MISSION & VALUES

VISION

Guided by our values, we endeavor to have our products used wherever precision aiming solutions are required to protect individual freedom.

MISSION

We will continue to be a leader in the design and manufacture of high-quality, innovative sighting systems for use by law enforcement, military and individual customers.

VALUES

- > **Honesty/Integrity**
We will be honest, dependable, trustworthy and fair towards each other, our employees, our customers and our suppliers.
- > **Teamwork/Dedication**
We will work together as employees, customers and suppliers, valuing the unique contributions of each, to produce optimal aiming solutions.
- > **Customers**
We desire long-term relationships with our customers. We will listen and continually improve our products to meet their needs.
- > **Quality/Innovation**
We will strive to attain a zero-defect rate in all our processes. Our products will be made to maximize durability and service life. We will continue to lead our industry by encouraging creative solutions.
- > **Morality**
We believe that America is great when its people are good. This goodness has been based on biblical standards throughout our history and we will strive to follow those morals.

The Trijicon® DIFFERENCE

A HERITAGE OF BRILLIANCE

Trijicon® is continuously seeking out the latest technologies to better enhance aiming solutions to address the needs of its customers. This pursuit is at the core of who we are and has been the heritage of Trijicon back to the founder, Glyn Bindon. Glyn was a great visionary, engineer, and pioneer of tritium and fiber optics technology—the foundation for much of the company's product success. The discovery of the interaction between the human eye and reticle technology continues to be a benchmark in Trijicon product development.

THE BINDON AIMING CONCEPT

Although human vision is based on a binocular or two-eyed vision of an image, traditional riflescopes present a monocular view of the target. This monocular view significantly decreases vision capabilities and makes it difficult to acquire and track targets.

Traditionally, “both eyes open” aiming has been widely used with iron sights or reflex-style sights, but use with a magnified scope was often deemed implausible. The Bindon Aiming Concept (BAC) is a method of combining “both eyes open” aiming while using a magnified scope.

Shooting with “both eyes open” offers several advantages to the user: better situational awareness, a far superior sense of balance, a wider field-of-view, and far less eye strain. These advantages aid the shooter in quick target acquisition and improved shooting performance.

UTILIZING BAC

When tracking a moving target with your shooting eye through a riflescope, the image appears blurry as the riflescope moves due to the magnification. This blurriness forces the brain to automatically switch eye focus and take in target data from the non-shooting eye (non-magnified). Due to the use of a highly illuminated aiming point in most Trijicon optics, the reticle remains visible in the shooting eye and your brain will superimpose the aiming point onto the non-magnified target.

When the weapon is moving onto the target, you will not notice any magnification, all that will be seen is the illuminated reticle. Once you slow the weapon onto the target, the target will “zoom” in, allowing you to identify and engage more accurately if necessary. This aiming concept happens naturally, without conscious thought, for those with equal or close-to-equal vision in both eyes.

MONOCULAR VIEW

BINOCULAR VIEW

FINDING YOUR DOMINANT EYE

In order to maximize the potential of “both eyes open” aiming, you must know which eye is dominant. To determine this, conduct the following test:

- > First, OPEN BOTH EYES, and hold your index finger out in front of your line of sight on a fixed object.
- > Next, CLOSE your non-shooting eye and note the position of finger on target.
- > Then OPEN BOTH eyes, keeping finger on target.
- > Finally, CLOSE opposite eye and note position of finger on target.
- > If your finger/aiming point does NOT move, that is your dominant eye. If your finger/aiming point moves off target at a great distance, your OTHER eye is dominant.

Scan the QR code for a video demonstration of the Bindon Aiming Concept.

MILITARY & LAW ENFORCEMENT

TRUSTED

Proven, increased accuracy and combat-tested durability make Trijicon® sights and scopes the clear choice for military and law enforcement professionals. Trijicon sights are standard issue for many military divisions around the world (including U.S. Special Operations Forces and U.S.M.C.), along with hundreds of municipal and county departments and numerous state police departments.

TESTED

With decades of use by military and law enforcement, Trijicon's sights and scopes stand up to even the toughest situations. Our advanced technology optics are tested to the extreme to ensure the utmost durability and precision so military personnel and law officers can perform better, faster and more effectively.

TRUE

We believe that those who put their lives on the line for us deserve the very best. Providing brilliant, accurate optics and sights is just one way Trijicon® gives back to those who protect and serve. We also seek to maximize power sources with the latest technologies, from using tritium and fiber optics to solar cell-assisted illumination.

SHOOTING & HUNTING

PRECISION

From hitting that 1,000-meter target to harvesting elk to defending one's life, the reasons to choose Trijicon® sights and optics are many. Our products allow for precision shots in any situation. From low light to even no light, know that accuracy and precision come standard on every Trijicon product.

PERFORMANCE

Trijicon® products are built to the highest standards and made to be both technologically advanced and durable. Whether shooting competitively, recreationally, or hunting around the globe, you can be assured your optic or sight will rise to the occasion.

PREFERENCE

No matter your preference, be it long guns, handguns or bows, there is a Trijicon® optic to fit your application. Many of our products are designed with cross-platform applications in mind, making it an easy transition from your long gun to your pistol.

Trijicon
ACOG[®]

THE SCOPE THAT CHANGED EVERYTHING

There's a reason the Trijicon ACOG[®] (Advanced Combat Optical Gunsight) is the official medium-distance engagement optic of the U.S. Special Operations Forces and Marine Corps. And there's a reason over one million ACOGs have been produced. They offer an illuminated reticle pattern for use in bright to low/no light, along with legendary durability and reliability. In fact, every feature of its design was chosen for a single purpose: to provide increased hit potential in all lighting conditions.

FEATURES

BATTERY-FREE ILLUMINATION

Most ACOG® models feature a tritium/fiber optic illuminated reticle that automatically adjusts the brightness based on available light.

RUGGED ALUMINUM-ALLOY HOUSING

Forged 7075-T6 aircraft-aluminum-alloy housing provides for a nearly indestructible sighting system.

“BOTH EYES OPEN” DESIGN

The ACOG® can be used as a CQB sight when shooting “both eyes open,” utilizing the Bindon Aiming Concept (see pg. 7).

SUPERIOR QUALITY GLASS LENSES

Multi-coated lenses provide superior clarity and light-gathering capabilities with zero distortion.

FIXED MAGNIFICATION

Fewer moving parts than a variable optic equals more durability. Seven magnifications available: 1.5x, 2x, 3x, 3.5x, 4x, 5.5x, and 6x.

BULLET DROP COMPENSATING & RANGING RETICLES

Available in most models.

COMBAT PROVEN

No other magnified optic has been used more in combat than the ACOG®.

SHOCK-RESISTANT

Proven to withstand recoil from a .22LR to a .50BMG and everything in between. Easily passes U.S. Military drop test requirements.

WATERPROOF

Exceptional waterproof performance. Dry nitrogen-filled to eliminate fogging. Exceeds military standards.

LIMITED LIFETIME WARRANTY

Tritium lamp is warranted to illuminate for 15 years on fiber optic scopes and 10 years on non-fiber optic scopes.

“I can't speak highly enough of this scope. It has been strapped to my leg through 37 airborne operations, 7 fast ropes in the mountains of the Korengal Valley and hundreds of combat patrols with zero failure. Thank you for such a great product.”

*— Staff Sergeant
Donovan Burson

Trijicon

ACOG®/RMR® Combo

THE ULTIMATE SIGHT FOR CQB AND LONG DISTANCE

This dual-sighting system gives the shooter a distinct tactical advantage with the option of either the Trijicon ACOG® or the RMR®. For quick target acquisition, choose the RMR® Type 2 LED, Type 2 Adjustable LED or RMR® Dual-Illuminated sight. For accuracy and pinpoint bullet placement at a distance, choose the magnified ACOG. You have the best of both worlds. No tools are needed for windage and elevation adjustments because the ACOG also features external windage and elevation adjusters.

Trijicon® Reflex Sights

ABSOLUTE PRECISION

Rifles. Carbines. Shotguns. Pistols. Machine Guns. If you can shoot it, we can make it more precise. Trijicon® reflex sights are designed to provide fast target acquisition and engagement in most any light. They're also built with Trijicon's legendary toughness and versatility. This is how we've become one of the most trusted names in the reflex sight world.

Trijicon
RMR®

AS RUGGED—AND AS ACCURATE—AS IT GETS

Add speed and precision to your self-defense, duty weapon, competition, or target pistol with an RMR® — an upgrade to your stock iron sights. The Trijicon RMR® is designed to be as durable as the legendary Trijicon ACOG®, while also improving precision and accuracy with any style or caliber of firearm.

The RMR is designed with a patented housing shape that absorbs impacts and diverts stresses away from the lens to increase durability. The RMR Type 2 LED and Adjustable LED models offer redesigned and upgraded electronics that are proven to perform when mounted on slide ride pistols and other small arms. The RMR Dual-Illuminated models offer a battery-free alternative that is just as rugged and reliable.

MODELS

RMR® Type 2 LED

RMR® Type 2
Adjustable LED

RMR® Dual-Illuminated

FEATURES

UNIQUE PATENTED HOUSING SHAPE

Forged 7075-T6 aircraft-aluminum-alloy housing shape diverts the force of an impact away from the lens, greatly increasing the durability of the sight.

TRUE-COLOR, MULTI-COATED LENS

Creates a wide-band light transmission for minimal change in target area color.

ADJUSTABLE WINDAGE/ELEVATION

Easily adjustable without special tools. 1 MOA per click.

RMR® DUAL-ILLUMINATED

Tritium-phosphor lamp illuminates reticle in low-light conditions and fiber optics automatically adjust the brightness level and contrast to available light conditions.

RMR® TYPE 2 ADJUSTABLE LED

Easy-to-use buttons on the sides of the optic allow the user to adjust the illumination brightness, toggle between manual and automatic modes, and power down the RMR® for storage.

VERSATILE SIGHT

Multiple primary applications including rifle, pistol, shotgun and carbine, or use as a secondary sight with a magnified optic.

PARALLAX FREE

WATERPROOF TO 20 METERS (66 ft.)

LIMITED LIFETIME WARRANTY

Tritium lamp is warranted to illuminate for 15 years from date of original manufacture (Dual-Illuminated RMR®). Electronics are warranted for 5 years from date of original manufacture (LED & Adjustable LED RMR®).

UPGRADED ELECTRONICS*

Ruggedized battery contacts and electronics ensure performance and survivability in harsh environments.

BATTERY CONSERVATION MODE*

Automatically adjusts aiming dot to ambient lighting conditions after 16.5 hours.

The small size and rugged design make the Trijicon RMR® adaptable to many firearms platforms, including pistols. Photo to the right shows the RMR milled into a Glock 17 slide with Trijicon Bright & Tough™ Suppressor Sights.

**Not available on the Dual-Illuminated RMR, which offers battery-free technology.*

Trijicon
MRO®

FAST TARGET ACQUISITION EVERY TIME

The Trijicon MRO® (Miniature Rifle Optic) and MRO® Patrol are sealed miniature reflex sights intended for use on rifles, carbines and shotguns to provide fast target acquisition. Their large apertures and tapered light paths maximize the viewing area and allow for better situational awareness and fast target engagement—especially from non-standard shooting positions. The MRO Patrol adds lens covers for both the ocular and objective lenses, along with an Anti-Reflection Device KillFlash® that protects you from unwanted detection or in bright conditions while eliminating glare.

MODELS

MRO® (Red Dot)

MRO® (Green Dot)

MRO® Patrol (Red Dot)

ALL MRO® FEATURES

LARGE VIEWING AREA

Allows faster target acquisition and engagement with reduced “tube effect.”

AMBIDEXTROUS BRIGHTNESS CONTROL

Brightness dial is equally usable by left- or right-handed operators without having to remove hand from fire control.

ADJUSTABLE BRIGHTNESS SETTINGS

Eight brightness settings, including two night vision-compatible settings with a mid-position “off” feature.

EASY-TO-SET ADJUSTERS

Adjusters provide positive-click reticle movement in ½-MOA increments and require no special tools for operation.

AIRCRAFT-GRADE ALUMINUM HOUSING

Forged 7075 housing and fully sealed construction protects against the toughest elements.

SUB-FLUSH ADJUSTERS

Capless design eliminates lost caps, snag hazards and ensures against inadvertent adjustment or loss of zero.

SUPERIOR QUALITY GLASS LENSES

Multi-coated lenses provide superior clarity and light-gathering capabilities with zero distortion and provide for a crisp dot reticle.

PARALLAX FREE

WATERPROOF TO 30 METERS (100 ft.)

Dry nitrogen-filled to prevent fogging.

SINGLE LITHIUM BATTERY

MRO Red Dot: 5 years of continuous use at day setting “3” (setting 5 of 8) at 70°F; MRO Green Dot: 1 year of continuous use at day setting “3” (setting 5 of 8) at 70°F

LIMITED LIFETIME WARRANTY

Electronics are warranted for 5 years from date of original manufacture.

The Trijicon MRO® was specifically engineered with a slightly canted objective lens, allowing for a shorter optic while minimizing reflections.

MRO® PATROL FEATURES

OCCULAR LENS COVER*

Lens caps protect glass from damage and help reduce glare and reflection.

ANTI-REFLECTION DEVICE KILLFLASH®*

Protects you from unwanted detection or in bright conditions and eliminates glare.

*Available only on the MRO® Patrol.

Trijicon
SRS[®]

SHORT BODY. SERIOUS TECHNOLOGY.

The Trijicon SRS[®] (Sealed Reflex Sight) is a uniquely designed, MIL-SPEC-rugged, parallax-free reflex sight which incorporates a larger aperture for maximum situational awareness in a shorter body. The illuminated 1.75 MOA red dot with 10 brightness settings (3 NVG compatible) is powered by a single AA battery, assisted by a solar cell to extend battery life. The snag-free button pads make brightness adjustments easy and eliminate fumbling under stress or with gloves.

MODELS

1x38 (with Thumbscrew Mount)

1x38 (with Quick-Release Mount)

FEATURES

HYBRID-ILLUMINATED RETICLE

Powered by a combination of a single AA battery, assisted by a solar cell to extend battery life.

RUGGED ALUMINUM-ALLOY HOUSING

Forged 7075-T6 aircraft-aluminum-alloy housing provides for a nearly indestructible sighting system.

SINGLE AA-ALKALINE OR LITHIUM BATTERY

Over 3 years of continuous use at brightness setting 7 of 10 at 70°F with supplied lithium battery, even in dark storage.

EASY PUSH BUTTONS

The brightness adjustment buttons are designed to be easily manipulated and accessible.

MANUALLY ADJUSTABLE BRIGHTNESS CONTROL

10 brightness settings, including 3 night vision and 1 super-bright. A visible dot—no matter the lighting conditions.

MULTI-LAYER BROADBAND ANTI-REFLECTIVE COATING

Parallax-free, 38mm objective lens provides a larger field of view. Unique lens design helps create a much shorter optic.

PARALLAX-FREE

WATERPROOF TO 50 METERS (165 ft)
Dry nitrogen-filled to prevent fogging.

SHOCK RESISTANT

Designed to withstand shock from various weapon platforms.

LIMITED LIFETIME WARRANTY

Electronics are warranted for 5 years from date of original manufacture.

The Trijicon SRS® features a photovoltaic cell, or in layman's terms, a solar panel. This solar panel utilizes ambient light to assist in reticle illumination and helps extend the battery life.

Trijicon

MGRS®

BECOME A FIRST-ROUND-HIT MACHINE

The Machine Gun Reflex Sight (MGRS®) is a non-magnified optic that mounts to both the M2 and M240 machine guns. The Trijicon MGRS is intended to aid the machine gunner in rapid target acquisition and engagement that will allow keeping “both eyes open” from a natural shooting position. Accuracy is enhanced by use of the machine-gun-specific, interchangeable range dials, and performance is assured with a strong 7075-T6 forged-aluminum housing.

MODELS

MGRS®

MGRS® MAG COMBO

FEATURES

INTERCHANGEABLE RANGING DIALS

Two interchangeable dials for the M2 (.50 caliber) and M240 (.308/7.62) machine gun allow operator to dial in target distances for specific host weapons.

35 MOA SEGMENTED CIRCLE WITH 3 MOA DOT

Significantly increases the probability of first-round hits.

FORGED 7075-T6 ALUMINUM HOUSING

Nearly indestructible aircraft-grade aluminum and 80% stronger than extruded 6061.

LARGE OBJECTIVE LENS

Ample 3 in. x 2 in. viewing area.

WATERPROOF TO 2 METERS (6.6 ft.)

Dry nitrogen-filled and fog resistant.

EASILY ACCESSIBLE BATTERY COMPARTMENT

Requires one CR123A lithium battery.

THREE DETACHABLE PICATINNY RAILS

Detachable rails allow for mounting of lasers and LRFs to the top or side of optic.

WINDAGE AND ELEVATION ADJUSTMENTS

Includes elevation and azimuth adjustment to 100 MOA total travel.

LIMITED LIFETIME WARRANTY

Electronics are warranted for 5 years from date of original manufacture.

MGRS® MAG Combo

35 MOA Segmented Circle with 3 MOA Dot

The Trijicon MGRS® MAG 3x Magnifier is built to work with the Trijicon MGRS for the ultimate first-round-hit solution. It is shown here with a flip-to-the-side mount, which is sold separately.

Trijicon® Iron Sights

THE FIRST CHOICE OF PROFESSIONALS

Traditional iron sights are often ineffective in low-light situations, so we did something about that. Trijicon® iron sights excel in a wide range of lighting conditions (including low light) and are built with our legendary durability to handle whatever comes their way. Take advantage of superior technology for aiming solutions you can trust.

Bright & ToughTM Night Sights

AMERICA'S FINEST DESERVE THE BEST

The Trijicon Bright & ToughTM Night Sights are a self-luminous, three-dot, night sight alternative to traditional iron sights. They are the first choice of major handgun manufacturers and standard issue with numerous local, state and federal law enforcement agencies.

MODELS

Bright & Tough™ Night Sights

FEATURES

INSTANTLY VISIBLE SIGHT PICTURE IN NO-LIGHT OR LOW-LIGHT SITUATIONS

Tritium phosphor-filled glass lamp provides battery-free glow allowing for a visible sight picture in all lighting situations.

INCREASED DAYLIGHT DOT VISIBILITY

White-painted rings around tritium-lamps enhance user's ability to see sight picture in bright-light shooting situations.

ENHANCED PROTECTION FROM HEAVY RECOIL AND HARSH CLEANING SOLVENTS

Tritium gas lamps are contained within proactive aluminum cylinders and have additional silicone rubber cushioning.

EVENLY DISTRIBUTED LIGHT FROM TRITIUM LAMPS

Each Trijicon® tritium lamp is capped with a sapphire jewel that helps evenly distribute the light from the lamp and also acts as an additional layer of protection from puncture and cleaning solvents.

LIMITED LIFETIME WARRANTY

Tritium lamp is warranted to illuminate for 5 years on orange lamps, 12 years on green and yellow lamps from date of original manufacture.

Trijicon

Bright & Tough[™] Suppressor Night Sights

QUIET DOMINATION

Trijicon Bright & Tough[™] Suppressor Night Sights continue the low-light and no-light prowess of the original Bright & Tough Night Sights, while being designed specifically for handguns fitted with suppressors. They can also serve as backup iron sights for the growing number of shooters who utilize pistol-mounted red dot sights, such as the Trijicon RMR[®]. Multiple front/rear configurations are available for a variety of applications.

MODELS

Bright & Tough™ Suppressor Night Sights

FEATURES

INCREASED HEIGHT TO ACCOMMODATE MULTIPLE SHOOTING APPLICATIONS

Specifically engineered to be as robust as possible while still allowing use with a suppressor or as backup iron sights for a slide-mounted red dot sight, such as the Trijicon RMR®.

INSTANTLY VISIBLE SIGHT PICTURE IN NO-LIGHT AND LOW-LIGHT SITUATIONS

Tritium phosphor-filled glass lamp provides battery-free glow, allowing for a visible sight picture in all lighting situations.

INCREASED DAYLIGHT DOT VISIBILITY

HD™ Night Sights

PRECISION IN ANY LIGHT

The Trijicon HD™ Night Sights are a self-luminous, three-dot night sight set. The front sight features a highly visible photoluminescent paint outline to quicken sight acquisition. The “U” notch rear sight is angled and serrated to reduce glare and aid in front-sight focus.

MODELS

HD™ Night Sights

FEATURES

ENHANCED FRONT-SIGHT ACQUISITION IN BRIGHT, TRANSITIONAL AND NO-LIGHT SITUATIONS

Glow-in-the-dark, photoluminescent-painted front outline combines with a "U" notch rear and black-painted rear outlines to quickly draw your eye to the front post in all lighting conditions.

ONE-HANDED SLIDE MANIPULATION

Steeply hooked front surface to assist in an emergency, one-handed slide manipulation.

INSTANTLY VISIBLE SIGHT PICTURE IN NO-LIGHT AND LOW-LIGHT SITUATIONS

Tritium phosphor-filled glass lamp illuminates sights for high visibility in all lighting conditions.

ENHANCED PROTECTION FROM HEAVY RECOIL AND HARSH CLEANING SOLVENTS

Trijicon

HD XR™ Night Sights

THE NEXT LEVEL OF PRECISION

Building on the features of the HD™ Night Sights, the Trijicon HD XR™ Night Sights are for the next level of advanced target identification and engagement at increased distances. A thinner front-sight post allows shooters to have a larger field of view that further enhances the ability to identify targets, expedite engagements and see hits on target at longer distances.

MODELS

HD XR™ Night Sights

FEATURES

EXPANDED FIELD OF VIEW AND A PRECISION SIGHT PICTURE FOR LONGER-RANGE ENGAGEMENTS

Thin front post (.122 in. width) promotes a larger field of view for fast target identification and engagement at longer distances.

ENHANCED FRONT SIGHT ACQUISITION IN BRIGHT, TRANSITIONAL AND NO-LIGHT SITUATIONS

Glow-in-the-dark, photoluminescent-painted front outline combines with a "U" notch rear and black-painted rear outlines to quickly draw your eye to the front post in all lighting conditions.

ONE-HANDED SLIDE MANIPULATION

Trijicon®

Fiber Sights

ILLUMINATION FOR A CLEAR, PRECISE SIGHT PICTURE.

Behind Trijicon® Fiber Sights are years of engineering and manufacturing experience in producing the industry's leading night sight and fiber-illuminated scopes and sights. Featuring similar fiber optic materials used in several Trijicon fiber optic scopes and sights, including the battle-proven ACOG®, the Trijicon Fiber Sights are purposely engineered to bring the absolute brightest aiming point while retaining strength and maintaining a refined sight picture. Whether carrying or competing, these bright, thin sights create the perfect aiming point for fast, accurate rounds on target.

MODELS

Fiber Sights

FEATURES

HIGHLY VISIBLE FRONT SIGHT

A bright front post fiber (0.060" diameter) combined with a subdued rear sight promotes acquisition of front sight and target.

CLEAR, PRECISE SIGHT PICTURE

A thin front post (.110" width) allows for a refined sight picture in a variety of shooting environments and distances and gives a better field of view for longer range engagements.

WITHSTANDS RIGOROUS SHOOTING, ROUGH HANDLING, AND AGGRESSIVE HOLSTER USE

Using leading edge fiber technology and Trijicon's legendary rugged metal construction, this fiber sight maximizes retention and durability.

ONE-HANDED RETURN MANIPULATION

Steeply hooked front surface of rear sight assists in emergency one-handed slide manipulations.

COMFORTABLE TO CONCEAL

Rounded edges of rear sight reduce snag points for improved comfort while carrying.

LIMITED LIFETIME WARRANTY

TrijiDot[®]

AIM WITH CONFIDENCE

The TrijiDot[®] is a fiber optic shotgun sight. The fiber optic collects ambient light while a rugged sapphire lens magnifies and focuses the light, resulting in a bright aiming point for a wide range of lighting conditions.

MODELS

FEATURES

FIBER OPTIC TECHNOLOGY

Collects ambient light to provide a brilliant aiming point in most lighting conditions.

ANODIZED AIRCRAFT-GRADE ALUMINUM

Robust fiber optic protection.

SECURE NOTCHED MOUNT

Fits over existing bead sight, and locks in place with four set screws.

LARGE BEAD SIGHT

0.157 in./4.0mm bead diameter allows for quick target acquisition.

RUGGED SAPPHIRE LENS

Magnifies and focuses light from fiber optic.

SHOCK RESISTANT

Withstands all shotgun recoils.

Trijicon® Variable Power

THE TOOLS OF A MARKSMAN

For decades, Trijicon® variable-powered riflescopes have earned the trust of America's military, law enforcement and sporting enthusiasts. Every optic is built with legendary toughness, precise adjustability and a high-quality lens system that gives you the accuracy you need to get the job done every time. Choose your tool wisely.

AccuPoint®

VCOG®

AccuPower®

Trijicon

AccuPoint®

ENHANCED ACCURACY IN LOW LIGHT OR NO LIGHT

The Trijicon AccuPoint® is a premium, variable-powered sporting riflescope featuring a battery-free illuminated reticle, superior glass clarity and rugged construction. Designed to stand up to the elements, the AccuPoint maintains the refinement needed for precise windage and elevation adjustments. The multi-layer, coated lenses provide superior light transmission, while the illuminated reticle aids in quick target engagement.

MODELS

2.5-12.5x42

3-9x40

4-16x50

5-20x50

Trijicon AccuPoint®

FEATURES

BATTERY-FREE ILLUMINATION

Fiber optics automatically adjust the brightness level and contrast of the illuminated reticle to available light conditions and a tritium phosphor lamp illuminates the reticle in low light or no light.

VARIABLE POWER

Allows the user to adjust magnification level to situational needs.

AIRCRAFT-GRADE ALUMINUM HOUSING

All-weather rugged construction protects against the toughest elements.

SUPERIOR QUALITY LENSES

Multi-coated lenses provide superior clarity and light-gathering capabilities with zero distortion.

SECOND FOCAL PLANE RETICLE

Reticle size remains constant as magnification increases, which provides a more exact aiming point at higher magnifications.

LONG EYE RELIEF

Provides unparalleled eye relief and protects against high-impact recoil from larger caliber rifles.

EASY-FOCUS EYEPIECE “BOTH EYES OPEN”

The illuminated reticles allow you to shoot with “both eyes open” for better target acquisition.

ZERO FORWARD EMISSION

The illuminated reticle does not project any illumination from the objective lens.

EASY-TO-SET ADJUSTERS

MATTE BLACK FINISH

Eliminates glare and light reflection.

WATERPROOF TO 3 METERS (10 ft.)

Dry nitrogen-filled to eliminate fogging.

LIMITED LIFETIME WARRANTY

Tritium lamp is warranted to illuminate for 15 years from date of original manufacture.

The 5-20x50 AccuPoint® features easy-to-use external adjuster controls for windage and elevation adjustment and a side parallax adjuster for enhanced accuracy at long ranges.

Trijicon

AccuPower®

THE POWER OF SUPERIOR CLARITY

The Trijicon AccuPower® is a versatile, variable-powered riflescope with an electronic-illuminated reticle. Featuring a premium lens system with full multi-layer coatings, the AccuPower provides an incredibly clear sight picture. The reticle illumination is powered by a single CR2032 lithium battery and has an easy-to-operate brightness adjustment dial with multiple brightness settings and an "off" feature between each setting.

FEATURES

ILLUMINATED RETICLE

Powered by a CR2032 lithium battery.

ADJUSTABLE BRIGHTNESS SETTINGS

Multiple brightness settings with an "off" feature between each brightness setting.

AIRCRAFT-GRADE ALUMINUM HOUSING

All-weather rugged construction protects against the toughest elements.

SUPERIOR QUALITY LENSES

Multi-coated lenses provide superior clarity and light-gathering capability with zero distortion.

SECOND FOCAL PLANE RETICLE

Reticle size remains constant as magnification increases, which provides a more exact aiming point at higher magnifications.

FIRST FOCAL PLANE RETICLE

(1-8x28 and 4.5-30x56 FFP)

Reticle subtensions used for ranging and wind holds will remain constant at any magnification, allowing the user to rapidly apply the correct hold.

EASY-FOCUS EYEPIECE

EASY-TO-SET/RESET ADJUSTERS

WATERPROOF TO 3 METERS (10 ft.)

Dry nitrogen-filled to eliminate fogging.

LIMITED LIFETIME WARRANTY

Electronics warranted for 5 years from date of original manufacture.

The adjustable brightness settings on the AccuPower® make it a great solution for any lighting condition. The user can adjust the reticle illumination to suit their situation and ensure the most accurate shot.

Trijicon
VCOG®

EXTREME DURABILITY. ABSOLUTE PRECISION.

The Trijicon VCOG® (Variable Combat Optical Gunsight) is a rugged, variable-powered riflescope with an LED-illuminated first focal plane reticle. The VCOG is designed for extreme durability and features outstanding glass quality. The magnification range accommodates CQB and long-distance marksmanship. The VCOG is a MIL-SPEC-grade optic, robust enough for any application.

MODELS

1-6x24 (with Thumbscrew Mount)

1-6x24 (with Quick-Release Mount)

FEATURES

FIRST FOCAL PLANE RETICLE

Allows user to rapidly acquire target and apply correct hold throughout magnification range.

SUPERIOR QUALITY GLASS

Multi-coated lenses provide superior clarity and light-gathering capabilities with zero distortion.

RUGGED ALUMINUM-ALLOY HOUSING

Forged 7075-T6 aircraft-aluminum-alloy housing provides for a nearly indestructible sighting system.

ILLUMINATED RETICLE

Powered by a single AA battery.

BDC AND UNIVERSAL RETICLES

Choose from Bullet Drop Compensating (BDC) and Ranging reticles for quick and accurate range estimation or Universal MIL and MOA reticles to accommodate multiple calibers, ammunition weights and barrel lengths.

EASY-TO-SET ADJUSTERS

Adjustments are easy and precise without requiring tools.

NO RINGS NEEDED

The need for conventional ring mounts is eliminated with the integrated mounting adapter that provides quick and easy mounting to any rail system. Compatible with many rails in the marketplace designed to fit the Trijicon ACOG®.

RUGGED & DURABLE

Tested to MIL-STD-810G, a series of tests approved by the U.S. Department of Defense to simulate conditions in the field.

ADJUSTABLE BRIGHTNESS SETTINGS

Six user-selectable brightness settings.

QUICK MAGNIFICATION ADJUSTMENTS

Integrated dial fin allows easy rotation through magnification settings.

CONSTANT EYE RELIEF

No head or stock adjustments throughout entire magnification range.

WATERPROOF TO 20 METERS (66 ft.)

Dry nitrogen-filled to eliminate fogging.

LIMITED LIFETIME WARRANTY

Electronics are warranted for 5 years from date of original manufacture.

The Trijicon 1-6x24 VCOG® has a specially designed housing that features a keyway. This keyway, or indentation, provides structural rigidity to the RMR® mounting adapter, preventing unwanted rotation.

Trijicon REAP-IR®

FEATURES

640x480 THERMAL SENSOR

Offers clear, crisp imagery through smoke, dust and complete darkness.

THUMBSTICK SYSTEM CONTROLLER

Fully ruggedized, weatherproof, multi-directional thumbstick control.

12 MICRON TECHNOLOGY

60 Hz frame-rate system with 42% increase in magnification over 17 micron technology.

STADIAMETRIC RANGING

Determine your distance at a moment's notice.

RETICLE DIGITAL READOUTS

Displays your current reticle position in the lower-left corner of the screen.

EDGE DETECT MODE

Offers a fraction of the brightness of other modes so your eyes are not as prone to night blindness from the screen.

8x DIGITAL ZOOM

Advanced built-in sighting system maintains boresight and increases MOA accuracy.

MADE IN THE USA

Built for shooters by shooters right here in America.

FEATURES

ENHANCED TARGET RECOGNITION (ETR)

To ensure that your imagery isn't washed out against the sky or horizon, IR-HUNTER® focuses its processing power onto your target for precisely detailed images.

DIGITAL FOCUS CONTROL (DFC)

Allows you to not only focus your picture to your optimum setting, it allows you to sharpen your overall picture for extreme detail.

IR WINDOW LENS PROTECTION

Your objective front lens is the most high-tech item on the sight that's exposed to the elements, so we protect it with a highly transmissive, fully replaceable IR window.

8x E-ZOOM DIGITAL ZOOM

A digital electronic zooming system comes standard on the IR-HUNTER® series. This lets you achieve various magnifications quickly. And with the advanced, built-in sighting system, the reticle will maintain boresight and even increase its MOA accuracy.

SUPERIOR PROCESSING POWER

Comes with a 60 Hz frame rate, digital OLED display, 640x480 pixel resolution and 12 micron sensor pitch.

VERSATILE BY DESIGN

Choose your system: standard system, tactical system.

PREMIUM OPTICS

Uses only the best materials in the objective lens assemblies—such as AR-coated GAS-IR lenses—for shock-resistant technology and high environmental durability.

MIL-SPEC CONSTRUCTION

6061-T6 Aluminum Housing.

TURRET ADJUSTMENT KNOBS

Easy, intuitive controls that let you take your shot with confidence.

Trijicon IR-PATROL® THERMAL MONOCULAR

THE MULTI-PURPOSE, HIGH-PERFORMANCE THERMAL IMAGING MONOCULAR

Whether your mission is searching for a suspect or securing your position, the Trijicon IR-PATROL® is the ideal multipurpose thermal imaging monocular. It's compact, lightweight and rugged; offering some of the most advanced performance options on the market for a clear, sharp image. Choose from handheld, helmet-mounted or rifle-mounted IR-PATROL systems.

Trijicon IR-PATROL®

EDGE DETECT TACTICAL MODE

This is an entirely new way to view your target with more precision. Edge Detect Mode is a fraction of the brightness of other modes so your eyes are not as prone to night blindness from the screen.

MAXPOL POLARITY WHITE HOT/ BLACK HOT

The IR-PATROL® comes with an easy-to-control polarity mode that lets you switch between three levels of white hot and three levels of black hot. Why limit yourself to one setting? With low, medium and high levels, you can pick your perfect mode.

Trijicon **SNiPE-IR**[®] THERMAL CLIP-ON

THE NEXT-GENERATION CLIP-ON SIGHT

The Trijicon SNiPE-IR[®] is designed to become one with your optical day sight, both on the battlefield and on the hunting field. It comes with a 640x480, 12 micron VOx sensor and OLED digital micro display that give you clear, brilliant imagery at a fast 60 Hz frame-rate system—even through pitch-black darkness. The Trijicon SNiPE-IR is optimized for use with a 4x day optic but will work with variable sights up to approximately 6x.

MODELS

IRCO-35

For more information about Trijicon[®] Electro Optics Division products, visit TrijiconEO.com.

ITAR ITAR controlled item. For export restrictions on all products, see page 153.

FEATURES

DIGITAL OLED DISPLAY

640x480 OLED offers a pixel-to-pixel match with the sensor for the clearest possible image.

12 MICRON TECHNOLOGY

Incredible image quality and 42% increase in magnification over 17 micron sensors.

NO-SHOT ZERO SIGHT-IN

Easy sight-in integration for accurate calibrations.

VISRELAY COLLIMATES LIGHT FOR DAY OPTIC

Eliminates parallax.

60 HZ FRAME-RATE SYSTEM

Get real-time imaging.

12° HORIZONTAL FOV

Enhanced situational awareness for detection and target acquisition.

Trijicon® Archery

THE POWER OF TRITIUM

Bow hunters aren't your average hunters. And these aren't your average, run-of-the-mill bow sights. These are battery-free, technological marvels that help serious hunters own the fields from dawn to dusk, thanks to a tritium-phosphor lamp and superior fiber optics that give you quick target acquisition in low-light conditions. It's what bow hunters deserve.

AccuPin®/AccuDial™ Combo

ACOG® XB

The Trijicon AccuPin™ and its combination of fiber optic and tritium are Pope & Young® legal.

Trijicon AccuPin®

FEATURES

TRIANGULAR AIMING POINT AND CLEAR PIN

Precision aiming point with unobstructed view of target.

HIGH-IMPACT SHADE SHIELD

High-visibility aiming circle for optimal aiming-point acquisition and protection.

FIELD-REPLACEABLE PIN

Finger-tighten design makes replacement quick and easy.

FULLY HOUSED SIGHT LEVEL

Helps line up the perfect shot.

TRITIUM-PHOSPHOR LAMP & FIBER OPTICS

Provide illumination for any light condition without batteries.

AIRCRAFT-GRADE 6061-T6 ALUMINUM

Made in the USA and so tough, it's guaranteed for life.

LIMITED LIFETIME WARRANTY

Tritium lamp is warranted to illuminate for 12 years from date of original manufacture.

This unique pin design is more robust than ordinary bow sights, but on the off chance something happens, the fiber optic pin is easily replaced out in the field with a simple finger twist of the pin fastener nut.

FEATURES

AccuDial™ BOW MOUNT

Enables exact, "on-the-fly" range adjustment and synchronization for any bow/arrow speed combination, thanks to its laser etched dial.

ADJUST TO BOW'S SPEED

Synchronize the AccuDial™ to the bow's speed to utilize ranging dial (speed range 245-335 feet per second)

PRE-SET RANGING DIAL

Easily dial-in on range holdover in one yard increments from 0-80 yards once bow speed is synchronized.

Trijicon ACOG® XB

FEATURES

BOLT-DROP COMPENSATOR

Designed to be zeroed at 30 yards with stadia lines out to 80-yards in 5-yard increments.

TOTALLY BATTERY-FREE

Trijicon ACOG® XB delivers increased hit potential in all lighting conditions—without the use of batteries.

TRIJICON® FIBER OPTICS

Automatically adjusts the brightness level and contrast of the reticle to available light conditions.

TRITIUM-PHOSPHOR LAMP

Aiming reticle glows in low-light conditions for quick target acquisition. Lamp is guaranteed to illuminate for 15 years.

LIGHTWEIGHT RUGGEDNESS

Forged 7075-T6 aircraft-grade-aluminum housing provides extreme durability in a compact design and will withstand the shock pattern of all crossbows.

BROADBAND ANTI-REFLECTIVE COATED LENSES

Multi-coated lens provides superior clarity and light-gathering capabilities with zero distortion.

INTERNALLY ADJUSTABLE

Since only the prism housing moves, the Trijicon ACOG® XB is much more rugged than conventional designs.

WATERPROOF TO 20 METERS (66 ft.)

Dry nitrogen-filled to prevent fogging.

LIMITED LIFETIME WARRANTY

Tritium lamp is warranted to illuminate for 15 years from date of manufacture.

Instead of using batteries that tend to fail hunters when they need them most, the ACOG® XB uses fiber optics and tritium to offer target acquisition you can trust in low-light conditions.

Trijicon®

CUSTOMER CARE

LIMITED LIFETIME WARRANTY

Trijicon® warrants that our manufactured products will be free from defects in material and workmanship for the lifetime of the original owner. Trijicon® will repair or replace (at our option) the registered product. This warranty does not apply to defects caused by anything which is deemed abnormal, abusive or improper, including any fault resulting from an accident or improper service. This warranty specifically applies to the optical systems and metal structure of the product and does not apply to the illumination system.

VCOG®, LED ACOG®, AccuPower®, MGRS®, MRO®, MRO® Patrol, SRS®, RMR® Type 2 LED, and RMR® Type 2 Adjustable LED

Electronics are warranted to be free of defects in material and workmanship during normal use for a period of five (5) years from date of original manufacture.

ACOG®, Reflex, RMR® Dual-Illuminated, AccuPoint®, and AccuPin® Bow Sight:

The tritium lamp is warranted to glow for fifteen (15) years from date of manufacture for optics with tritium and fiber optic configuration. Optics with tritium only are warranted to glow for ten (10) years from the date of manufacture, and the AccuPin® Bow Sight is warranted to glow for twelve (12) years from date of manufacture.

ACOG® XB Scope:

The tritium lamp is warranted to glow for fifteen (15) years in fiber optic scopes and ten (10) years in non-fiber optic scopes from date of original manufacture.

Bright & Tough™ Night Sights, HD™ Night Sights, and HD XR™ Night Sights:

The tritium lamp is warranted to glow for five (5) years for orange night sights, twelve (12) years for green and yellow night sights from date of original manufacture.

SPECIAL NOTE: Many Trijicon® products contain tritium and are regulated by the nuclear regulatory commission. They may not be disassembled by anyone other than Trijicon, Inc. which holds the necessary licenses. Any attempt at disassembly or repair will annul this warranty. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

CERAKOTE WARRANTY: Cerakote is a ceramic painting process that is applied over the normal hard-anodized aluminum surface.

While it is durable, Cerakote could scratch, dent and/or chip if care is not taken. As such, the Cerakote paint is not warranted against surface damage.

The product will continue to be protected by the hard-anodized coating, even if the Cerakote surface is damaged.

ELECTRO OPTICS WARRANTY: Trijicon® warrants that optical systems and structural housings will be free from defects in material and workmanship for the lifetime of the original owner. Trijicon warrants the electronic systems and components for a period of 3 years for the original owner from the date of original retail purchase.

Trijicon will repair or replace (at our option) the registered product. This warranty does not apply to defects caused by anything which is deemed abnormal, abusive, or improper including any fault resulting from an accident or improper service.

RETURN POLICY

Please return all items to place of purchase. If you purchased the item directly from Trijicon®, Inc. you must call for a return authorization number. Returns that are sent in without a return authorization number will not be accepted. Items being returned for a credit must be accompanied by a copy of the original invoice or purchase order for each item listed in the return for credit. There will be a 20% restocking fee on merchandise returned within six months. Products cannot be returned for credit after six months. Call our Customer Service Team for information at 1-800-338-0563, or visit the "Contact" tab on the Trijicon® website at trijicon.com, for a return authorization number.

REPAIRS

All Trijicon® products are designed and manufactured to provide customers years of reliable performance. In the event your Trijicon® product requires factory service or warranty claim evaluation, please use the return authorization process, which is accessed through the Trijicon® website under the "Contact" tab on the home page.

EXPORT CONTROLS

Trijicon® products are subject to export and foreign trade control laws of the United States. These include the International Traffic in Arms Regulations (22 C.F.R. § 120-130, "ITAR"), the Export Administration Regulations (15 C.F.R. § 730-774, "EAR"), statutes that provide authority for the ITAR and EAR, and economic sanction laws and regulations administered by the United States Government (including those set forth in 31 C.F.R. Parts 500-598).

The U.S. Department of State strictly regulates exports and re-exports of defense articles and technology. The State Department's Directorate of Defense Trade Controls is charged with controlling the export of defense articles and defense services covered by the United States Munitions List, in accordance with 22 USC § 2778-2780 of the Arms Export Control Act and the ITAR. Trijicon products listed in this catalog that include the **ITAR** icon have been designated as defense articles subject to the ITAR. Export of these products from the United States requires prior authorization from the U.S. Department of State.

The U.S. Department of Commerce, Bureau of Industry and Security, is responsible for administration and enforcement of the EAR, which strictly control the export and re-export of "Dual-Use" commodities and technology that have both commercial and military or proliferation applications. The Commerce Department vigorously enforces such controls for reasons of national security and foreign relations. All products listed in this catalog that do not include the **ITAR** icon are subject to the EAR. Export of these products from the United States may require prior authorization from the U.S. Department of Commerce.

Diversion contrary to these laws and regulations is prohibited.
