**RMR**®

## AS RUGGED—AND AS ACCURATE—AS IT GETS

Add speed and precision to your self-defense, duty weapon, competition, or target pistol with an RMR® — an upgrade to your stock iron sights. The Trijicon RMR® is designed to be as durable as the legendary Trijicon ACOG®, while also improving precision and accuracy with any style or caliber of firearm.

The RMR is designed with a patented housing shape that absorbs impacts and diverts stresses away from the lens to increase durability. The RMR Type 2 LED and Adjustable LED models offer redesigned and upgraded electronics that are proven to perform when mounted on slide ride pistols and other small arms. The RMR Dual-Illuminated models offer a battery-free alternative that is just as rugged and reliable.
