FURY® HD 5000

LASER RANGEFINDING BINOCULARS

NEW FOR 2019

INTUITIVE RED OLED DISPLAY

GLASSPAK™ INCLUDED

GLASS IT. RANGE IT. STALK IT. SHOOT IT.

Two of the most important pieces of hunting gear combined into one powerful, long-ranging unit, Fury® HD 5000 rangefinding binoculars make glassing and ranging ultra-fast and efficient. Right-side button controls make one-handed manipulation of both functions quick and easy, cutting down on set up time in the field. And don't forget—these Fury HD 5000 binoculars join all other Vortex® products in that they are completely covered by our unbeatable VIP Warranty, and that includes electronic components!

THREE RANGING MODES

HCD Mode

Horizontal Component Distance (HCD) mode displays the angle compensated distance to the target.

LOS Mode

Line of Sight (LOS) mode displays the actual line of sight range.

Scan Mode

Scan mode displays continuous distance readings when panning.

RAZOR® HD GEN II

RIFLESCOPE

DEADLY SERIOUS SCOPES, FOR DEADLY SERIOUS WORK.

The Razor® HD Gen II provides long-range shooters the advanced features needed to perform at the highest level. This includes locking turrets, the integrated L-Tec™ zero stop and first focal plane reticles for when shots need to be taken quickly from any magnification. New for 2019, the EBR-7C, Horus™ H59™ and Tremor3™ reticles are our most effective in our lineup and make accommodations for bullet drop and windage correction, and make spotting and ranging at a distance more effective.

PRO SERIES

RIFLESCOPE RINGS

NEW FOR 2019

The finishing touch to your rifle and optic combination. Pro Series rings combine rock-solid reliability and strength with high quality machining to ensure ultimate accuracy and consistency. Streamlined, lightweight and durable, these rings use four T-25 Torx-style socket cap screws for secure mounting. Available in two heights for 1 inch tubes and four heights for 30mm tubes.

FEATURES

- Precision machined in the USA from 7075 T6 aluminum and finished with a durable matte black anodize.
- Laser engraved torque specs and scope center heights for easy mounting.
- Integrated recoil lug fits both Weaver and Picatinny rails.

SKU	SIZE/HEIGHT
PR1-L	1" Low (0.75")
PR1-M	1" Medium (0.95")
PR30-L	30mm Low (0.90")
PR30-M	30mm Medium (1.00")
PR30-H	30mm High (1.26")
PR30-XH	30mm Extra High (1.54")

RAZOR[®] HD

RETICLE EYEPIECE

NEW FOR 2019

Used in conjunction with the Razor[®] HD 85mm spotter, range work, calling shots and spotter/shooter communication become seamless. It's essentially like having a ruler in your spotting scope—which comes in quite handy. Just like many of our riflescopes, the eyepiece is available in both MOA and MRAD configurations to match the reticle subtension markings and turret graduations in your rifle scope.

SKU	MAGNIFICATION	MODEL
RS-85REA	22x	MOA
RS-85REM	22x	MRAD

FEATURES

- Expedite the sight-in process, accurately call shots and rapidly give corrections for follow up shots.
- Can be used to estimate target distances.
- Available in MOA and MRAD to match the reticle subtensions and turret click graduations in your rifle scope.
- Compatible with 85mm Razor HD Spotting Scopes.

VORTEX GEAR

Guns, hunting, competitive shooting, home defense, public lands, habitat management, supporting and celebrating our servicemen and women, and the second amendment—some or all of these things run in your blood. The life you live behind your glass—that's what's truly important. It's a part of you. A big part you are proud to wear on your sleeve—literally. Vortex Gear is all those things. Be who you are and wear it proudly. We'll see you out there.
