eyes open.

Item No. 8760900204

TUBE DIAMETER 30 mm | LENGTH 262 mm | WEIGHT 490 g

Typical, elegant allround riflescope. Suitable for daytime hunting until twilight. Universally applicable to almost all rifles

Item No. 8761900204

TUBE DIAMETER 51mm | LENGTH 303 mm | WEIGHT 585 g

Universal, all-purpose riflescope with large 50mm objective diameter for a clear and bright image even in bad light condition.

Item No. 8764900204

TUBE DIAMETER 57,5 mm | LENGTH 315 mm | WEIGHT 640 g

The specialist for long range, high precision shots also in difficult lighting conditions. Proven for challenging hunting situations. Great details by high magnification. Parallax adjustment from 50 m to infinity.

Item No. 8763900204

TUBE DIAMETER 63,5 mm | LENGTH 368 mm | WEIGHT 720 g

Our RANGER RIFLE SCOPE SERIES delivers a short construction with a wide field of view. These scopes deliver High-Contrast optics and are superbly capable in low light by a light transmission of more than 90%. Their lightweight, shockproof and appealing design give you the most for your money and will always deliver unfailing performance whatever firearm or target you prefer. The proven 4x zoom range lets hunters around the world pair their new scope with their favourite rifle.

...... **OVERALL FEATURES**

- STEINER HIGH-CONTRAST-OPTICS provides bright, brilliant views, clear images, edge-to-edge sharpness and delivers also an excellent resolution of
- XL FIELD OF VIEW and a safe eye distance of 9 cm for the utmost overview and saftey in any situation.
- INTUITIVE RETICLE ILLUMINATION on the center tube provides maximum grip. Small, easy-to-use rotating knobs offer 6 nighttime and 5 daytime settings and an OFF position between each step. The battery compartment is integrated in the knob.
- RELIABLE MECHANICS provide accurate repetition and exact clicks. Precise diopter setting and non-slip, rubberized power ring.
- **EXTREME RUGGEDNESS** by highly resistant materials and precise, reliable construction give the rifle scopes extreme shooting stability. Water Pressure Proofness up to 2 m even without cover caps on the turrets. Special sealing techniques make this possible. No dust, no dirt and no moisture can penetrate inside. Fogging or formation of condensation on the inside of the scope is completely eliminated by the Steiner Nitrogen-Pressure-Filling. Even temperature variations of -25 °C to +65 °C will not adversely affect the functionality and all moving parts can be operated.
- ELEGANT, LIGHTWEIGHT AND SLEEK DESIGN: one-piece tubes with matte, scratchproof hard anodized finish convince by a sleek middle part and soft intersections with smart radiuses. Small windage and elevation turrets.
- **4A-I-RETICLE** with red dot has three posts for quick, uncluttered target
- SCOPE OF DELIVERY consists of objective and ocular lens covers.

WIDE. BRIGHT. SHORT. Compact versatility for virtually any rifle, plus an optical performance to pick our prey from any environment.

BUILT FOR THE BEST — DESIGNED FOR SUCCESS

For many decades, Steiner products have been the first choice for military and special forces because they cannot compromise on precision, ruggedness and reliability.

Our products are tested to the highest military standards, guaranteeing unsurpassed optical and mechanical quality and performance, that is reflected in the unique reliability of our products.

Whether at the shooting range, in competition or in hunting - trust in the reliability of your own equipment is always indispensable.

We design the high-performance optics built for the best in the world - for superiority in every situation!

RIFLESCOPES
M7Xi IFS
M7Xi / M8Xi
M5Xi
S-SERIES SIGHTS

The Intelligent Firing Solution with integrated customizable display always provides all the important information in real time to the operator and sets a new benchmark as the ultimate long-range riflescope.

Item No. 8719003601

TUBE DIAMETER 34 mm I LENGTH 390 mm I WEIGHT 1.150 g

Steiner's new M7Xi IFS riflescope offers an Intelligent Firing Solution Interface that provides important information to the operator about levelling and current turret setting in real time. The builtin Ballistic Calculator and Sensor Suite use temperature, air pressure, inclination and wind drift to determine the bullet point of impact in real time. The display and user interface can be customized via Smartphone App (Bluetooth connection to user needs. Information can be easily moved, arranged or deactivated if needed.)

OVERALL FEATURES

- IFS INTELLIGENT FIRING SOLUTION with individually customizable display in the field of view showing every required information in real time - once set and you never lose sight of the target.
- The built in BALLISTIC CALCULATOR AND SENSOR SUITE determines the bullet point of impact in real time.
- INDIVIDUAL CUSTOMIZABLE DISPLAY provides information about levelling and the current turret setting, allowing you to know the current exact shooting position in the field of view. Display and user interface can be customized to user needs.
- **BLUETOOTH-CONNECTIVITY** for easy set-up on the smart phone. Every information can be moved freely or can be deactivated if needed via smart-
- The **SHORT OVERALL LENGTH** of the scope creates more rail space for clip-on devices (e.g. thermal imaging or night vision devices) for superior operational capabilities in any combat situation.
- PRECISE WINDAGE/ELEVATION ADJUSTMENT is easy and accurate for repeatable accuracy, with tactile click-by-click feedback you can hear and feel.
- LOW PROFILE TURRETS provide outstanding situational awareness and additional mounting options for add-ons and accessories.
- EXTREME RUGGEDNESS AND RELIABILITY achieved through durable materials and reliable design. A sturdy 34mm tube provides reliability and more space for windage and elevation adjustments for longer shots.
- WATERPROOF AND SHOCKPROOF The M7Xi IFS is waterproof up to 20 m (66Feet) and the operating temperature range is -46°C to +64°C. It can withstand up to 900Gs
- RETICLE VARIETY The new M7Xi is available with MSR2, G2B, TReMoR3 reticle.

• DRAMATICALLY REDUCE THE TIME NEEDED T O TAKE THE SHOT

· ALL CURRENT SETTINGS AND SUGGESTED ADJUSTMENTS VISIBLE IN DISPLAY

• ONCE ACQUIRED, YOU NEVER LOOSE SIGHT OF YOUR TARGET

• INNOVATIVE BUT YET RUGGED, RELIABLE AND INCREDIBLY PRECISE

PRECISE WINDAGE AND • **ELEVATION ADJUSTMENT**

Easy and immediate for repeated accuracy, with click-by-click feedback you can hear and feel every small change. Second rotation indicator included. Turret adjustment is shown in the display.

UNMATCHED OPTICAL QUALITY

Military grade optics, legendary Steiner coating, world renowned ruggedness for an incredibly accurate and high tech riflescope that will never fail you.

MENU KEY PANEL

BATTERY SLOT The M7Xi IFS is powered by a simple AA battery. AA batteries are durable, reliable and easy to find anywhere in the world.

SENSOR SUITE

Sensors provide real time input

for temperature, barometric air pressure and inclination.

The user interface is very intuitive and easy to use. Soft touch buttons take the user through the quick and easy set-up.

> Visible in the display, the live inclination level eliminates shooting error due to cant.

SUGGESTED IDEAL WINDAGE SETTINGS

> Based on distance, bullet specifications, temperature and altitude, the M7Xi IFS suggests the ideal windage setting. Just rotate the windage adjustment until it matches the indicated setting.

WIND SPEED AND **DIRECTION**

> Indicated wind speed and direction are shown as well.

THE M7XI IFS AND M8XI IFS DISPLAY IS 100% CUSTOMIZABLE.

KEEP THE INFORMATION THAT IS MOST IMPORTANT TO YOU IN YOUR FIELD OF VIEW TO CREATE A UNIQUE SHOOTING EXPERIENCE UNIQUE.

The 7x zoom gives the operator more fl exibility and a higher resolution for all distances while the large field of view and the outstanding optical quality create a perfect overview of the surroundings at all times.

Item No. 8723000226

TUBE DIAMETER 34 mm | LENGTH 387 mm | WEIGHT 950 g

The short overall length of the scope creates more rail space for clip-on devices (e.g. thermal imaging or night vision devices) for superior operational capabilities in any situation.

Item No. 8723000126

TUBE DIAMETER 34 mm I LENGTH 260 mm I WEIGHT 650 g

Based on the outstanding success of the M5Xi - used today by Special Forces around the globe - Steiner sets a new benchmark with the ultimate long-range riflescope M7Xi 4-28x56 with a 7x zoom and an impressive field of view (1.42-9 m at 100 m). The ultimative DMR riflescope M8Xi 1-8x24 offers an 8x zoom, which gives the operator more flexibility and a higher resolution from close quarter to midrange scenarios. The new Steiner M7Xi/M8Xi Series guarantees outstanding reliability, water proofness and withstands shocks up to

M7Xi/M8Xi OVERALL FEATURES

- The **SHORT OVERALL LENGTH** of the scope creates more rail space for clip-on devices (e.g. thermal imaging or night vision devices) for superior operational capabilities in any combat situation.
- LOW PROFILE TURRETS provide outstanding situational awareness and additional mounting options for add-ons and accessories.
- PRECISE WINDAGE/ELEVATION ADJUSTMENT is easy and accurate for repeatable accuracy, with tactile click-by-click feedback you can hear and feel.
- ILLUMINATED RETICLE with a brilliant image and a light transmission of more than 94%.
- HIGH PERFORMANCE OPTICS with repeatable and precise working mechanics.
- EXTREME RUGGEDNESS AND RELIABILITY achieved through durable materials and reliable design. A sturdy 34mm tube provides reliability and more space for windage and elevation adjustments for longer shots.

WATERPROOF AND SHOCKPROOF

The M7Xi is waterproof up to 20 meters with a functional range of -46°C to +64°C. It is rugged enough to withstand impact testing to 900Gs on all optical and electronic components.

RETICLE VARIETY

The new M7Xi is available with MSR2, G2B, TReMoR3 reticle. The new M8Xi is available with DMR8i reticle.

The 3-15x is the perfect compromise of compact size and long-range performance.

It provides outstanding visibility even in lowest light conditions combined with highest precision, accuracy and reliability.

Item No. 8707000101

TUBE DIAMETER 34 mm | LENGTH 365 mm | WEIGHT 920 g

The 5-25x is the ultimate long-range scope for far distances and large calibers. High power and equivalent elevation travel extend your range beyond 1.500 meters, with outstanding visibility even in lowest light.

Item No. 8704000101

TUBE DIAMETER 34 mm | LENGTH 422 mm | WEIGHT 1.000 g

The M5Xi SERIES offers ambitious hunters and sport shooters maximum performance even under toughest conditions. The high-grip, precise and accurate reticle adjustment offers, in combination with fine and detailed special reticles, many possibilities for every area of application. The M5Xi has been developed in close cooperation with international special forces mainly for rigorous demands of military missions around the globe. It has been tested in field operations under the toughest conditions by special forces, which is why it was even selected for the G29 of the Special Commando Forces of the Germany Army (KSK der Bundeswehr). The M5XI RIFLESCOPE SERIES from STEINER sets new standards in terms of performance, quality and reliability.

M5Xi OVERALL FEATURES

- **5X ZOOM** provides maximum range at the high end, wider field of view at the low end, and eliminates any tunneling effect.
- **HIGH PERFORMANCE OPTICS** for 94% + light transmission to ensure optimal performance and better contrast in low light.
- ILLUMINATED RETICLE with seven night and four day levels with two "OFF" positions at each end, and quick standby levels between each for fast return setting.
- OPTIMIZED EXTERIOR DESIGN with larger, positive grip elevation, windage, parallax and illumination knobs and nonslip diopter and magnification adjustment.
- PRECISE WINDAGE/ELEVATION ADJUSTMENT is easy and accurate for repeatable accuracy, with tactile click-by-click feedback you can hear and feel.
- **DUOSCALE** patented elevation adjustment with second-rotation scale that's hidden when inactive.
- EXTREME RUGGEDNESS engineered according to the highest military standards, rugged enough to withstand impact testing to 900Gs on all optical and electronic components. Water Pressure Proofness to 2 m. No dust, dirt or moisture can penetrate inside. Fogging or formation of condensation on the inside is completely eliminated by the STEINER Nitrogen-Pressure-Filling. Temperatures of -25 °C to +65 °C will not adversely affect the functionality.
- · RETICLE VARIETY

The M5Xi is available with G2B, MSR2, TReMoR3 and B4I reticle.

S432

The large eye box together with the excellent illumination settings (Rotary Digital Control) allows the operator to be effective in any environment.

Item No. 8794900103

MAGNIFICATION 4x I FIELD OF VIEW 11,8 m I LENGTH 143 mm I WEIGHT 640 g

S332 NEW

The unmatched field of view (14,1 m) guarantees perfect perception of your surroundings at all times while the large eye relief (more than 80 mm) allows comfortable positioning in every situation.

Item No. 8793900103

MAGNIFICATION 3x | FIELD OF VIEW 14,8 m | LENGTH 142 mm | WEIGHT 590 g

The Steiner \$332 (3x zoom) and \$432 (4x zoom) are designed and engineered to be the best sights in the market due to the combination of optical quality, field of view, eye relief and a large eye box. The S-SERIES provides enhanced accuracy and quick target acquisition in a compact size with a bright and brilliant optical quality. They are easy to mount and simple to use becoming the most effective and convenient sights in the market.

OVERALL FEATURES

- 3X OR 4X MAGNIFICATION TARGET ACQUISITION UP TO 800 m
- VERY LARGE FIELD OF VIEW (\$332: 14,1m; \$432: 11,8 m) guarantees perfect perception of your surroundings.
- LARGE EYE RELIEF (= 80 mm) ensures comfortable handling in every
- VERY LARGE EYE BOX combined with the excellent illumination settings (Rotary Digital Control) ensures an effective use of the sight under every
- OUTSTANDING ILLUMINATION SETTINGS
- DIOPTER SETTING FROM -3 TO +3
- 100% FOG-PROOF WITH NITROGENE FILLING
- WATERPROOF AND SUBMERSIBLE UP TO 10 m
- · SHOCKPROOF UP TO 900 Gs
- GERMAN PRECISION OPTICS
- M-LOK MOUNTING SYSTEM
- RUGGED CONSTRUCTION • RELIABLE MECHANICS
- SIMPLE AND EASY TO USE

5432/5332 NEW

ENHANCED ACCURACY AND **OUICK TARGET ACOUISITION**

Designed to never fail in any situation.

ADVENTURE

BUILT FOR A LIFETIME OF EXCEPTIONAL EXPERIENCES

You pass this way but once. Make sure you see it clearly: all the colour and contrast, every breath-taking detail, all laid out with depth and clarity only Steiner's world-class optical technology and adventure-loving construction can provide. Every hike, cruise, outing and event has its own unforget-table high point. Make the most of it with the best companion you could have along: Steiner Outdoor binoculars.

WILDLIFE SKYHAWK 3.0 SAFARI ULTRASHARP

Item No. 2303

in rough outdoor environment. A real must-have. MAGNIFICATION 10x I FIELD OF VIEW 112m I WEIGHT 850g

Top-notch comfort and legendary durability allow use

WILDLIFE XP 10X44

High 10x-power combined with absolute optimum close-ups and sharpness in Ultra-HD.

WILDLIFE XP 8X44

Versatile 8 x magnification and a particularly large field of view. Practical, easy handling and comfortable - a great choice of optics in Ultra-HD.

Item No. 2302

MAGNIFICATION 8x I FIELD OF VIEW 133m I WEIGHT 880 g

..... WILDLIFE XP OVERALL FEATURES

- STEINER ULTRA-HD-OPTICS with highest manufacturing precision and high-end fluoride glass for extraordinary colour fidelity, highest detail resolution right to the edge and optimized, clear contrast. Delivers razor sharp images, topclass light transmission and 3D brilliance with sculptural images and excellent depth of field. Great field of view for a perfect overview in any situation.
- RAPID-PRECISION-FOCUS-SYSTEM consisting of:

STEINER PRECISION-SETTING offers individual dioptre setting for the right/left eyepiece to perfectly adjust your personal visual acuity. Once set, you are ready for all observations. Simple to operate.

STEINER FAST-CLOSE-FOCUS central focusing wheel requires minimal, stepless rotation for quick absolute sharpness from close-up to infinity - comfortable, easy to use. For razor-sharp details at a close-focus range from 2m to infinity.

STEINER DISTANCE-CONTROL-SYSTEM gains valuable time where fast reaction is required: once the estimated observing distance is pre-set on the scale of the non-slip XL focusing wheel, no more than a little fine tuning is necessary.

- COMFORT-BALANCE-SYSTEM: Maximum comfort by ergonomic ComfortGrip thumb rests made of Technogel. Safe and fatigue-proof, long-term observations, even with one handed use are provided and a perfect balance is guaranteed. Ergonomic, rotating eyecups made of skin-friendly, non-ageing silicon protect against indirect light and wind draughts.
- EXTREME RUGGEDNESS: The legendary durability at a temperature range of -40 °C to +80 °C uses a lightweight die cast magnesium alloy housing that is corrosion free and shock proof. The comfortable NBR-Longlife rubber armouring withstands the effects of oil, acid or climatic influences. Even in extremely wet conditions, heat or cold the surface stays grasp and slip proof. The nitrogen pressure filling via a two-way-valve-system prevents fogging up and from condensating inside the binocular. Water pressure proof up to 5 m.
- STEINER NANO-PROTECTION: Always a clear view by the protective, hydrophobic coating on the lenses that makes water sheeting off and dirt, dust, snow are repellent for easy cleaning and clear view.
- FIELD-TESTED ACCESSORIES consisting of a neoprene ClicLoc-carrying strap that can be fastened and released in seconds and its loops permit an easy use of a comfort harness (offered separately). Fitted in a high-end bag, both rain protection cap and objective covers are made of NBR longlife rubber.

SEE TRUE COLOURS

WILDLIFE 10X42

The 10x42 with 10 times magnification for the best observation of little details at long distances.

MAGNIFICATION 10 x I FIELD OF VIEW 108 m I WEIGHT 716 g

WILDLIFE 8X42

The 8x42 with a wider field of view for a more stable image also when you are moving.

MAGNIFICATION 8x I FIELD OF VIEW 125m I WEIGHT 725g

The new WILDLIFE BINOCULARS SERIES perfectly represents everything Steiner stands for: innovation, extreme ruggedness, usability, high optics quality and outstanding mechanical reliability. The New Steiner WILDLIFE is designed and developed for the ambitious outdoorsmen and outdoorswomen who cannot accept compromise when it comes to equipment. When the weather becomes a threat, you need your equipment to be reliable. The new design and re-engineered optics make the new WILDLIFE a companion you can always trust, especially in the most adverse conditions.

- STEINER HIGH-DEFINITION-OPTICS deliver razor-sharp images with high image contrast and brilliant colour definition. First-class coating technology and light transmission always provide clear and bright images, even in poor light conditions.
- FAST-CLOSE-FOCUS central focusing wheel requires minimal, stepless rotation for quick absolute sharpness from close-up to infinity- comfortable, easy to use.
- **DISTANCE-CONTROL-SYSTEM** is the fastest focussing system in the market and enables pre-setting of observation distance and sharp focussing by one simple turn of the non-slip XL-focussing wheel. (10x42 and 8x42 Models)
- XL FIELD OF VIEW ensures an overview of search and observations activities.
- ERGONOMIC DESIGN ensures extreme handiness and compactness.

- EXTREME RUGGEDNESS with durable polycarbonate Makrolon housing, Water Pressure Proofness to 2 m and the Nitrogen-Pressure-Filling via the two-way-valvesystem against fogging up inside the optics at a temperature range between -20 °C to +70 °C. Non-slip NBR-Longlife rubber armour protection resists oil, acid or adverse weather. Impervious to harsh conditions for generations of trusted use.
- ERGONOMIC EYECUPS made of skin-friendly, non-ageing silicone provide observation comfort and protection against incident light and draught. Simply folded down for use with eyeglasses.
- CLICLOC-STRAP ATTACHMENT SYSTEM attaches and releases neck strap with instant, push-button ease, and keeps binoculars hanging straight and action-ready.

Item No. 2323

WILDLIFE 10.5X28

The 10.5x magnification offers more power and performance without sacrifi cing weight for detailed nature studies. The light yield in poor weather conditions or at dusk is astounding and will amaze you in all situations.

MAGNIFICATION 10,5 x I FIELD OF VIEW 88 m I WEIGHT 344 g

WILDLIFE 8X24

The small flyweight with 8x magnification is the ideal companion for hiking and mountain/rock climbing. Great optical performance, large field of view and extremely rugged.

Item No. 2321

COMPACT AND CAPABLE IS NO LONGER A CONTRADICTION

MARINE

MOST OF THE WORLD IS WATER. ALL OF IT IS HOME TO STEINER.

It's not just wet. It's a whole different world. Fogbound mornings, afternoons of glaring sun and salt spray, nights like floating on ink. Always in motion, temperatures all over the board, distances that challenge land-bound perceptions. Steiner marine optics were built for this: waterproof, corrosion-proof, always crystal-clear, with special caotings, construction and capabilities specifically created for a water-borne life - from the inventor of compass binoculars.

COMMANDER GLOBAL COMMANDER LRF COMMANDER NAVIGATOR PRO

COMMANDER GLOBAL 7X50c

The integrated digital compass with electronic magnetic field measurement and automatic declination adjustment delivers precise readings anywhere in the world. Experience astounding clarity with Diamond Marine lens coatings and high-definition optics.

MAGNIFICATION 7x | FIELD OF VIEW ≥ 130 m | WEIGHT 1147 a

The integrated electronic magnetic field measurement ensures absolutely precise bearings, everywhere in the world from the Arctic Circle to the South Seas. Analogically superimposed on the lower edge of the image, the display is especially easy to read without disturbing the field of view. The intuitive operation and the compensation for inclination angles make handling easy and reliable.

The **COMMANDER GLOBAL** binocular upgrades marinestandard 7x magnification and 50mm objectives with Diamond-Marine lens coating and high definition optics for astounding clarity, plus an integrated digital compass with electronic magnetic field measurement and automatic declination adjustment for precise readings anywhere in the world. Intuitive to use, easy to read, with a distance-to-object reticle, the Commander Global is the most capable binocular on the water.

····· COMMANDER OVERALL FEATURES ·····

- DIGITAL WORLDWIDE COMPASS shows precise, easy to read bearings superimposed on the edge of the field of view, plus illumination and reticle for finding distance and object.
- STEINER HIGH-DEFINITION-OPTICS for clear images in full contrast with maximum resolution.
- STEINER DIAMOND-MARINE-COATING is a unique formula that reduces glare, enhances clarity and maximizes light transmission for optimized viewing in hazy light and after dark.
- Top performing optics by SPORTS-AUTO-FOCUS SYSTEM that lets you focus each eyepiece to your vision once, then remains razor sharp from 20 m to infinity, no more chasing focus on moving targets, 3D-images and the specification 7x magnification and 50 mm objective produce a wide, stable view and bright, clear images in all conditions.
- LARGE FIELD OF VIEW for the utmost overview in every situation.
- LEGENDARY RUGGEDNESS with durable polycarbonate Makrolon housing that withstands 11G of impact, Floating Prism System to absorb severe shock, impact and abuse without damage, Water Pressure Proofness to 10m, Nitrogen-Pressure-Filling into the optic against fogging up inside at temperature range between -40 °C to +80 °C and the protective, hydrophobic Steiner Nano-Protection on the lenses making water sheeting off and dirt, dust, snow are repellent for easy cleaning and clear view.
- COMFORT-BALANCE-SYSTEM with NBR-Long Life rubber armouring (for better grip, protection and slip resistance on board), Steiner ComfortGrip thumb rests, versatile ErgoFlex Eyecups and the **unique Memory-Ocular** saving personal diopter settings.
- HIGH-END ACCESSORIES with hardcase, comfortably padded, highvisibility floating strap, ClicLoc neoprene-carrying strap for instant, push-button ease, rain protection cap and objective covers.

COMMANDER LRF 7X50

Position and distance control to navigational targets and other important landmarks, paired with outstanding optical quality, typical for the Steiner Commander series. For better approach to harbours and river estuaries.

MAGNIFICATION 7x I WEIGHT 1295 g I WIDTH 206 mm I HEIGHT 161 mm

Lightning speed

Rangefinding takes place at the press of a button using the latest in laser technology. Distance is calculated using an invisible laser pulse and displayed in the binoculars. You can track objects at varying distances using continuous measurements in scan mode without refocusing. This feature is especially helpful for small or moving targets.

No product epitomises the legendary STEINER value for innovation and tradition better than the new **COMMANDER 7X50 LRF.** These binoculars combine the high definition optics of the proven Commander Series with innovative laser rangefinding technology for determining position, distance control to navigational targets and other important landmarks. The blend of functionality, ruggedness, precision and comfort define a new top class for the Commander series.

····· COMMANDER LRF OVERALL FEATURES ······

· STEINER HIGH-DEFINITION-OPTICS

Sharp, high contrast and high-resolution images. Top class coating technology for outstanding image quality and light transmission

STEINER SPORTS-AUTO-FOCUS

Once set, the unique STEINER Sports-Auto-Focus always provides razorsharp images from 20 m to infinity - without needing to refocus.

RANGEFINDING UP TO 1700 METERS

Exact rangefinding up to 1700 m using laser technology. Calculate precise distances directly while observing anywhere, even when estimates are challenging and inaccurate.

SCAN MODE FOR MOVING TARGETS

LEGENDARY RUGGEDNESS

The durable and long-lasting Makrolon housing made from polycarbonate is rugged through temperatures ranging from -15°C to 55°C. The non-slip NBR-Longlife rubber armouring resists oil, acids or adverse weather. The surface retains a secure grip even in extreme damp, heat or cold.

· COMFORT-BALANCE SYSTEM

NBR-Longlife rubber armouring, STEINER ComfortGrip thumb rests, versatile ErgoFlex eyecups and Memory-Ocular for storing personal diopter settings.

WATERPROOF UP TO 5 m

..... USES FOR THE COMMANDER LRF 7X50 IN MARITIME SETTINGS:

- As a backup for GPS (positioning through distance measurements) and for tracking other ships and vessels to minimise the risk of potential collision.
- For identifying the position of accident victims in the water (MOB) and better assist rescue vehicles arriving by water and air, and for more precise estimates of displacement and deviation due to current, wind and sea swell.

LARGEST AND MOST PRECISE COMPASS

With a 40 mm-diameter, the large integrated HD-Stabilized compass of the Commander 7x50c is a market leader. The bearing works thanks to the size of the compass and the optimized fluid damping quickly, accurately and reliably, even under extreme conditions. A user-friendly illumination and a precision reticle for exact size or distance calculation round off the high performance compass and give you that little bit of extra security on high seas. Rely on your safest navigational equipment on board.

XL FIELD OF VIEW

Rounding out the optical performance of the Commander with the best possible overview in any situation. The field of view was maximized by around 12% to 145m / 1000m. Significantly brighter, clearer images will thus provide perfect safety at sea.

THE COMMANDER AMONG BINOCULARS

The new Commander Series is unmatched in terms of technology and innovation. With its razor-sharp High-Definition-Optics and the most accurate analog compass as well as the optimum combination of functionality, ruggedness, precision and comfort the Commander binoculars define a new class. For the highest ambitions on the water, where there is no compromise.

tem No. 2305

COMMANDER 7X50c

Additionally integrates a fluid-dampened, HD stabilized illuminated compass with ranging reticle, creating one accurate and invaluable navigation tool.

MAGNIFICATION 7x I FIELD OF VIEW ≥145 m I WEIGHT 1190 g

Item No. 2304

Delivers exceptional image clarity, sharp edge-to-edge-definition and contrast, as well as high light transmission for navigating in low light or fog.

MAGNIFICATION 7x I FIELD OF VIEW ≥145 m I WEIGHT 1090 g

The new **COMMANDER SERIES** is unmatched in terms of technology and innovation. With its razor-sharp High-Definition-Optics and the most accurate analog compass as well as the optimum combination of functionality, ruggedness, precision and comfort the Commander binoculars define a new class. For the highest ambitions on the water, where there is no compromise.

NAVIGATOR PRO 7X50c

Delivers excellent image clarity, sharp definition and contrast. 50 mm objective diameter for bright pictures in low light.

MAGNIFICATION 7x | FIELD OF VIEW ≥123 m | WEIGHT 1030 a

NAVIGATOR PRO 7X50

Carries additionally a large, HD fluid-damped and illuminated analog compass for easy-to-read navigation.

MAGNIFICATION 7x I FIELD OF VIEW ≥123 m I WEIGHT 1110 g

The NAVIGATOR PRO SERIES is the choice for charterers, water sports enthusiasts, weekend anglers and hobby sailors. It offers exceptional performance for the price with many of the features found on premium, world-famous STEINER marine binoculars. They are reliable, simple to use and boast legendary STEINER ruggedness.

- STEINER HIGH-CONTRAST-OPTICS provide bright, sharply contoured images with natural colour definition for outstanding viewing quality suitable for both beginners and professionals.
- Perfect attunement for on-water use by **SPORTS-AUTO-FOCUS SYSTEM** that lets you focus each eyepiece to your vision once, then keeps razor sharp from 20 m to infinity, no more chasing focus on moving targets, 3D-images and the specification 7x magnification with wide, stable images for tracking boats, buoys and bridge numbers even in rough water.
- · MOST PRECISE FLUID-DAMPENED, SHOCK ABSORBING COMPASS in its class with illumination and bearing mark.
- LEGENDARY RUGGEDNESS with durable polycarbonate Makrolon housing, Floating Prism System to absorb severe shock, impact and abuse without damage, Water Pressure Proofness to 5 m and the Nitrogen-Pressure-Filling into the optic against fogging up inside at temperature range between -20 °C to +60°C.
- **ERGONOMIC DESIGN** providing a NBR-Long Life rubber armouring (for better grip, protection and slip resistance on board) and soft, pliable eyecups made of skin-friendly silicon.
- EXTENSIVE ACCESSORIES with case, ClicLoc neoprene-carrying strap for instant, push-button ease, rain protection cap and objective covers.

NAVIGATOR PRO 7X30c

Compact, versatile and lightweight, perfect for short gateways, spontaneous sailing trips or emergency gear bag. Also for use on shore.

MAGNIFICATION 7x I FIELD OF VIEW ≥123 m I WEIGHT 520 g

NAVIGATOR PRO 7X30

Additionally equipped with an HD stabilized compass in compact frame, for clear images and reliable headings in an easy-handling size.

MAGNIFICATION 7x I FIELD OF VIEW ≥123 m I WEIGHT 560 g

STEINER WARRANTY. PERFORMANCE YOU CAN PASS DOWN.

With every STEINER optical product comes a lifelong relationship, with you and yours. We build trusted optics for life's defining moments. Pursuit of these moments demands quick detection, location and identification of your objective through your most important sense, vision. Be it in pursuit of wild life, a marine bearing, law enforcement suspect or military combatant, our commitment to quality and the STEINER Warranty is our promise that Nothing Escapes You.

The world wide 10 to 30 year STEINER Warranty means we stand behind our products. Over half a century of experience building rugged and reliable, mil-spec product and supplying them to professionals, amateurs and also armed forces all around the world allows us to have this

kind of confidence. We at STEINER are totally committed to the very highest standards of quality, dependability, and most of all customer satisfaction. Our Warranty assures you of that commitment. However, should one become defective within the warranty period, for any

reason other than theft or deliberate misuse, we will service it at no charge - no questions asked. We kindly ask for your understanding that wear parts such as rubber armouring, carrying straps, evecups or lens covers are not included in the scope of warranty.

If you have already purchased a STEINER product, kindly fill out the warranty registration: www.steiner.de
